ATHLETICS BY 4 TO 2 DEFEAT GIANTS

AMERICAN LEAGUE CLUB WINS AGAIN

Three Games Straight Blaze Way of Mack's Men to Championship Goal

SHIBE PARK, Pa., Oct. 24.—In the fourth game of the world's championship series, which had been postponed five times, the Athletics today defeated the New York Giants by the score of 4 to 2. The American League champions outplayed their opponents on all points of the game. They hit Mathewson harder than he had ever been batted in a world's championship game. The hits came when they meant runs.

Bender, on the other hand, pitched a steady, effective game throughout. In no inning, except the first, were the Giants able to bunch their hits. In the opening inning the visitors scored their only runs, on a single, a triple and an infield out. After this inning they gathered five hits.

The local team started on Mathewson in the second inning, when Murphy and Barry each singled. The Waterloo came in the fourth, when successive doubles by Baker, Murphy and Davis and infield outs netted three runs. This seemed to unnerve the wonderful Mathewson, and he was not the same steady, deceptive twirler that the Athletics have batted against in the other games.

Mahewson retired in the eighth inning to allow Becker to bat for him, and Wiltze finished the game, with one hit being scored against him.

The series now stands three victories for Philadelphia to one for New York. Philadelphia now has to win only one more game to capture the championship, while New York must take three games straight.

The total attendance was 24,355 and the total cash taken in was $40,957. This was divided as follows: Players, $22,116.78; national commission, $4095.70; each club, $7372.26. Today's game ends the players' participation in the receipts. They will receive $127,916. Of this amount the winner will receive 60 per cent and the loser 40 per cent. Twenty-one men in each team are eligible to participate in the division of the money of each club.

The playing field was somewhat heavy, but its condition was as good as a big squad of men could make it. Groundkeeper Schroeder had a force of men at work most of the night filling up the holes and hardening the surface.

The day was fine, but was more fit for fotball than baseball. There was a brisk wind blowing from the north earlier in the day, which had a nip in it and made top coats very comfortable. At 8 a. m. the government weather bureau thermometer registered fifty degrees, with the prospect that it would grow very little warmer.

FANS FLOCK EARLY.

The bright weather brought out the crowds early. Before 8 o'clock there were several hundred in line at Shibe park waiting for the bleacher gates to open. The line grew longer every minute and by the time the gates were opened, shortly after 9 o'clock, there were about 2000 persons congregated about the entrances. All reserved seats were sold before the first game was played a week ago yesterday, and another crowd that taxed the capacity of the big ground was on hand when play began. The bleachers began filling rapidly after 11 o'clock.

The police today ordered taken down all the stands erected on the roofs of the houses surrounding the grounds. These stands were so crowded at the last game that the authorities feared an accident.

COBB GIVEN AUTO.

The New York team took the field at 1:40 for their preliminary practice. During this period Ty Cobb, the champion batsman of the American League, was presented with an automobile which he was given for the high score. The New York team showed speed in their early work.

Connolly went to right field and Brennan to left. Umpire Dineen called play ball at 2 o'clock sharp.

The batteries were Mathewson and Meyers for New York and Bender and Thomas for Philadelphia.

The batting order follows:

New York—Devore, left field; Doyle, second base; Snodgrass, center field; Murray, right field; Merkle, first base; Herzog, third base; Fletcher, shortstop; Meyers, catcher; Mathewson, pitcher.

Philadelphia—Lord, left field; Oldring, center field; Collins, second base; Baker, third base; Murphy, right field; Davis, first base; Barry, shortstop; Thomas, catcher; Bender, pitcher.

The week's rest tuned up the men, who were on the verge of staleness, and enabled the pitchers to get back their strength. The wounds inflicted on Frank Baker by Outfielder Snodgrass of New York are almost healed and gave the Athletic's third baseman no trouble today. The "Charley horse" that First Baseman Merkle of New York has been carrying around is also better.

FIRST INNINGS.

Giants—Devore for New York reached first on an infield single, Bender diverting the course of the ball but was too late for Barry to handle. Doyle drove the first ball pitched to right center for a triple, scoring Devore. On Snodgrass' fly to Lord Doyle scored. The New York rooters made

CARS CRASH CAUSING PANIC

Smash-Up on Broadway Between College Avenue and Piedmont Vehicles

Passengers Bruised, but No One Is Seriously Injured by the Collision

Passengers on two crowded street cars were thrown into a panic this morning about 11.30 o'clock when College avenue car No. 239 crashed into the rear end of Piedmont avenue car No. 200 on Broadway, just beyond the Providence hospital.

The ends of both cars were badly damaged from the impact and the passengers of each thrown violently to the floor. Women screamed and men made haste to reach the exits. Flying glass and splinters caused a few bruises and lacerations, though no one was seriously injured. The motorman sprang back into the car and thus escaped receiving the full force of the crash.

The accident was attributed to the motorman of the College avenue car failing to keep a sufficient distance from the car ahead. When the Piedmont car stopped at a crossing, he was going at such speed that he was unable to bring his car to a standstill before the other had moved, as he anticipated it would.

It was some time before the women passengers were composed sufficiently to again board the cars, which were detained while the crews cleared the wreckage.

WOMAN IS SLAIN IN ROOM

Dr. Helen Knabe's Bruised and Cut Body Is Found in Her Quarters

Indianapolis Apartment House the Scene of Brutal Crime During Night

INDIANAPOLIS, Ind., Oct. 24.—Dr. Helen Knabe was found dead, her body cut and bruised, in a bedroom of her apartment today. The police are sure that she was murdered, but they have not been able to discover a clew to the murderer.

Dr. Knabe's body was found when her assistant, Miss Katherine McPherson, entered the apartment. The body and the bed upon which it lay were covered with blood, but no weapon was found in any of the rooms, nor was it apparent a robbery had been committed. All the windows were closed, though the victim, who was devoted to physical culture, habitually slept with the windows open.

EVENING OF STUDY.

Dr. Knabe was last seen alive by Miss McPherson, to whom she had said late yesterday that she intended to spend the evening in study. She lived and had her office on the ground floor of an apartment house in a prosperous and quiet neighborhood. No persons, so far as has been learned, heard sounds of a struggle in Dr. Knabe's apartment last night.

Augusta Knabe, the physician's cousin, and the latter's stepfather, Frank Kropp, told the police that Dr. Knabe had no enemy, so far as they knew. She was 35 years of age and a graduate of the Indiana College of Medicine.

Jefferson Haynes, the negro janitor of the apartment house in which Dr. Knabe lived, was taken to police headquarters this afternoon to be questioned as to his whereabouts at different hours last night and whether he saw any one about the Knabe apartment other than Dr. Knabe.

FORMER POLICEMAN COZAD FIRES BULLET INTO HEAD

Discredited Official 'Tires of Living,' but Fails to Find Mortal Mark When He Tries Suicide

Oscar Cozad, who resigned from the police force under pressure some weeks ago, shot himself at his home, 536 Thirty-first street, last night, the bullet entering his mouth and passing out in front of the ear. The wound will not prove fatal.

Cozad was placed under arrest and taken to the receiving hospital, where the wound was dressed. The ex-policeman will be detained on suspicion of insanity.

According to the findings of the police, Cozad had been driking during the evening, and on his way home he met Patrolman Pleasants.

"I'm tired of living," Cozad told Pleasants. "I'm going home to shoot myself."

"Don't talk like a fool," responded Pleasants.

Shortly after Cozad had entered the house, his wife heard three shots fired in rapid succession. She rushed into the room and found her husband lying on the floor, with a smoking revolver beside him. He was just able to say that he had shot himself by accident while cleaning his revolver.

Cozad resigned several weeks ago when it was found that he had failed to tell the truth concerning an accident near Piedmont baths in which a young Oakland girl was involved. The girl was thrown from Cozad's horse while riding the animal and received severe injuries. Cozad declared that he had left the horse tied to a pole and that the girl, with two companions, had come to the place and mounted to take a ride on a dare.

This story was confirmed at the time by one of the girl's companions, but it subsequently developed that the girl had ridden the horse at the invitation of Cozad while the patrolman was on duty.

Charged with having falsified his account of the affair, Cozad tendered his resignation to Chief of Police Wilson as a member of the department. This was immediately accepted. Since leaving the police force, Cozad has been appointed a deputy state fish and game warden.

Aviator Rises From Stewart Ranch at 8:20 and Travels 30 Miles an Hour.

BANNING, Cal., Oct. 24.—Aviator Fowler rose from Stewart's ranch and passed over Banning at 8:20 o'clock this morning. He was going at a rate of 30 miles an hour, about 3500 feet up.

EDOM, Cal., Oct. 24.—Fowler passed here at 9:26, having made 30 miles from Banning in 36 minutes.

MECCA, Cal., Oct. 24.—Fowler landed here at 10 a. m. Flew 61 miles in 68 minutes.

Bars of Gold Stolen In Transit to Bank

Lead Substituted for Precious Metal to the Value of $26,000.

BERNE, Switzerland, Oct. 24.—There has been a mysterious theft of bars of gold of a value of $26,000 which had been consigned to the Swiss National Bank by London houses. Eight cases of bars of gold, having a value of $200,000, were shipped from the British capital. When they reached here it was found that one of the cases had been emptied of its contents. Bars of lead had been substituted.

Chinese Gets Divorce From American Wife

For the first time in the history of the Superior Court of Alameda County a Chinese was this forenoon granted a divorce from his American wife. The title of the case was Teong W. against Coelliff Wong. The couple were married three years ago and in his complaint Wong charged that after living with him only a few days his wife ran away with another Chinese. An interlocutory decree on the ground of willful desertion was granted by Judge William H. Waste.

MINNEAPOLIS, Oct. 24.—Having repeatedly declared that he would kill President W. H. Taft on the latter's arrival here tonight, Julius Bergerson, 52 years old, was placed in the county jail here today pending an inquiry into his mental condition.

KIU KIANG TAKEN BY REBELS

Fears Expressed That Manchus Will Encourage Attack on Foreigners

SHANGHAI, Oct. 24.—Kiu Kiang, in the province of Kiang Si, has fallen into the hands of the rebels. The government house was burned.

PEKING, Oct. 24.—The revolutionary spirit is manifesting itself in the north as well as in the south. Those who heretofore have believed the northern provinces might rally around the government are of the opinion that secessions will follow in rapid succession.

There are persistent reports that uprisings have been planned for the next few days in the immediate vicinity of the capital.

DIPLOMATS ARE ACTIVE.

The diplomatic corps has discussed the necessity of maintaining communication between Tientsin and Peking. The military commanders report only sufficient troops to protect the legation quarter in Peking and the foreign settlement in Tientsin, which number approximately 1000 and 3200 respectively. Consequently, in a serious emergency, only Japanese would be immediately available from the garrison at Port Arthur and Dalny. As yet the legations have not considered seriously the suggestion of an English paper in Shanghai that the Manchus, when desperate, might endeavor secretly to encourage the ignorant multitude to attack foreigners and thereby attain foreign intervention, which would militate in their favor, they being the only established dynasty.

Four New Volcanoes Bob Up in Alaska

VALDEZ, Alaska, Oct. 24.—Prospectors returning from Fort Wells report that four new volcanoes are belching masses of black smoke on the Kenai Peninsula.

From the mountain towns they are seen very plainly. Two are close together, joined by a high ridge. The other two are seven miles distant. They are apparently nearer Port Wells than to Seward. No one has been close enough to determine their exact locality.

Defense Hopes to Shorten Examination of Prospective Jurors

LOS ANGELES, Oct. 24.—Two talesmen were examined and let go in the first ten minutes of the McNamara murder trial today. Counsel, through lessons of the preceding week, have learned, they said, to ask at the start the questions most likely to disqualify a talesman from serving on the jury which will try James B. McNamara for the murder of Charles J. Haggerty, a victim of the Los Angeles Times explosion of October 1, 1010.

The first two men released today were Emil Rambaud, excused because of a possibility that his working knowledge of the English language would be insufficient, and Charles F. Binder, who is not on the county assessment roll.

The examination of F. J. Mullen, the third talesman up, gave promise of lasting longer, preliminary questions seeming to indicate that he was a possibility.

Among the lessons learned by counsel is that it is a waste of time to examine a man for a day of two and finally learn he is firmly opposed to the death penalty. This has happened several times, and beginning today this question was among those put early in the examination.

FEW ATTEND TRIAL.

The courtroom, which was half empty yesterday, presented a like aspect at the opening of court today. This condition was said to exist partly because the opinion generally prevails in Los Angeles that the corridors are packed daily with persons desiring to enter, and consequently nearly everyone stays away rather than be caught in the supposed crush. Vigilant deputy sheriffs also eye everyone who enters. Some of them act as ushers, assigning seats to visitors, and it is noticed that persons assigned stay where they are put and do not straggle over the courtroom. The main reason for scant attendance, it was said by counsel, is that the staging of the great trial has not really begun, there being nothing sensational in getting a jury as it ordiarily is accomplished, and fine points brought out by opposing counsel are not always understood, if, indeed, they are heard. The lawyers, about their tables converse in conversational tones, and sometimes they talk into their books, so that their voices are heard hardly ten feet away. The quiet speech of Judge Bordwell is a tradition in Southern California.

Beginning with the opening arguments for each side, it is predicted that the courtroom will be filled as soon as it is opened in the morning.

TEN ANSWER NAMES.

Ten men of the first venire of 125 answered to their names when court opened today. Except for nine others in the jury box, all the rest had been excused, either in the rapid-fire preliminary examination made by Judge Bordwell before the trial opened, or in subsequent battles between opposing counsel. Of the nine in the box, Robert Bain, Seaborn H. Manning and F. D. Green had been provisionally accepted by both sides, subject to peremptory examination; George W. McKee was held there because Judge Bordwell yesterday refused to allow challenge for cause offered against him by the defense, and five others were to be examined. They

Father Dying, Police Seek for His Son

Thomas Hartman Wanted at Death Bed of His Parent.

SAN FRANCISCO, Oct. 24.—Thomas Hartman, a fifteen-year-old lad of an adventurous turn of mind, is believed to be somewhere in this city or Alameda county shifting for himself and the police were asked today to search for him and bring him to the bedside of his dying father. The lad ran away from home about three months ago and his father, becoming ill, was recently taken to the German hospital, where he now lies in a sinking condition, asking that his son be brought to him before he passes away. The Hartman boy, it is believed, will be found around moving picture shows or swimming baths, and is described as 5 feet 6 inches tall, smartly dressed, and looking older than his age.

President Speaks While Rain Beats Down on Him

MANKATO, Minn., Oct. 24.—President Taft spent an hour in an open automobile and on a speaker's stand today while a cold rain was beating upon him. He got thoroughly soaked and his overcoat had to be dried out on a radiator in the Elks' Club. Dr. Rhoades, his physician, while not alarmed by the experience, is watching closely lest a cold develops.

Starving Wyoming Indians On the Verge of Revolt

LANDER, Wyo., Oct. 24.—The Shoshone and Arapahoe Indians on the Wind river reservation are on the verge of open revolt, according to reports from settlers in that district. They are said to be near starvation and the cold weather of the past week has added to their misery. Failure of crops and cessation of work on the governmental irrigation project at the agency are the main causes.

Alleged Murderer and Sheriff Killed in Duel

MIDDLESBORO, Ky., Oct. 24.—In a running fight with a sheriff's posse early today, Cal McRaile, wanted for double murder at Pinefille, was killed, and Deputy Sheriff Thomas of the posse received wounds from which he died later. The fight occurred in the mountains near Clear Creek. A reward for the capture of McRaile has been standing for some time.

Deaf Mute Fined for Swearing With Fingers

His Wife, Also Deaf Mute, Was Object of His Soundless Profanity.

ST. JOSEPH, Mo., Oct. 24.—Pleading guilty to swearing at his wife in the sign language, August Carrado, a deaf mute, was fined $10 yesterday in police court. He was charged with using "loud and profane" language, but when haled into court it was learned he could not hear or speak. The word "loud" was stricken from the information and he pleaded guilty in writing to the charge of using "profane language" toward his wife, who is also a mute. When he wrote the word "guilty" he wept.

Old South Church to Be Made Fireproof

BOSTON, Oct. 24.—South church, from the steeple of which were hung the lights which sent Paul Revere on his ride through Middlesex, is to be closed to the public for a year, while the edifice is being rebuilt and made fireproof. The danger of the old church being destroyed by fire has been a menace for years.

After 24-Day Fast, Says He Feels Perfectly Well

BERKELEY, Oct. 24.—At the beginning of the twenty-fourth day of a fasting experiment, John A. Wilson, a Socialist councilman, announced this morning that this is the first day he has felt perfectly well and vigorous since he quit eating October 1. "I hope to let food alone until Monday night, the 30th," said Wilson today, "when Sanford Bennett, the 71-year-old boy, lectures in this city on how to keep young. If I maintain the fast until that night, I expect to tell Mr. Bennett's audience something about keeping young as well as by exercising."

$500 REWARD FOR FATE OF BEASER

Missing Man's Brother Seeks Word of Him, Dead or Alive.

A reward of $500 for information as to the fate of Scott I. Beaser, a mining engineer, who disappeared from Minerva Bar, Plumas county, on August 8 last, has been offered by the missing man's brother, Dr. H. P. Beasar of Fresno.

Since August 8 no trace of Beaser, living or dead, has been found and his many friends in the bay cities have been greatly concerned over the strange circumstances of his disappearance.

Beaser was a graduate of the University of California and while there took a prominent part in student affairs. He was, for several years, connected with the Kern Trading and Oil Company, resigning his office in that company in July in order that he might devote his time to his property in Plumas county. A few weeks after he had gone to Minerva Bar a Berkeley friend, Maurice Lombardi, went to visit him and found the camp in good condition but the owner gone. Everything indicated that when Beaser left it he had intended to soon return. A close search for more than a month failed to give any hint as to what had become of the missing man and it is now feared that he was the victim of foul play.

VERDICT OF SUICIDE.

SAN FRANCISCO, Oct. 24.—The coroner's jury in the case of Ray Bodilla, who was found dead in a cheap lodging house, returned a verdict of suicide this morning. Bodilla, with a bullet wound in his heart, was found without a gun near him in a strange room, and a police investigation failed to clear up the mystery.

SOON TO BUILD LARGE FACTORY

National Biscuit Company's Call for $100,000 Investment.

Within a short time, the National Biscuit Company will erect large factories and warehouses in Oakland, as announced exclusively in THE TRIBUNE last week. It was learned yesterday that the officials of the concern had contracted for a site on San Pablo avenue, where building will soon be commenced. This city will then have the only plant belonging to that company west of Chicago. Oakland will be the distributing point for the western states and for the Orient and inland trade, with the main offices in the Syndicate building.

The great factory of the new industry will give employment to several hundred persons and contribute to the rapidly increasing commercial importance of Oakland. It is said that the investment will reach approximately $100,000 and that construction will begin at once. Although the management refuses to disclose the exact location of the plant, it is understood that it is in the vicinity of the Santa Fe yards near Fortieth street.

ALAMEDA TEAM PROTESTS SUNDAY SOCCER GAME

ALAMEDA, Oct. 24.—At a meeting of the Bay Counties Soccer League held last evening a protest was made by the Alameda team against the Rangers. The protest being upheld against the club the team will have to forfeit two points and play the fame over at the end of the series. The objection was the playing of an unqualified man in the game last Sunday.

Defense Hopes to Hasten Case by Changing the Usual Mode of Procedure in Questioning Talesmen

(Continued From Page 1)

were Walter L. Coward, George E. Anderson, Emil Rambeaud, Charles E. Binder and F. J. Mullen.

Ordinarily when a venire is reduced to ten men a new one is called. In this instance, this is unnecessary at present because parts of two other venires are waiting in the other 11 branches of the superior court of Los Angeles county, and these, according to District Attorney John D. Fredericks, may be used in the McNamara case.

Aside from veniremen already in waiting, there are about 1500 remaining from last January's drawing. Ordinarily about one in three of these is available for jury duty, so that approximately 500 veniremen still are available from whom a jury of twelve men is to be selected if possible. It is considered likely that this will be achieved.

SUGGESTS A CHANGE.

A new method of examining talesmen, which may shorten the service of those not permanently retained, was proposed by Attorney Joseph Scott, of counsel for the defense, and may be adopted. Instead of adhering to California custom of having one side fill up the jury box before the State begins examination, Attorney Scott proposed that as fast as the defense "passes" a man, the State shall examine him, so that if he is subject to challenge for cause he will not have to wait days and perhaps over a week before being excused. Veniremen draw mileage for their first trip and their trip home, and after arriving $2 per day as long as they stay. Almost any venireman, it is agreed, can make more than this sum at his trade or business, and suffers correspondingly from delays. Some of them go home every night and come back in the morning, for which transportation the county does not pay. Occasionally the long hours of separation from outside interests confuse them.

"How many days were you in the box?" one was asked. He scratched his head.

"I don't just know," he said in a moment. "It seems like a year. I'll have to ask the clerk."

YOUNGER MEN IN BOX.

Apparently most of the older men of the present venire were summoned into the jury box at the beginning of the case. Those who now occupy it, except for the holdovers, are far younger than the white-haired group which sat along the courtroom wall the first days of the trial. This, however, does not argue for an early completion of the jury, attorneys say. The elderly men frequently are retired and have no interests which demand their immediate attention. The younger ones generally are engaged in business of some sort, and in his preliminary hearing Judge Bordwell showed consideration for those who were running small business without partners or others who could not take their work over in case of an absence of six months.

"What would happen to your business if you were kept away from it for several months?" he asked one man.

"Judge, I'd have to begin all over again," replied the venireman, and was excused.

Some of the attorneys engaged in the case also say that beliefs which would prevent a man from serving on a jury, such as objection to the death penalty also are more prevalent among the younger men, having gained somewhat wider acceptance since the days when men now advanced in years stopped changing their philosopy of life.

FIRST TALESMAN EXCUSED.

Emil Rambaud, proprietor of a general store in the suburbs, was the first talesman examined when court convened at 10:10 o'clock. In reply to questions by Attorney Darrow, Rambaud, a native of France, admitted that he did not understand the English langauge very well, and counsel for both sides agreed to excuse him.

Mullen added that he had an opinion both as to the guilt or innocence of the defendant as well as to the cause of the explosion, but said he thought he could act as a juror. He said, however, he had believed McNamara guilty from the beginning, and believes likewise now.

He said he could, nevertheless, set aside all opinions and stand equally between the defendant and the state.

"Are you friendly or adverse to unions?" asked Attorney Darrow.

"I have no reason to complain about unions so far as I am personally concerned."

NOTHING AGAINST UNIONS.

"Would you be prejudiced against union men in this case?"

"I do not think I would be prejudiced. I would not allow myself to be. I have absolutely nothing against the unions that I could not set aside."

"Do you know General Otis, proprietor of the Times?"

"No."

"Have you ever expressed an opinion about his views on unions?"

"I always thought he was a little radical."

"Did you ever say General Otis deserved great credit for putting down the unions?"

"I don't recall ever saying that."

"Did you ever have that opinion?"

"Perhaps I have had."

"That's your opinion now, too?"

"Yes."

Mullen explained in this connection his sympathy was "with properly conducted unionism," but was opposed to all lawlessness. He admitted having expressed an opinion many times as to the cause of the Times disaster and that he believed it was dynamite.

DIDN'T READ CONFESSION.

"Did you believe the McManigal confession?"

"I didn't read it thoroughly."

"You knew it implicated the defendant?"

"Yes."

"You read the report of the city investigating committee which declared the building blown up by dynamite and that it was a criminal act?"

"Yes."

"And believe it now?"

"Yes."

Mullen asserted that believeing the McManigal confession, he had reached the opinion that the defendant was guilty.

Attorney Darrow here had placed into the record a newspaper synopsis of Ortie E. McManigal's alleged confession and the report of the city committee which investigated the disaster, exhibiting the clippings to Talesman Mullen, who admitted reading them and believing them. Then Attorney Darrow challenged Mullen for actual bias.

HARRIMAN PROTESTS.

In resisting the challenge District Attorney Fredericks asked Talesman Mullen if he could act impartially, and objection was made by Job Harriman of the defense, who cited a case under California law in which a juror's answer as to how he would act was held to be entitled to no consideration.

The court allowed Mullen to answer and he said he would act fairly and impartially if chosen as a juror. Judge Bordwell interrogated Mullen at length, covering the same questions as were asked by Darrow. Practically the same answers were made by the talesman. The court asked if the opinions held by Mullen were based wholly on public rumor and newspaper reading and he answered in the affirmative.

Harriman, for the defense, asked that the question be stricken out on the ground that nothwithstanding the fact that McManigal's confession and the report of the city committee were printed in the newspapers, Mullen had answered that he based his opinion partly on those statements. The court did not agree that there was a distinction between them and denied the motion. The court recessed at noon with Mullen still under examination.

KILL PLANS TO MERGE 3 BODIES

Two of Berkeley Commercial Organizations May Consolidate, However.

BERKELEY, Oct. 24.—Amalgamation of Berkeley's three commercial bodies, the Chamber of Commerce, Merchants' Exchange, and Board of Trade, which has been proposed, was made impossible by the action of the Board of Trade at its meeting last night. The organization voted, however, to invite the Merchants' Exchange to merge with the board.

After a discussion it was decided that a consolidation with the Chamber of Commerce, as well as the Merchants' Exchange, would not be feasible, as the Board of Trade members, who now pay dues of 50 cents a month, would be expected to submit to a tax of $1 a month, which Chamber of Commerce members are paying. If the Merchants' Exchange members, however, whose dues are the same, join the Board of Trade, their assessments will be cut down one-half, the latter body having fixed 50 cents a month as its rate for dues.

Mayor Wilson, who is attending the League of California Municipalities' convention at Santa Barbara, has been wired by the board, as a result of its action last night, to invite the league to meet in Berkeley in 1912.

Initial plans for next year's flower festival were considered and preparations for a larger carnival than that of last spring will be begun at once.

Cuisine Attached to Schools of St. Louis

ST. LOUIS, Oct. 24.—Pupils of four public schools, served yesterday for the first time with 2½ cent luncheons provided by the board of education, seemed so well satisfied with the food and the arrangements made for serving it that the board will extend the service to all city schools.

Each of the following sold for 2½ cents:

Bowl of noodle soup and four crackers; beef and rice croquettes; cup of chocolate with a roll; glass of milk and two slices of bread and a cup of custard.

The first day's menu will be varied from time to time. A list of food that can be served for the same price has been prepared. This menu ranges from milk and soup to chopped meat sandwiches, gingerbread and blanc mange.

SANTA FE TO ADD THROUGH TOURISTS

John J. Byrne, passenger traffic manager of the Atchison, Topeka & Santa Fe railroad, has wired all concerned that the Santa Fe will operate through tourist sleepers from Oakland to St. Louis on No. 2, commencing November 14, in connection with the Frisco line via Wayroka. This new service will add to the Santa Fe's through care to St. Louis and Chicago and Kansas City from Oakland and other California points.

DENIES BUDDHA WAS CANONIZED

The Paulist Missionary Takes Exception to Prof. Fryer's Statement.

BERKELEY, Oct. 24. — The recent statement made by Professor John Fryer of the University of California that the Roman Catholic church had canonized Buddha, was denied by Rev. Bertrand L. Conway, Paulist missionary from New York, when the question box was opened at Newman hall last night, following a sermon by Rev. Thomas Burke, Rev. Conway's associate in a series of mission services.

Dr. Fryer spoke of the canonization of Buddha at the celebration last week of the 25th hundredth anniversary of the first preaching of the celebrated Hindu by natives of India at the university.

The question was put to Father Conway last evening, and the answer follows:

"It was stated in a university lecture a few evenings ago that the Catholic church canonized Buddha. Is this true?"

Father Conway—"By no means. Our questioner probably refers to the popular mediaeval legend of the Indian saints, Barlaam and Josaphat, which crept into the Roman martyrology about 1515 (Ed. Greven). Laboulage in 1859 was the first to call attention to the resemblance of this romance to the legend of Buddha, as given in the Lalita vistara, or Chronicle of Northern Buddhism. Others have written of it like Liebrich in Germany, Max Muller and Rhys David in England, Bournouf in France, etc.

"The Catholic church does not teach that all things inscribed in the Roman martyrology are absolutely true; the best proof is the history of the martyrology itself which has been frequently corrected by order of the Holy See. Saints have been omitted, once scholars have shown that their acts were not authentic.

"Canonization is a totally distinct thing from insertion of a saint's name in the martyrology. Alban Butter in his "Lives of the Saints" says of the matter:

"'Though Barlaam and Josaphat are names of two holy persons, the greater part of this piece is thought to be a parable or allegory.'

"Since his time scholars have shown pretty closely that the legend of Buddha and the mediaeval legend of our two saints have a common origin; but this does not necessarily disprove the existence of two Christian saints, whose real history has been prevented by legendary accretions. Compare the legend of St. George of England.

THE ORIGINAL STORY.

"The original story was written in Greek (attributed with no proof to St. John Damascene), and we have an Arabic manuscript of the 11th century, in turn translated from the Syriac. Western Europe received a later version in the 12th century, as we find it in the Speculum Historiale of Vincent de Beaurais (x 1264), and the Golden Legend of James de Vorajive of Genoa (x 1298). It was soon circulated all throughout Europe, Germany, Italy, Spain, Poland, Bohemia, Sweden, Iceland, etc.

"The names of these two saints appear in only two editions of the Roman martyrology by Usuard, the one published by Grever in 1515, and the other by Molanus in 1568, with a reference to a catalogue of the saints of no authority printed at Lyons in 1514 by Petries de Natalibus. The eastern chroniclers mention it for the first time in a Slavonic calendar of the 15th century now extant in St. Petersburg.

"We can, therefore, admit that its insertion was simply a blunder of an uncritical compiler who mistook a legend for a true life of a saint without in any way compromising the authority of the church. Which of the two stories is the earlier, we do not know. The Buddhist narrative may be a later and confused version of a story of two Christian converts, for we are not at all certain of the ancient date ascribed to the Lalitavistara. This legendary Buddha may be one of the comparatively late interpolated episodes wherewith the eastern chronicles abound."

OLD TRUNK YIELDS $800,000 FORTUNE

Collection of Papers, Thought to Be Worthless, Are Now Rescued From Chest.

SAN FRANCISCO, Oct. 24.—A petition filed in the probate department of the Superior Court here for the re-opening of the estate of Charles J. Janson, disclosed that a collection of old papers, which had been at the bottom of an old trunk for thirty-two years, constituted a fortune of approximately $800,000. The papers consist of Mexican government bonds and securities and a legal examination, made preliminary to the filing of the petition, is said to have established the fact they constitute a valid claim against the Mexican government for their full value with interest.

Janson died in San Francisco February 2, 1879. His widow, Mrs. Threse Louise Janson, the present petitioner, believed the papers worthless, and the trunk was unopened for years, being used as a receptacle for family heirlooms. The family moved to Mill Valley a few years ago. Mrs. Janson, in conversation with a friend recently, mentioned the papers, and the friend asked to see them. The opinion that they were valuable was expressed after an examination. A family conference was called and David Craelius, a son-in-law of Mrs. Janson, was authorized to make an investigation.

Craelius was appointed administrator of the re-opened estate by Judge J. C. Coffey. Janson was in the service of the Mexican government forty-five years ago. The first of the bonds was executed in his favor in 1863. During the next seven years large blocks of bonds were given to him, some of which were war issues.

BRINGS CHARGES OF INTIMIDATION

Hall Files Action Against Oil Company's President and Lawyer.

SAN FRANCISCO, Oct. 24.—Charging that he was intimidated and forced to hand over 3500 shares of stock which he owned by threats of being sent to prison, W. A. Hall, vice-president of the Pacific Lighter and Engine Company, filed an action against W. W. Stevenson, president of the Black Jack Oil Company, with headquarters in Bakersfield, and Oliver Wadsworth, an attorney in the Mills building. Hall wants the return of his stock.

According to the allegation, he went to Wadsworth's office on August 10 last where, he says, he was accused of wrongfully taking money from this corporation, and declares that he was told he would be arrested if he did not sign over the stock. He declares that he had no money for bail and thought it best to comply with the request.

NATIONAL PATRIOTIC LEAGUE PROSELYTING

To the Editor of THE TRIBUNE—Sir: While it must be borne in mind that woman is a natural reformer and will never stand for the ways of the hidebound machine politician, unfortunately a subtle prejudice keeps the male reformer from openly espousing the suffrage cause, and this enemy to his progress, lurking perhaps unconsciously in his thought, will continue to deter him, until both suffragists and male reformers concentrate their numerical strength into a general progressive movement. Those thinking men and women who favor the formation of a new national party, pledged to female suffrage, should write to the undersigned for a copy of the declaration of principles of the National Patriotic League. Such a party would offer to both male reformers and suffragists a logical means for attaining success. The issue being liberty versus bondage, all reformers must direct their efforts towards increasing that ethical quality called liberty of conscience, as a most valuable national asset. Few males question the fundamental fact of the equality of the sexes, and the league's plan for effective warfare will impel men of principle to openly acknowledge their convictions. When this is accomplished the light of a new freedom will shine over the land and tyranny of special privilege will disappear.

The paid votaries of unjust legislation may argue with noise and fury, but seeing the united ranks of progressive males and invincible suffragists, their courage will fail. Their challenges will become empty boastings and their threats vain declamation. They will be met by the orderly forces of patriotism and reform and will be obliged to "beat it." Thus the powerlessness of corruption will be laid bare and victory will perch upon the banner of the people, where it always belongs.

COUPLE HAVE TROUBLE GETTING LICENSE TO WED

William J. O'Neil and Miss Eva Douglass of Sacramento stood before Deputy Clerk Matt Riley for nearly half an hour late yesterday explaining that they were of age and wanted a marriage license. Both appeared under the age limit and Riley objected to granting the license. O'Neil swore that he was just two days past 21, while his intended bride affirmed that she was more than 18 years.

Both told the clerk that they had made all arrangements for the services, but an hour after securing the license returned to Riley and said that the minister had failed to keep his appointment. They were then directed to the office of Justice James Quinn, who performed the ceremony. McNeil is the son of W. E. McNeil, a well-to-do grocer in the capital city, and his bride is the daughter of W. F. Douglass, a resident of Sacramento.

ANOTHER UNUSUAL RHEUMATISM CURE

Mrs. G. Wiles Relates Experience With New Munyon Treatment.

Crowds Visit Expert's Offices to Try His Methods for Themselves.

Another remarkable rheumatism cure was recorded yesterday for the new Munyon method of medical treatment. Mrs. G. Wiles, who lives at 721 Baker street, San Francisco, came into Munyon's offices and declared:

"I feel compelled, out of consideration for other persons who may be suffering as I did, to give this statement. I was a victim of rheumatism for years and never expected to get cured. I had sharp, shooting pains all over my body and in every joint and muscle—so it seemed—and at times my agony was so great that I would lie awake all night. It was terrible. It was impossible for me to bend my fingers. I simply can not describe the suffering that I endured.

"I tried nearly every patent medicine on the market, but nothing seemed to help me. Then I treated with physicians, but they did me no good. Finally, having read so much about the Munyon uric acid treatment in the papers, I decided to see if he could help me. I took the full course and now I am entirely free from rheumatism. My pleasure is only equaled by my surprise. After all I went through it hardly seems credible even to myself that I could be so completely relieved in such a short time."

Munyon's Pacific coast offices are crowded all the time with patients eager to take his treatment. A continuous stream of humanity keeps his physicians busy in the headquarters in San Francisco in the Harry P. Flannery building; 702 Market street, and in Oakland in the Macdonough building, Fourteenth and Broadway. Munyon also maintains offices in San Jose at 53 South First street and in Fresno in the Forsythe building.

DUCK'S CROP YIELDS REAL GOLDEN NUGGETS

SAN CARLOS, Oct. 24. — Pure, glittering gold in nuggets as big as peas lies in the beds of the streams of the San Mateo foothills. While preparing a duck, which she had purchased from Alexander Dombrosky, a poultry man of San Carlos, Mrs. John Tibbet of Redwood City found several pieces of gravel and a nugget of pure gold as large as a pea in the crop. Drombrosky had recently covered his poultry yard, where the duck had been feeding, with gravel from the bed of San Carlos creek.

The gravel was taken from where the creek passes through the country estate of Colonel N. J. Brittan, the San Francisco capitalist. Following the sensational discovery of the duck the sluice will be applied to the sands of the many San Mateo creeks which wind through the foothills on their way to the bay.

OREGON LEGISLATURE SCORED BY HANFORD

SAN FRANCISCO, Oct. 24.—The Oregon legislature showed an "unwarranted assumption of power" in giving the state courts exclusive jurisdiction in a certain class of admiralty cases, according to a decision rendered here by Judge C. H. Hanford in the United States Court of Appeals.

The Aurura Shipping Company had appealed from a judgment rendered in the United States District Court at Portland, awarding damages to Maggie Boyce, widow of a longshoreman accidentally killed while working on one of the company's vessels docked at Portland. The accident was adjudged due to the company's carelessness. The judgment of the District Court was accordingly confirmed as against the claims of the state tribunal.

Backache

Is only *one* of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

DELAY IN GETTING STEEL FROM EAST

Contractors Explain to the City Council Reason for Difficulty Obtaining Material.

Delay in the erection of steel in the Oakland city hall was the occasion of a conference between Commissioner of Public Works Harry S. Anderson and representatives of the Judson Iron Works this morning. Commissioner Anderson had received a communication from Architects Palmer & Hornbostel charging the delay to negligence on the part of the iron works in placing orders for the steel.

Anderson brought the matter up at this morning's session of the city council and asked for instructions as to what action should be taken against the contractor to induce the Judson people to be more expeditious in the matter. The council authorized the commissioner to confer with the Judson people and to notify them that if any damage suits should be instituted against the city as a result of the steel contractors delaying other contractors the city would bring suit against the steel contractors.

F. D. Parsons, superintendent of the Judson manufacturing company, explained to Commissioner Anderson that a detail sheet had been accidentally mislaid, thus resulting in delay.

"The general delay is caused," he said, "by the fact that the architects demand that this steel shall be detailed in New York by F. A. Burdett & Co., at an expense of $3 a ton to the city of Oakland. But Burdett refuses to guarantee that the detailing is O. K. and as a result we are forced to re-detail it here, thus occasioning additional expense and delay. If the architects' detail man would guarantee the steel against error we could get the erection don in half the time."

LETTER OF COMPLAINT.

The letter from Palmer & Hornbostel forecasting a delay of six weeks in steel erection follows:

Harry S. Anderson, Commissioner of Public Works.

Dear Sir: We beg to advise that the erection of steel for the Oakland city hall will be delayed by about six weeks and we wish to go on record with you that this delay has been caused entire by the contractor's negligence in not placing orders for the material for the columns from the basement to the second floor, inclusive.

Just why this oversight or negligence occurred we are at a loss to know. We hereby recommend that you immediately take action with the Judson manufacturing company in regard to this delay, for should these delays be frequent it will be impossible to erect this building in any reasonable time.

A matter of no small importance is the possible liability which is placed upon the city, for delays caused or incurred to other contractors by the negligence and delay of this contractor. In as much as the progress of all other work depends upon the erection of the steel, you can readily see that this is a material violation of the contract. Kindly advise us what action you propose to take in regard to this delay in order that all correspondence and evidence may be placed in your hands for such action.

Awaiting your advice we remain,

Very truly yours,

PALMER & HORNBOSTEL.

DENIED PROBATION AND HANDED OUT 7 YEARS

Probation was denied to A. J. McDougal this morning by Judge William S. Wells, sitting in the criminal department of the Superior Court, who sentenced him to serve seven years in the penitentiary at San Quentin for forging the name of Attorney A. P. Leach to a check for about $9. McDougal is an ex-convict. Shortly before his arrest for his recent crime he lost four toes of his right foot while working in a factory of the Diamond Match Company. He brought suit against the corporation for $10,000, and in extenuation of the forgery, declared to the court that the corporation was trying to "railroad" him to the penitentiary to defeat his damage suit.

SUFFERING FROM ECZEMA

Unnecessary While Poslam, the Perfect Remedy, Quickly Heals

Eczema, that many-formed skin malady, which authorities assert is usually caused by a disordered diet, never proves fatal and is generally found in those who are otherwise healthy. Poslam has probably accomplished more remarkable cures of this and other skin diseases than any remedy known. It is applied directly upon the disorder, stops itching at once and clears and heals the skin, restoring it to perfect condition. The great majority of cases yield in from two to four weeks. Acne, tetter, barber's itch and similar aggravating troubles are likewise speedily cured.

Merely a small quantity of Poslam used for clearing the complexion, removing eruptions, pimples, rashes and blemishes is sufficient to show what it can do. Poslam is sold for 50 cents by The Owl Drug Co. and all druggists everywhere. For free sample write to the Emergency Laboratories, 32 West 25th st., New York City.

Poslam Soap, medicated with Poslam is the best soap for your skin. Antiseptic, prevents infection. Large cake, 25 cents.

Appointed One of Twenty-one Men in Charge of Work of Chamber of Commerce.

William J. Laymance was this morning elected the new member of the directorate of the chamber of commerce, vice Charles M. Wood, who has ceased to be a member. Laymance was chosen unanimously on the proposal of his name by Director W. E. In Laymance's new position and by virtue of his chairmanship of the real estate board, he will act as a member of the special committee to canvass the business houses of Oakland to secure by subscription approximately $20,000 yearly, to be used in the special advertising work and conduct of the chamber. This committee, which now consists of Directors Capwell, Laymance, Jonas, Randolph, Heeseman, Gier, Leach and Mackay, under the chairmanship of Director E. B. Bull, will meet tomorrow morning at 9:30 for the further outlining of the campaign.

INSANITY TO BE PLEA OF AXTELL

The Slayer of Charles Sollars Goes On Trial at "Gateway City."

STOCKTON, Oct. 24.—That insanity will be the plea on which the defense will be based in the trial of S. B. Axtell, a Lodi editor who on June 17 shot and killed Charles Sollars of Lodi, was brought out this morning at the opening of the trial in the questions asked the veniremen.

When the case was called the courtroom was filled and the corridors blocked by spectators seeking entrance. Over 100 witnesses have been subpoenaed, but as little hope is entertained of securing a jury before the end of the week, they were excused until Monday.

Mrs. J. S. Birmingham of San Francisco, accompanied by her daughter, rendered the Recitative and Aria from "Orpheus" by Gluck, and in response to the enthusiastic encore, a selection from one of Massenet's latest operas. AUTO AND WAGON CRASH IN ROAD

Three Persons Near Death in Collision on East 14th Street.

HAYWARD, Oct. 24.—Three persons were near death yesterday afternoon in an automobile accident in East Fourteenth street, between this place and San Lorenzo junction, when the machine containing a man and a woman crashed into a wagon driven by Daniel Cline. The occupants were both thrown heavily to the ground and the woman sustained numerous bruises and a severe shock. The man escaped with a few scratches.

The front of the machine was badly damaged. Cline was only saved from being thrown from his seat by clinging to the sides. At the time of the accident the wagon was going in the direction of Oakland and the machine, coming from the opposite direction, apparently did not see him in the approaching darkness.

The driver refused to give his name or of his companion and after some little delay crawled off in the direction of Oakland. Cline, however, secured the number of the automobile, which was 48207, Cal.

WIDOW SUES FOR SHARE OF ESTATE

Millionaire Gerhard Wente Testifies That He Peddled Boxes When a Boy.

SAN FRANCISCO, Oct. 24.—Mrs. Mary Wente, the widow of Hary L. Wente, has brought a suit in behalf of herself and her children for a share in the large Wente estate. The action is against Bernhard Wente, a millionaire and brother of Harry L. Wente, who lives at the Fairmont Hotel, and William C. Wente, another brother, of 419 Oak street, as well as the estate of Mary Elizabeth Ottems.

Mrs. Wente alleges that she is entitled to a third of the original estate left by her father-in-liaw, consisting chiefly of the large box factory business begun by the elder Wente many years ago in this city, and later transferred to Oakland.

On the witness stand this morning Gerhard Wente testified that his father had been crippled during some of the years of his life and that it was he who had begun the box factory business, making the boxes with his own hands at first, when but a lad, and peddling them in the neighborhood.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur hair remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

If your hair is losing color or coming out, start using Wyeth's Sage and Sulphur today, and see what a change it will make in a few days' time.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

MORMON CHOIR ON WAY TO NEW YORK

Will Sing at American Land and Irrigation Congress Nov. 3 to 12.

SALT LAKE CITY, Utah, Oct. 24. — A selected chorus of 200 voices of the Mormon Tabernacle choir, said to be the largest non-professional choir in the world, left last night for New York, where they will represent Utah at the American Land and Irrigation Exposition November 3 to 12.

The choir will sing at the exposition the national ode to irrigation, the words of which were written specially for the occasion by Mrs. Gilbert McClurg of New York, and the music by J. J. McClellan of Salt Lake.

The Mormon choir was organized under the direction of Brigham Young in 1848 and since that time has been a feature of the services of the church here and at choral competitions throughout the United States.

The choir will travel by special train and wil sing in all the principal cities of the East before their return.

WRITER FOR MAGAZINES LOSES LIFE IN FIRE

LOS ANGELES, Oct. 24. — Frank Hotalling, a magazine writer of New York, was burned to death in a fire which destroyed a rooming house in West Seventh street last night at which Hotalling was staying. The fire is supposed to have been started by an electric heating device in Hotalling's room. Smoke was discovered pouring from his room by other roomers in the house and Hotalling was awakened. He left his room and then went back to secure manuscripts which he declared were valuable. He never emerged. Firemen put out the blaze and found his charred remains where he had been overcome by smoke and had fallen.

CLEVERNESS RUNS RIOT IN FORBES COMEDY

Surfeit of It Sometimes Clouds Necessary Action of "The Commuters."

CHARACTERS CUT CLEAN WITH CAREFUL CHISELING

If You're in Mood for Laughter Play Will Burst the Buttons.

(By LEO LEVY.)

Cleverness runs amuck in "The Commuters" and genius sulks in his tent. It took less than ten minutes of act one to force the fact on an audience at the Macdonough last night, and when it did dawn on them, it stuck. We have been on the outside of an otherwise perfect turkey stuffed so full of chestnuts that we couldn't sense the turkey. That was years ago, before the cost of living began to furnish material for the joke-makers.

To get back to our muttons, what ailed the bird ails the play. James Forbes was so decidedly busy ipfusing wit into his lines and investing his people with individuality that he neglected a good many other things, chief among which may be mentioned that trifle known to playsmiths as plot-development. One swallow maketh not an inebriate; cleverness alone never built a play.

Forbes has carried out in "The Commuters" a threat he implied in his more successful "Chorus Lady." He has done with his latest what his friends wouldn't let him to do with the Rose Stahl comedy, which is to polish up every line until it glistens with wit and to sandpaper his dramatic statuary to a cameo-like realism. Forbes is one of the greatest portrayers of American life and manners wielding the pen today. Fate has dealt unkindly with him; he should have been a Gibson.

THERE'S GOOD IN IT.

But there's so much good in the worst of "The Commuters" that it stands a fairly good chance of being a royalty-maker for another season at least, and may live long enough to see stock. Individuality was never so carefully brought out in any bit of stage work, from dramatics down the scale, as it is in this we write of. Sammy Fletcher differs remarkably from Larry Brice. Hetty Brice is a woman: likewise the servant, Carrie; there the resemblance ends. The man who wrote "The Commuters" knows more about woman's mind than mere man is supposed to. Nor is there much in his own sex of which he is ignorant. Whether you like "The Commuters" as an example of dramatic construction or not, be prepared to admire the persons it portrays.

Speaking of those in the play reminds us there is a story told. It is of Larry and Hetty Brice, a young couple who have taken a home in Auburn Manor, a suburb of the kind found only in New York and in comic publications. Larry's boon companion, and that of his suburban friends, is one Sammy Fletcher, bachelor, to whom Mrs. Brice attributes all of her husband's late hour proclivities. It is while in a high-ball mood that Brice brings Sammy home to prove the injustice of his wife's dislikes.

Which happened at a time midway between the arrival of the theater train and the milk wagon. As a consequence, Mrs. Brice does not discover the presence of her disheveled Sammy until after her husband has left for the city the next morning. Whereupon a screamingly funny situation is mangled beyond recognition, resulting in the weakest climax of the play.

TEACHES LESSON.

That evening Brice and Fletcher sneak off to the club, and that after Mrs. B. has been forced to borrow dinner from the neighbors for the two worthies. Two o'clock rolls around, finding the lady of the house still waiting up. Her temperament arouses her pride and she resolves to teach Larry a lesson. When the husband and the bachelor are wafted in on their own breath at 2:15 a. m. the wife is absent, and Brice has a taste of his own medicine while he worries over the disappearance of his long-suffering spouse.

There are complications in plenty throughout the thing. The bachelor Sammy, attired in an evening suit and an automobile coat, stumbles in on a meeting of the Minerva higher culture club. He also runs afoul of a policeman and is caught in a flirtation with the maid. There are, in fact, complications in a quantity, but not one that is taken advantage of to an extent worthy of mention. And that is saying nothing of a thousand and one opportunities that have been missed.

Harry Davenport is Sammy Fletcher, a joyful evil genius with a laugh that amounts to a contagion. Of Sammy he makes what Forbes intended he should be, not a mannikin composed of the common attributes of tippling bachelors, but an individual. Florence Malone is as careful of Hetty Brice, and John S. Robertson of Larry. Amy Lesser is a faithful Carrie, and the remainder of the cast adhered to the playwright's ideas and ideals.

DRAWS HARD AND FAST LINE.

In his exploitation of American foibles, Forbes maintains the individuality of his mummers by compelling their uttered expression to reflect their frailties. It is the secret of this dramatic sculptor's chiseling.

There is an undercurrent something hostile to responsiveness in "The Commuters," though try for the life of you you'll fail to locate it. Even these lines of five score as witty fail to elicit more than an amused ripple:

"Any woman who takes the 7:46 train doesn't care what any man looks like."

"The house is temperance—no liquor except what Mr. Brice carries in."

"Women would rather sit up with their husbands than for them."

"It's such a relief to have a maid. I don't care where she sleeps. I'd even let her sleep on the lawn."

However, it was the following that called out loud and gleeful laughter from last night's audience:

"What the h—l do you care?"

"Where in h—l have you been?"

Rich humor in these. Subtle. Clever. A comedy that fails to melt the icicles from the audience within the first few minutes of action encounters an arctic temperature throughout. It takes exactly fourteen precious minutes for the present play to work off a multitude of clever quips at the expense of the commuter. Action is left for the other fellow. Result, a weary lot of onlookers before the first act is a thing of the past.

But there's this to be said: "The Commuters" is a good evening's entertainment. If you are in the mood for laughing it will start you rocking on your haunches.

LIFE PRESERVER FOUND AFTER DRIFTING 6 YEARS

SAN FRANCISCO, Oct. 24.—A life preserver from the steamer Stanley Dollar, which was wrecked off the Japanese coast in August, 1905, was picked up some weeks ago on the beach at Cullivoe, Shetland Islands, by John Gear, a resident of the Shetland Islands, whose son is in the employ of the Dollar Steamship Company.

During the six years that this piece of cork and canvas was drifting it traveled more than 10,000 miles; yet the name of the steamer to which it belonged was clearly decipherable on it, as were also the words "Passed by J. G., S. F., Cal., June 1, 1905." The "J. G." is said by local customs officials to be Inspector James Guthrie, who passed on the safety appliances on the steamer a short time before she started on her last voyage.

PLEA FOR FOOD IS REPULSED, SAYS WOMAN

She Declares Brother-in-Law Kicked Her When She Made Appeal.

DAVID P. DOAK IS FREED BY THE COURT

Judge Decides Not to Uphold Charges Made by Mrs. O. N. Doak of Oakland.

SAN FRANCISCO, Oct. 24.—After sensational allegations the case against David P. Doak, president of the Doak Sheet Steel Company, with offices in the Sheldon building, and a millionaire resident of Burlingame, was dismissed by Police Judge Sullivan today. Doak had been arrested on complaint of his sister-in-law, Mrs. Ollie N. Doak, of 1271 Jackson street, Oakland, who accused him of attacking her in his office on Saturday.

When the hearing was concluded Judge Sullivan characterized the case as "one of the most remarkable in all my experience." Mrs. Doak was the first witness. She stated that on Saturday morning she had gone to her brother-in-law, had dropped upon her knees, pleaded that she had had nothing to eat for three days and asked for some money to buy food. She declared that he refused to give her any and had kicked her. Asked by the defense whether she had not borrowed a dollar from Doak's mother, she admitted that she had, and said she had used it a week for food.

DOAK TESTIFIES.

When David Perry Doak was called he gave the other side of the tale.

"I have spent many thousands of dollars getting my brother John out of trouble. I have supported him for years. This woman came to me and asked me for $200."

"You mean Mrs. Doak, the wife of John Doak?" he was asked.

"I don't know whether she is his wife," was the reply.

"Why, Perry, you know this is my child," interrupted the woman hysterically, whereupon Doak continued:

"He made demands upon me all the time. When this woman came into my private office and asked me for $200 I said she would not get a cent and I told her to get out, as I was busy. Then John rushed in with a gun and she said, 'Shoot him! Shoot him!' I was kind of nervous and I didn't know just what to do."

Doak continued to characterize his arrest as part of a frame-up. His brother, M. Doak, testified that he remembered Perry saying that John had snapped a revolver in his face.

WRANGLE IN COURT.

At this juncture there were some words between John Doak and the others, and the suggestion was made that he might be armed, but the court took little notice of it.

William Doak, another brother, told of an incident in the country when, he said, his brother John pointed a pistol at him, while his wife went through his pockets, took his watch and other articles.

At the conclusion of this testimony the judge dismissed the case.

MERCHANTS WANT NEW INCINERATOR

Commercial Body of Berkeley Ready to Support Project.

BERKELEY, Oct. 24.—Expressing a desire to co-operate with the municipal authorities in the betterment of conditions in this city, the Merchants' Exchange of Berkeley at its regular meeting yesterday at the Hotel Shattuck went on record in favor of the proposition to erect an efficient garbage incinerator. Councilman E. B. Norton explained that this is the first object that the City Council seeks to accomplish.

The Merchants' Exchange authorized the secretary to inform the other civic bodies of Berkeley that this organization stands ready to join in a general meeting for the purpose of hearing a statement from the city officials as to what they consider the immediate needs of the community. The action of the Board of Trade in calling for such a meeting was indorsed.

On motion of George Stoddard a resolution was adopted extending an invitation to the California League of Municipalities to hold next year's session in Berkeley.

President W. L. Woodward reported that he had consulted with many business men in Berkeley and that he had found a general sentiment in favor of joint action to advance the real interests of the city, and he was convinced that the present municipal administration will have the support of all the people and all the organizations that are working for the improvement of conditions.

According to the views of President Woodward the present is a favorable time for unified effort to increase the business of Berkeley in every department of trade.

These views were concurred in by A. S. Cooley, A. A. Handle, Noah W. Gray, G. L. Schneider, G. A. Griesche, H. S. Howard, Don M. Roberts, George Stoddard, N. O. Morse and others.

A vote of thanks was extended to Manager Gray of the Hotel Shattuck for an offer of the reception room as a place in which to hold the meetings of the association.

Messrs. Cooley, Schneider, Griesche, Morse and Roberts were appointed a committee to consider the subject of advertising during the present season in Berkeley.

ALLEGED ROOMING HOUSE THIEF IS IN TOILS

Joseph Hudson, a negro, who is believed by the police to be guilty of half a dozen room thefts committed in local hotels and lodging houses in the past two weeks, was arrested this morning and will be charged today with burglary. The police have been trailing the room thief for many days and last night arrested Joseph Hudson.

It is believed by Captain of Inspectors Walter J. Petersen that Hudson is guilty of having stolen a suit of clothes from Walter Robinson of 1758 Seventh street. It is also alleged that the negro entered the room of Charles Henderson of the Sherman hotel and stole two suits of clothes, a razor and a fountain pen; and the room of Charles Irwin at 806 Seventh street, where it is said he stole a suit of clothes.

BURGLARS WERE BUSY IN NIGHT

Distributed Themselves Pretty Generally About Local Stores.

Safe-crackers broke open the steel safe in the grocery store of Cosgrove Bros. at East Eighteenth street and Fifth avenue last night, after breaking into the store. Nothing of value was in the safe, but the midnight marauders stole meat, bacon and other articles of value from the store.

From the police investigation it is believed that the job was done by amateur safe-crackers and not by professionals. No explosive was used to wreck the safe, and apparently the men came unprepared with the tools of their trade to break the steel cell open. Hammers and other tools found on the premises were used to loosen the combination and wrench it from the safe door. A bolt was then used to ram the lock back into the safe, and by this means the door was opened. Nothing was found inside.

Entrance to the store was effected through a rear window, the clasp of which was broken away by the burglars. The hour at which the burglary was committed is not known, as the fact was not discovered until the store was opened this morning.

Finding that nothing of value was in the safe, the burglars solaced themselves with several sides of bacon, hams, cans of beans, socks and "gents' furnishings," which they found in the place. It is thought by the detectives that the place may have been entered by youths who were thus starting out on a career of crime.

A Matthuesen of 1061 Franklin street reported to the police this morning that the place had been broken into by burglars and 17 yards of blue serve cloth valued at $50 was taken. Nothing else in the premises was touched.

Smith Bros. of Thirteenth street complained to the police today of the theft by shop lifters of a camera from a show case, valued at $15.

William Kreiss of the St. Francis stables, 563 Williams street, reported this morning the theft of a gray horse and black buggy with yellow gear, taken from Nineteenth street and Telegraph avenue yesterday morning. The horse and buggy are valued at $200.

BARTENDER ARRAIGNED ON A LARCENY CHARGE

John Connolly, a bartender, was arraigned before Judge George Samuels this morning on a felony charge of grand larceny preferred by Edward Lacoste of 934 Franklin street. The case was put over to November 18 for preliminary examination.

Lacoste complained to the police that he had found in Connolly a friend and companion, and that when the two had gone to the Hotel St. Mark for the night Connolly left early in the morning and took with him $110 belonging to his friend. Connolly was arrested yesterday afternoon by Patrolman Conroy.

LOS ANGELES IS NOT REPRESENTED IN LEAGUE

Southern City Refuses to Pay Its Dues and Draws Suspension.

MOVING PICTURES SHOW HEALTH BOARD WORKING

C. C. Moore Too Ill to Address Santa Barbara Gathering; Brown Substitutes.

SANTA BARBARA, Oct. 24.—That Los Angeles was the only city of importance in this state not represented at the fourteenth annual convention of the League of California Municipalities, now in session here, was a statement in the report made today by the secretary of the organization, H. A. Mason. Los Angeles refused to pay its dues and was suspended.

The meeting began today with the exhibition of a series of moving pictures collected by the State Board of Health showing how health problems are dealt with in the various California cities.

SCENES IN CITIES.

The pictures showed scenes and conditions in Los Angeles, San Francisco, San Diego and other cities, the majority of which have waterfronts. Insanitary spots were pointed out, toether with changes effected after needed ordinances had been passed. Methods of handling fish at different ports were shown.

C. C. Moore, president of the Panama-Pacific Exposition, was to have made an address on "How California Cities Can Aid the Fair." He was ill, however, and the address was read by Calvin Brown.

All municipalities were advised to cooperate with San Francisco. It was pointed out that each could advance itself by properly advertising and exhibiting its products. The address was illustrated with pictures showing the growth of San Francisco.

Eric Lange, mayor of Burlingame, spoke on "The Model City at the Exposition."

So far 300 delegates have registered and there are many other visitors attracted by the convention. Plans are being made to bring the convention to Santa Barbara again next year, although both San Diego and Oakland are making bids for it.

UNDRAPED BEAUTY SHOCKS NEIGHBORS

Oakland Spinster Doffs Clothing and Appears in Streets.

When Maggie McDonald, a well-to-do spinster of 45 years, appeared on the street this morning in front of her home in Mable avenue, Allendale, nude, shrieking that her enemies were going to crucify her, the neighbors were so terribly shocked that they could hardly "catch their breath." Miss McDonald was taken into custody by the police and confined in the detention ward at the receiving hospital as insane.

Although the families that reside near Miss McDonald had regarded her as a religious fanatic, it was not until a few days ago that they noticed signs of violence. She began to rave and shout to her neighbors that she was doomed to crucifixion and last Sunday while fighting off her imaginary enemies she broke all the windows in her house with an axe.

The next curious outbreak was her exhibition of herself this morning and then the neighbors decided that it was time to have her taken care of by the authorities.

KIU KIANG IS TAKEN BY REBELS

Government House Is Burned by Victorious Soldiers of Republic.

(Continued From Page 1.)

Cheng, with three gunboats, has arrived at Kiukiang.

Some are of the opinion that he intends to attack promptly. He has fewer troops under his command than heretofore supposed. It is not generally believed that he has above 15,000, of which only two battalions are Manchu.

General Yin Tchang sent back several military attaches who attempted to follow the army, although they all possessed passports from the Chinese foreign board. The British and American attaches left here for Shanghai yesterday, intending to proceed to Hankow, up the Yangtze.

Rebels Detain Baker and Wife

WASHINGTON, Oct. 24.—Cables received at the State Department confirm the report that United States Consul Carleton Baker and his wife, who were on their way to Chung King, are detained at I-Chang, the Chinese revolutionists refusing to permit their departure on the ground that the country is not safe for travel. Mrs. Baker is a Californian and left as a bride to journey with her husband to his post of duty in China.

Edward Carlton Baker and his wife are both well known in San Francisco and other bay cities. Baker formerly resided in Alameda.

He was graduated from the University of California in the class of 1905, and soon afterwards was appointed American vice-consul at Foochow. During 1907 he was vice-consul at Amoy.

Two years ago he returned to the United States to undergo the examination for promotion to the rank of consul. He remained for some time in Washington, D. C., where he was attached to the State Department offices as an assistant chief of the division of far eastern affairs.

At the close of his stay in Washington, Baker was made consul at Centung, China. While a student at the University of California, Baker ranked as a brilliant debater, and as a student of the Chinese language.

He received his first consular appointment upon the recommendation of Prof. John Fryer, head of the department of Oriental languages and literature.

Single Tax for China Is Suggested

NEW YORK, Oct. 24.—Copies of an American made constitution for the proposed new republic of China are today on their way from New York to the revolutionary leaders in Hankow. The document is the work of Andrew Jackson Meagher of Brooklyn, who hopes to sell it for a good price to the rebels. Meagher prepared a similar paper for Mexico at the time the Madero revolution broke out, but it was not favorably received by the Madero advisers.

The constitution proposed for China provides for universal suffrage, the single tax and the election of a president by the people of China.

LUTHERAN CHURCH ANNOUNCES SALE

Danish Ladies' Society Sends Aid to Bazaar to Be Held Friday.

The Ladies' Society of the Danish Lutheran Our Savior's church, East Fifteenth street and Second avenue, will hold its annual sale in Castle hall, Twelfth and Franklin streets, Friday, commencing at 3 o'clock in the afternoon and closing at 10 p. m.

For months the ladies have been looking forward to this event with a great deal of hope and expectation as to a successful financial outcome, for they are very anxious to do their share towards raising the few hundred dollars that are needed to pay the encumbrance against the church property, located on on East Fifteenth street and Second avenue.

There is one feature at this sale of special interest to the local Danish colony. The Crown Princess Alexandrine of Denmark has notified the pastor of the church, Rev. Andreasen that she also takes an interest in the establishing and upbuilding of a Danish Lutheran church in Oakland, and although she lives thousands of miles away and her time is taken up with matters connected with the court in the little kingdom at the shores of the fierce "Vesterhav," she, too, wants to help the good cause along and has found time to embroider a pillow that she has sent, expressing her hope that it will reach its point of destination safely and in time, and that its sale will help to swell the indebtedness fund of the church. This gift was sent from Copenhagen more than six weeks ago, but has not arrived as yet.

The ladies hope that the Danes will find their way to the sale on Friday and that the efforts of the society to raise a goodly sum will meet with a generous response from the Danish colony in this city.

FOURTH GAME IN SERIES PLAYED

Giants and Athletics Again Meet On Diamond for Baseball Honors.

(Continued From Page 1)

the stands shake with their yells. Murray was retired at first, Davis unassisted. Merkle struck out on three pitched balls. Two runs, two hits, no errors.

Athletics—Lord fanned on three balls, the first one being a foul. Oldring also struck out. Mathewson had struck both men out on seven pitched balls. Collins singled to center. Baker was given a rousing cheer when he came to the bat. Mathewson and Meyers held a conference and it looked as if they intended to pass him. Baker struck out on a wide one. No runs, one hit and no errors.

Mathewson was pitching pretty ball, having struck out three of the Athletic's hard hitters.

SECOND INNING.

Giants—Herzog flew out to Oldring. Fletcher singled to center field. Myers beat out an infield hit, but Fletcher was thrown out trying to steal second, Thomas to Collins. Mathewson hit to Bender and was thrown out at first. No runs and one hit.

Athletics—Murphy hit to right field for two bases. On Mathewson's wild throw in an attempt to catch Murphy off second the runner went to third. Davis bunted and was out at first, Mathewson to Merkle. Murphy and Barry attempted the hit and run play, but Barry missed the ball and it was up to Myers to catch the base runner at the plate. Barry then singled to left field. Thomas fouled out to Myers. No runs and two hits.

THIRD INNING.

Giants—Devore flied to Oldring. Doyle hit a high one between home and third which Baker took care of. Snodgrass hit a bounder to Barry and was out at first. The center fielder rounded first base and was hooted by the crowd in the bleachers. He walked to his position. No runs, no hits and no errors.

Athletics—Bender was thrown out at first, Fletcher to Merkle. Lord hit the first ball to right field for a single. He was forced a moment later, Fletcher to Doyle, on Oldring's grounder. Collins struck out on three pitched balls. No runs, one hit, no errors.

FOURTH INNING.

Giants—Murray flew out to Baker. Merkle, after fouling a half dozen balls, struck out for the second time. Herzog bunted toward first, but was out by Davis, unassisted.

No runs and no hits.

Athletics—Baker hit to left field for two bases. Murphy doubled to left field, scoring Baker. Davis doubled to right field, and Murphy crossed the plate, tying the score. Barry was out, Herzog to Merkle, Davis going to third. Thomas flew out to Murray and Davis crossed the plate. Bender went out, Fletcher to Merkle, ending the inning.

Three runs and three hits.

FIFTH INNING.

Giants—A wonderful pick-up and throw of a slow grounder by Baker retired Fletcher at first. Meyers drove the ball to right field for two bases. On a short passed ball Meyers attempted to take third, but was out on a beautiful throw, Thomas to Baker. Mathewson was given his base on balls, the first of the game. Devore raised a fly to Lord and was an easy out.

No runs, one hit.

Athletics—Lord was out at first on an easy one, Merkle to Mathewson. Herzog made a pretty stop of Oldring's hard grounder and got the runner at first. Collins drove a single to right, and Baker came to the plate. On the first ball pitched he hit to right center for a double, scoring Collins. Baker took third on the throw in. Murphy struck out.

One run, two hits.

SIXTH INNING.

Giants—Doyle was given his base on balls. Snodgrass was called out on strikes, not hitting at all at the ball. On Murray's foul fly to Baker Doyle was doubled up at first. It was a very stupid play by Doyle and was partially due to bad coaching. Barry was partly responsible for the play, as he made a bluff to scoop an imaginary grounder. No runs, no hits.

Athletics—Herzog made a sensational pick-up of Davis' hard grounder and got the runner at first. The New York third baseman was given a great hand. Snodgrass misjudged Barry's long fly and the Athletic shortstop was credited with a two-base drive. Barry reached third on Thomas' hit to Fletcher. Thomas died at first. Herzog threw Bender out at first. No runs, one hit, no errors.

SEVENTH INNING.

Giants—The Athletics had hit Mathewson for ten hits, while the Indian had held New York to four. Merkle struck out for the third time. Herzog lifted a high fly to Oldring and sat down. Fletcher drove a single to center. Myers was an easy out, Collins to Davis. No runs, one hit, no errors.

Athletics—Fletcher fumbled Lord's grounder long enough to allow the batter to reach first. Oldring placed a pretty bunt down the first base line; out, Merkle to Doyle. Collins bunted and was out by Merkle unassisted. Baker again stepped to the plate and there were cheers for him to knock the ball over the fence. Four wide ones in succession were given to him and he walked to first. Murphy drove a hard grounder to Merkle and was out. No runs, no hits, one error.

EIGHTH INNING.

Giants—Becker went in to bat for Mathewson. Becker was thrown out, Collins to Davis, on an easy chance. Devore drove a beautiful single to left and Doyle stepped to the plate. Doyle hit to Collins, forced Devore at second, Barry getting the putout. Becker fumbled Snodgrass' hard grounder and runner was out at first. Murray lifted a high foul, which Thomas took care of. No runs, one hit.

Athletics—Wiltse went into the box for the Giants. Davis was the first man to face the New York left-hander. He retired on three pitched balls. Barry doubled to right and went to third on Fletcher's muff of Murray's return of the ball, which was a trifle high, Fletcher not being able to reach the throw. On Thomas' hit to Herzog Barry was run down between home and third, Herzog getting the put out. Thomas went to second on the play. Bender out to Merkle, unassisted. No runs, one hit, one error.

NINTH INNING.

Giants—Merkle doubled to right. Herzog went out on a grounder, Baker to Davis, Merkle taking third. Fletcher lifted a fly which Collins took care of. Meyers stepped to the plate. He was out on the first ball pitched, Collins to Davis. No runs, one hit.

FIGHTS FOR LIFE IN DARK

Policeman Injured While Pursuing Burglar Who Flirts With Death

Officer Plunges Into Basement, Breaks Nose and Is Badly Bruised

SAN FRANCISCO, Oct. 24.—The downtown hotel district was roused from slumber early today by pistol shots and scurrying of feet upon the pavement incidental to the capture of Frank McKean by Policeman James R. Welch, after the officer had had to fight for his life and had suffered a broken nose and other injuries. Welch was patroling his beat along Bush street, between Powell and Mason, when he discovered that the latch had been broken on the basement of a building in course of construction.

The place had been entered by burglars on several occasions and when the officer found one of the tool chests minus its padlock he began cautiously to climb to the second floor. The burglar heard him coming and jumped out of the rear window into the back yard, landing on sandy soil. Welch hurried down the stairs, stepped on a loose plank in the darkness and was precipitated to the basement, breaking his nose, injuring his side and receiving numerous bruises of the body in the fall.

FLIRTS WITH DEATH.

Without thinking of his injuries the officer ran to an alley, where he encountered his man, leveled his revolver at him and told him to surrender if he valued his life. "You had better kill me," cried the burglar as he turned and ran to the street with the crippled policeman after him. Welch could have killed his man, but did not want to do so and fired one shot in the air. The thief fled to Maple street, where the officer aimed a second shot at the legs, but missed.

He was gaining on the fugitive and near Sutter and Mason streets the man tried to dodge, turned, lay flat on the sidewalk and attempted to trip the patrolman. Welch caught him and the burglar reached for the officer's pistol. The two rolled over and over, Welch trying to subdue his prisoner by hitting him on the head with a revolver and the other making desperate efforts to turn the pistol on his captor.

SUBDUES BURGLAR.

Finally, by repeated blows, the policeman succeeded in subduing the burglar and handcuffs were placed on his wrists. No sooner was the capture made than Policeman Skelly and a posse of officers in the department automobile arrived from police headquarters in response to numerous telephones from citizens in the now thoroughly aroused neighborhood.

Welch was so exhausted from his experience that he lay for a moment in a fainting condition and afterward went to the Harbor Emergency hospital.

McKean was first taken to the city prison and charged with burglary and later he, too, was treated at the hospital for a scalp wound received in his fight with the officer. He has but recently been released from the county jail, where he served a term, and the police believe him responsible for the tool house burglaries which have been going on in this city for a long time past.

GOLDEN VISION TOO MUCH FOR FORMER EDNA LOFTUS

Hope of Getting From $25,000 to $50,000 From Husband's Family Lands Her in Hospital Ward

Edna Loftus, an English music hall singer, who as the wife of Harry Rheinstrom, scion of a wealthy Cincinnati family, and at present an inmate of a California state asylum for the insane, has kept prominently before the public for some time, spent last night in a room in the detention ward of the Receiving hospital. The record at that institution shows that upon admission she was suffering from hysteria, incident to an attack of alcholism, and in this connection it developed today that the prospect of her coming into a substantial sum of money from the Rheinstrom family with the understanding that she would not oppose a suit for divorce to be brought by her incompetent husband through his guardian, was what caused the celebration.

Attorney Ralph W. Rose of San Francisco and a policeman of the Oakland force lodged Miss Loftus in the Receiving hospital. Rose, who bears the title of the world's champion hammer thrower, has been leading counsel for the actress ever since her rich mother-in-law in Cincinnati began her fight to break the marital bonds that tie her to Harry Rheinstrom, and it was while the lawyer was escorting his client from San Jose, where she has been living quietly at a hotel for several months, to San Francisco, to be present at the final settlement with the Rheinstroms, scheduled to be made tomorrow, that Miss Loftus imbibed more liquor than she could conveniently contain.

The moment she left San Jose with Rose, according to information given out today at the Receiving hospital, the actress began drinking, and by the time she reached Oakland she was considerably under the influence of liquor. Rose tried his best to keep her from "making a show" of herself, but could do nothing with her, and at the local depot of the Southern Pacific on Seventh street, near Broadway, when Rose was about to put her aboard a train for the city she went to pieces. With a shriek she kicked both heels into the air and fell to the street in a heap. She struggled and thrashed about until Rose had to call a policeman. They carried her into a candy store, followed by a crowd of people, and the officer sent in a hurry call for the police ambulance. When it arrived on the scene Miss Loftus was bundled into it and hurried away to the hospital, fighting like a tigress all the way. She was put to bed and calmed down.

Attorney Rose called for her this forenoon about 11 o'clock with an automobile and whisked her away to the ferry.

ATTORNEY'S PAY.

For many months negotiations have been pending between the members of the Rheinstrom family in Cincinnati and the attorneys for Miss Loftus with a view to her consenting to a divorce for a financial consideration. All this time Miss Loftus has been without funds and according to the best information on this score Attorney Rose and his legal associate, Attorney G. R. Bartlett, have been furnishing the money to tide Miss Loftus over while the negotiations were pending.

This, together with the legal services they have rendered in the matter, has cost them something like $6000 and of this sum it cost them $600 to get Miss Loftus out of San Jose so that she could be present at the financial settlement tomorrow. The money, it is said, represented a hotel bill and other obligations incurred by the actress.

Attorney Rose said this forenoon that the terms upon which Miss Loftus has agreed to let her incompetent husband secure a divorce represented a substantial sum of money to be paid by the Rheinstrom family, but he refused to state the amount. From another source, however, it was learned that $25,000 is the amount that will be paid to Miss Loftus tomorrow, and still another informant placed the sum at $50,000. While neither of these amounts may be correct the fact remains that there is to be a settlement and that Miss Loftus will get a large sum in addition to the $6000 that her lawyers must receive.

MET IN NEW YORK.

Harry Rheinstrom first met Miss Loftus in New York, where she was filling a theatrical engagement. At that time she was a "headliner" at one of Gotham's largest vaudeville houses, having come over from London with a big reputation augmented, no doubt, by the fact that she was a sister of Cissie Loftus. Rheinstrom's father had died only a short time before and the young man was placed in charge of the immense liquor business of his sire, so at the time he met Miss Loftus the young man had "money to burn" and from all accounts he made large bonfires of it out of his infatuation for Miss Loftus.

His mother, it is said, in order to save the business left by her husband and in the hope of redeeming her son, had the young man committed to an Ohio insane asylum.

While young Rheinstrom was thus incarcerated, Miss Loftus appeared in Cincinnati, and the next thing that startled the country was the announcement that with the aid of an automobile, the actress had kidnaped Rheinstrom from the retreat, taken him into Kentucky and married him. When Rheinstrom's mother learned of this escapade she announced that she would never recognize Miss Loftus as her daughter-in-law and that as long as her son remained her husband she would do absolutely nothing more for him in a financial way.

DRIFT TO COAST.

Rheinstrom and his bride drifted out to the coast on Miss Loftus' money and settled on a small ranch in the southern part of the State. But they soon found that neither of them had been cut out for farmers. They lost what little money Miss Loftus still had in this venture and returned to city life, drifting from one California town to another until they wound up in Oakland.

Here they pegged along in comparative poverty until finally the young man's mother relented to the extent of agreeing to give him an allowance of about $150 a month.

It is charged by Rheinstrom's friends that Miss Loftus derived all the benefit of this remittance, spending the money upon herself, and allowing her husband to go hungry. However this may be young Rheinstrom's mind gave way and he was committed to Dr. Lowell's sanitarium. His wife went to San Francisco and one night Rheinstrom disappeared from the sanitarium in scant attire and joined her in the city. He mixed things up so lively over there that the police arrested him and he was returned to this side to be committed a few days later to the State asylum at Stockton, where he has been since.

WRIGHT ELUDES DEATH WHEN GLIDER OVERTURNS

Aviator Flies in Rough Weather and When Machine Turns Somersault He Scrambles to Safety

KITTYHAWK, N. C., Oct. 24. — Orville Wright at the Killdevil Hill camp late yesterday miraculously escaped without a scratch in one of the most remarkable aeroplane accidents that has ever happened in America.

On his second flight the biplane, at a height of fifteen feet, turned a complete somersault backward. While the craft hovered in the air with the aviator hanging head downward, Wright began to twist like a squirrel in a cage.

In the five seconds elapsing before the craft reached the ground, he managed to shift his position with such remarkable agility that when the biplane landed in the sand with the top plane beneath he stood in the center of the craft with his feet safely downward.

The aeroplane was damaged to such an extent that the flights will not be resumed until Wednesday.

ROUGH SEA KICKED UP.

Yesterday's weather was propitious for the Wright soaring experiments, but was unfavorable for any marine navigation. The thirty-five-mile gale blowing from the northeast kicked up such a rough sea that only one other New York correspondent besides The Examiner's took the hazard of venturing ten miles over the Albemarle sound from Monteo to Killdevil Hill.

It was not until after 3 o'clock that the English aviator, took the rebuilt glider from the laboratory, aided by the two correspondents. The motorless biplane was turned prow foremost into the teeth of the blowing northeaster. Starting in the wind, Orville Wright guided the craft thirty feet in the air, but as the wind veered and became treacherously fluky, he gently permitted the craft to glide to earth, having been up about ten seconds.

The second trial, which almost cost Wright his life, began a few minutes later. Ogilvie, on one end and Lorin Wright on the other, forced the machine over the hill, but the moment it began to soar it was apparent something was wrong. As a savage gust of wind struck it on the left the machine tilted dangerously.

HEAVY MAN IS LIFTED.

Ogilvie jumped forward and clung to one side. Lorin Wright missed when he sprang for the other side. Ogilvie, weighing almost 200 pounds, was lifted off his feet and forced to let go. As he did so the craft began to soar upward and the gradually to plunge backward until it hung perpendicular with Wright still remaining in his seat.

The craft seemed to hover for what seemed like minutes in this position. Then it began to turn over completely backwards. As the craft fell back, Wright squirmed out of his seat, and with lightning speed began to climb into the structure of the biplane.

If Wright had lost his extraordinary presence of mind for a solitary second has neck would have been broken. The incident did not seem to feaze him in the least. When he found that only the rear rudder and the front stability plane had been broken he was perfectly content.

WRIGHT ISSUES STATEMENT.

Owing to the various erroneous stories that have been sent from here broadcast, Orville Wright asked me today to publish the following statement:

"I have never authorized any person or newspaper to announce that we have perfected an automatic stability device that we know to be practical. We have a simple device which we think will provide automatic stability, but we have not yet been able to demonstrate it. It was my purpose to test it out here, but I doubt now whether I will have the opportunity this time. I hope I may."

TOWERMAN RESCUES MANY

Derails Runaway Train in Time to Prevent a Disastrous Head-On Collision

Tower Demolished and Plucky Railroad Employe Picked Up Unconscious

LOS ANGELES, Oct. 24.—Joseph Oman, a towerman, employed by the Santa Fe railroad at Arcadia crossing, is receiving the commendation of his superiors today for the presence of mind and disregard of personal safety he exhibited yesterday when he derailed a runaway train of nine cars just in time to prevent a head-on collision with a passenger train.

The runaway cars were traveling at a rate of nearly 70 miles an hour. When derailed they struck the tower in which Oman was at work, demolishing it, and the towerman was picked up unconscious thirty feet away.

Although credited with having saved many lives by preventing the collision, Oman disclaimed anything approaching heroism. He passed through the ordeal with nothing worse than a nervous shock.

Bah Jove! Here's a Girl You'll Like

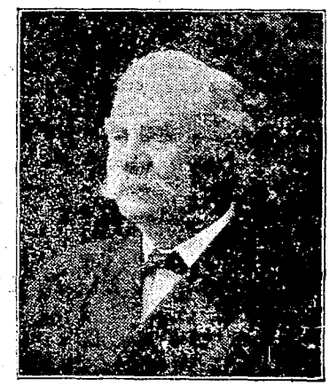

Alluring IDA BARR, an English singing comedienne at the Bell theater.

Dainty, captivating and beautiful to look upon is a brief sketch of charming Ida Barr. She makes her premier western debut over the Sullivan & Considine route and is making a big hit at the Bell. She has a pleasing voice with which to render a bunch of songs not heard on this side of the pond. Aside from being one of the favored in face and figure, she is a really clever actress. She spent months in perfecting her repertoire abroad before she appeared, but when she did appear she was there strong and became one of the most popular comedienes in the city of fog.

The wonderful Patty Brothers are also here—those fellows who walk on their heads—and altogether a crackerjack show. Remember, too, it's an entirely new show. The Bell never did play hold-over acts. Always a sparkling, new array of faces each and every wek.

Some Facts About Summit Drive Park

By One Who Knows

W. C. HAMILTON

"Summit Drive Park, a subdivision of Park Place, beautifully located in the foothills near 'Mills Seminary,' is a spot that should not be overlooked in your search for a homesite," says Mr. Hamilton, "and, further:

"The location of this tract is at the head of Seminary avenue and its approach is immediately opposite the entrance to that famous institution of learning, 'Mills Seminary,' and, so far as nature is concerned, the location is an ideal one. The land is elevated and rolling, and from almost every point can be seen the splendors of Oakland and the bay of San Francisco. The view is unobstructed. To the east lofty hills afford varying scenes alluringly attractive. A more charming environment can scarcely be pictured.

This property has recently been plotted. The streets are made sinuous to conform with the configuration of the land, thus making them a distinctive feature in the subdivision. The property is easily accessible to the center of business by means of the Oakland Traction Company and is also directly on the line of the Key Route, which is now in course of building and which will be completed and in operation within eighteen months from date, connecting Oakland with San Jose.

"At present lots can be had at from $10 to $15 per front foot. Besides the lots two small acreage pieces are available.

"Upon completion of the Key Route values will have advanced fully 100 per cent, and this within a period of eighteen months. Get in quick and reap this profit. Call at the office and let me take you to his desirable, sightly tract.

"Still another property to which I would call your attention is the Vernal Terrace Tract, located in 'Upper Piedmont,' where wealth and fashion dominate, and where the ruling price per front foot is $75. The property referred to is in the most select portion of 'Upper Piedmont,' on Vernal avenue, near Worchester avenue. We have a few lots which we are enabled, because of having acquired the property at a low price, to sell at $55 per front foot; also an elegant corner lot at $65 per foot.

"The number of lots in this locality being limited, should you desire one, it will behoove you to act promptly. Our customary easy terms will be given. See me for particulars."

Of the various lots in Summit Drive Park, not one but which is attractive, we would especially recommend No. 8, because of the charming view which it commands. The size is 80x140, and the price $15 per front foot. See our Mr. Hamilton.

WIFE TELLS COURT A TALE OF CRUELTY

SAN FRANCISCO, Oct. 24.—Alleged cruelty of a peculiar order formed part of the evidence in the divorce granted today by Judge Cabaniss to Elsie M. Johnson, the wife of Charles R. Johnson, Mission realty broker. Mrs. Johnson set forth that her spouse put his thumb in the corners of her mouth and threatened to tear her lips from ear to ear. At another time, she said, he threatened to cut her throat and dragged her up the stairs of their home, 3811 Twenty-fourth street, by the hair of her head. She was granted $75 a month alimony.

OAKLAND TRIBUNE EDITORIAL PAGE

M. C. CHAPMAN
President

Good for Mayor-Elect Rolph.

James Rolph, Jr., mayor-elect of San Francisco, is giving a fresh evidence of sound judgment in refusing to allow himself to be drawn into the contest for the minor municipal offices to be filled at the regular election. Having received a clear majority of all the votes cast at the primary, Mr. Rolph was elected without having to go through a second campaign. But no Supervisors were elected; neither a District Attorney nor a Sheriff.

Since the primary, friends of candidates for the offices yet to be filled have sedulously endeavored to persuade Mr. Rolph to take a partisan part in these contests. Some mistaken friends of good government worked themselves into the belief that he should declare his preferences in regard to Supervisorial candidates, and have tried to impress their views on him. To all urging on this point he has turned a deaf ear. He declines to decide between candidates for other offices. He is absolutely right.

Mr. Rolph says he was elected to be the Mayor of the whole people, not to be a boss. In the primary campaign he refused to ally himself to any faction or candidate. He ran on a good-will and get-together platform. Now that he is elected, he would be false to the professions he made prior to the primary election were he to enlist his influence as a partisan in the contests yet undecided. He would provoke ill-feeling where there is now good will and lay himself open to the charge of seeking to fill the other offices with candidates of his selection. There is practical wisdom in this resolve to abstain from any active part in the campaign on behalf of any candidate or set of candidates.

Because he has been elected to serve as Mayor for four years his influence would be potent. For that very reason it is ardently sought after. But he could not exert it without setting thorns in his path and breeding dissension when he is seeking harmony. Moreover, he would be misusing the influence with which the voters invested him when they elected him Mayor. He would violate the principles he laid down when he consented to become a candidate. If he should say who he wanted for Supervisors, District Attorney and Sheriff all the moral influence of his high office would be exerted in behalf of certain candidates and against other candidates. Some have argued themselves into the belief that he ought to do this, but their reasoning is superficial and sophistical. It is not for the Mayor to say who shall fill the offices. That is the privilege and the duty of the voters.

By remaining scrupulously faithful to his professions, Mr. Rolph will be in a position to ask the cordial co-operation of the officers hereafter to be chosen. He will be in a position to make his administration, as he aimed at the outset, harmonious and effective, and will go into office free from the enmities he would undoubtedly excite were he to engage as a partisan in the pending contests. His influence with his official coadjutors and advisers will be all the stronger for his abstention from partisan conflicts.

All the eulogies of the Pajaro valley apple hitherto printed in THE TRIBUNE are hereby emphasized and reiterated, together with appreciative thanks to the Watsonville Pajaronian for a box of choice bellefleurs of a rich hue and generous flavor. If the box received at this office is a fair sample of this season's crop, the Pajaro valley has done itself proud this year. We understand that thirty cars of apples are being shipped daily from Watsonville. That is no sign of prosperity. It is prosperity in the concrete, and we are glad to note that the prosperity of the town and district is reflected in the advertising columns of the Pajaronian, with which we are happy to disagree on most things political. Its apples are vastly better than its politics, but we can cheerfully stand for the politics as long as it comes through with the apples. On the apple question it is sound to the core.

A Word With a Hypocrite.

THE TRIBUNE does not circulate in Riverside county to any extent, hence the Riverside Press can send out uncontradicted such statements as the following: "THE OAKLAND TRIBUNE'S coarse abuse on the women who were seeking the ballot all through the campaign for their enfranchisement and ridiculed the movement with brutal arguments and arguments that were positively insulting."

Every reader of this paper knows that there is not a word of truth in the above statement. THE TRIBUNE published impartially the arguments on both sides of the suffrage question, but took no part in the controversy itself. It did not brutally cartoon the suffragists nor print "positively insulting" arguments against the suffrage movement. As matters of news, it printed what other people said pro and con over their own signatures or in public speeches, but made no arguments in its editorial columns either way.

THE TRIBUNE did not "heap coarse abuse" on anybody during the campaign, much less women.

What motive impelled the Riverside Press to make the statements it does we neither know nor care. We have got so used to being lied about that malicious falsehoods no longer give us concern. However, lying about THE TRIBUNE has become a fixed habit with a certain group of newspapers, and it would be a pity to interfere with their elevating and highly honorable pastime. We rarely take the trouble to contradict falsehoods printed about this paper for the simple reason that a contradicted lie is always followed by the invention of another, besides it is a waste of time to argue with a liar. For the knavish pretense of virtue that refuses to admit or speak the truth about an adversary we have the utmost contempt. That contempt is usually exhibited by taking no notice of the lies that are told with folded hands and upturned eyes, in emulation of the virtuous, chivalrous, God-fearing Mr. Pecksniff. The soil of Riverside county appears to be peculiarly adapted to the growth of Pecksniffian morals and principles. Upon no other theory can we account for the seeming prosperity of the Press. It is a husky and well-fed liar. It makes a practice of representing THE TRIBUNE as corrupt and debased. Well, let us reply in words of Miles the Smuggler, in "The Colleen Bawn":

"If me fut was on the deck of a convict ship and I was about to be transported for life, I'd say, Mr. Hardress Cregan, I present ye wid the scorn and contempt av a rogue."

We hope that is clear enough?

In his letter to the insurgent Republican convention which met in Chicago and nominated La Follette for President, Colonel Roosevelt requested that his name be not mentioned for the nomination. This makes about the twentieth time the Colonel has declined the nomination. Methinks the lady doth protest too much. Anyway the Colonel is flirting around in a way indicating that he would like very much to get into the game.

CHINA MAY NEED A PRESIDENT SOON

—ST. LOUIS GLOBE-DEMOCRAT.

The Trouble at West Point.

General Thomas H. Barry, superintendent of the Military Academy at West Point, complains that Congressmen are largely to blame for the depleted classes at that institution. He says they pay their political debts with appointments to the academy. In consequence many of the appointees are unfit for one reason or another. A large proportion of them cannot pass the entrance examination or are not up to the physical requirements.

No doubt General Barry tells the truth. Otherwise it would be difficult to account for the many failures to pass examinations and the large number of dismissals for moral and scholastic delinquencies. If all appointments were based upon merit alone, upon qualifications proved in open and free competition, so many misfits would not be sent to the academy and the classes would not be so small.

General Barry says a surprisingly large percentage of candidates for admission are next to illiterate and others are lacking in moral and physical qualifications that could easily have been ascertained at home, with a big saving in expense to both the unsuccessful candidate and the government. Many districts have gone unrepresented through the failure of the principal and even two or three alternates. Out of 878 candidates who were examined, only 263 qualified for entrance. This number was obtained only after three examinations, and the class was finally closed with fifty-seven vacancies. At the examination last January there were 553 candidates and only 170 passed.

This is conclusive proof that Congressmen give appointments to the academy without any regard to fitness. It is true that the physical requirements are rigorous while the scholastic attainments demanded are of an especially high order, but even so, competitive examinations at home would enormously lessen the number of failures at the academy. Social, political and family influences are responsible for a great majority of the failures. Because they, rather than the good of the service, is regarded, it is well nigh impossible to keep the classes any way near full. Yet there are plenty of good preparatory schools in the land and any number of bright, capable, ambitious young men who would like to enter the military profession. Because they cannot get into West Point some of these young men enlist as privates and work their way up from the ranks.

That was the case with a son of Rear Admiral John C. Watson, now a captain in the army. He fitted himself to pass examination at West Point, but failed to get an appointment. He enlisted as a private soldier, and had a lieutenant's commission as quickly as he would have got it by going through the academy. He was a fit boy who could not get an appointment while shoals of unfit boys were sent to the academy only to be turned away.

'Coffee John' as a Tariff Reformer.

"Coffee John" Arbuckle's raucous demand for free sugar has drawn fire from an unexpected quarter. Senator Bristow of Kansas comes forward in defense of the tariff on sugar. Bristow is an insurgent and wants the tariff revised downward, but there are beet sugar factories in Kansas. There's a hole in every grindstone.

But "Coffee John's" demand for the abolition of the duty on sugar is about as impudent and insincere a bit of buncombe as the public has been treated to in a long time. His fight against the sugar trust was prompted by greed and selfishness. He wanted the trust to sell him sugar at a lower price than it charged other wholesalers, and when Havemeyer refused he started an opposition refinery.

He wants sugar put on the free list now because the other refiners have contracted in advance for the bulk of the raw sugar produced in Hawaii, Cuba and Porto Rico. The duty on sugar is the largest item of revenue the tariff affords. Were the duty abolished the cane sugar industry of Louisiana, Texas and Florida and the beet sugar industry of California, Montana, Colorado, Nebraska and Kansas would be ruined and an enormous hole made in the national revenue. This hole would have to be filled by taxing something else, but there would be no compensation for the ruin of the cane and beet sugar industries. But "Coffee John" would not care if he could increase his profits

That Boy

Of course that boy who is accused of setting fire to 50 houses smoked cigarettes. Of course his fingers wer stained. Of course he had the nervous twitching common to inveterate cigarette smokers. Of course the foes of the cigarettes will make great capital out of his misdeeds.

And yet—

There are other questions that may be well asked. Did he come of healthy, vigorous parents. Were they able to provide him with proper nourishment when he was a baby? Did he get plenty of fresh air to sleep in and sunshine to play in?

Did he have neglected adenoids in his nose that prevented his ever getting enough oxygen in his lungs? Did he have the right kind of home training? Did he have the proper environment and the proper associates to play with?

Many boys smoke. Most of them smoke cigarettes. Some of them smoke to excess. But the boy born right, fed right, brought up right, cared for right, given enough food and air and sunshine, seldom if ever becomes a cigarette victim.

The real causes of this 12-year-old's becoming a pyromaniac lie far behind the cigarette pack.—New York World.

POPULATION OF CHINA

Chinese politicians, when they come to this country, do not lose the fertile and picturesque imagination that pervades their natural literature. When Mr. C. S. Gunn, of the Young China Association, says "that 400,000,000 of the 426,000,000 people in China are in sympathy with the movement," of which the elusive Mr. Sun Yat Sen is the reputed leader, he puts a fine touch of statistical impartiality upon his figures by saying that "advices received show" them to be "probably correct.

The most trustworthy estimate of the population of the Chinese empire was made by one American Minister, about five years ago, after careful study of all the data, official or other, that were available. It fixed the approximate total at 270,000,000. This estimate agreed substantially with that made about fifteen years since by French scientists connected with the government of Tonquin in the South. Chinese official estimates have been in the neighborhood of 400,000,000, an increase of some 50 per cent over any figures of which trustworthy support has been found by foreign investigators. The size of the population does not, however, affect the merits of the insurrectionary or reform movement. If that commands the active sympathy of even one-half of the people of China, the Manchu dynasty will be overthrown, though what may happen afterward it would be rash to try to predict.—New York Times.

VEHICLE ACCIDENTS

The report of the National Highways Protective society on vehicle accidents in this city during the month of September presents an array of facts that in some respects are quite different from what is popularly believed. It is shown that automobiles killed but 11 persons during the month, while trolleys killed 14 and wagons 17. One was killed by a runaway. But on the other hand, automobiles injured 107, while the trolleys injured 67 and wagons 60. Thus it is seen that the automobile, which is supposed to be the most dangerous of vehicles, has a smaller proportion of killed to those injured than either the trolley or the wagon, while the wagon has the largest proportion.

Another interesting fact is that of the 43 persons killed only 20 were children. It has been generally supposed that children playing in the streets are more careless than adults and that accidents to them are much in excess of those to grown people. The facts show otherwise. The child may seem more reckless than his elders, but he has keener eyes and quicker limbs: he can take bigger chances and get away in safety.

The record of accidents at railroad crossings for the state shows a total of seven for the month, with three persons killed and 12 injured. None of the figures are high, yet all of them are higher than they should be.—New York World.

20 YEARS AGO IN OAKLAND

Max Marcuse, auctioneer and notary public, is not as happy a man today as he was yesterday. He and his family went out for a Sunday evening stroll last night and during his absence a party of cracksmen made a call at his domicile. They had things all their own way when once they got inside for Mrs. Marcuse had not taken any precautions to insure the safety of her jewelry.

Nine days more and the vote in THE TRIBUNE popular teacher's contest will be at an end. On the evening of Thursday, November 12, the last ballots will be printed and with the record of the vote up to noon that day no more bulletins will be issued until the final announcement of the result on Monday, November 16.

With the arrangements now being made Berkeley will no longer suffer from a water famine. When the present works are completed there will not be a single drawback to residence in the sightly village on the lap of the hills.

There is some talk of establishing at the State University a dormitory system like that at Palo Alto and the idea should be encouraged. Under the working of such a system, students from the interior, resident at Berkeley, and away from parental control, could be more easily kept on their good behavior. Moreover, a university without resident students tends to become merely an examining machine.

Mrs. James Spiers has returned to Berkeley, after a prolonged absence of several months. She left in May to attend the commencement exercises at Vassar, where her daughter graduated. Accompanied by her daughter, she spent several months traveling in Europe, and has since visited the larger cities in the East.

E. K. Taylor has consented to deliver an oration at the celebration which will be held Thanksgiving Day, upon the completion of the tidal canal bridge.

The shortest match game of the season in the league series was played at the Lakeside courts Saturday afternoon. The game was between Allen and Helman of the Alameda Club and Yates and Tom Magee of the California Club.

THEY GROW HAIR

Certain Ingredients if Properly Combined Stimulate the Human Hair Growth.

Resorcin is one of the most effective germ destroyers ever discovered. Betanaphthol is a most powerful, yet absolutely safe germicide and antiseptic, which prevents development of germ matter and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing, healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Rexall "93" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, even though the scalp in spots is bare of hair, providing, of course, there is life and vitality remaining in the hair roots.

We want every one troubled with scalp disease, dandruff or loss of hair to try Rexall "93" Hair Tonic. If it does not remove dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has effected most satisfactory results in 93 out of 100 cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike and in every particular different from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and $1. The Owl Drug Co., Inc., Tenth and Washington, Thirteenth and Broadway, Sixteenth

LUCKY READERS FOLLOW THE ARROWS; IT'S AN EASY MATTER

GUESTS OF TRIBUNE SEE ONE OF SEASON'S FUNNIEST PLAYS

More lucky commuters who will be given free theater tickets by THE TRIBUNE.

When You See Arrow Pointing to Your Picture, Mr. Commuter, Come to This Office and Be Identified; Free Theater Tickets for You

There were a score of people who saw "The Commuters" last night as guests of THE TRIBUNE.

There will more than that see it before the week is out—and as the guests of THE TRIBUNE, also.

They watched for pictures and followed the arrows.

They were the wisest of the wise and have been rewarded for their wisdom.

The pictures and the arrows have been appearing every day in THE TRIBUNE for almost a week. They are going to be printed for the rest of these seven days.

Have you been watching them?

Are you going to watch for them?

You will if you are one of the great multitude seeking something for nothing.

That's exactly what this newspaper is offering you—something worth something for doing nothing.

Every issue of THE TRIBUNE, every day, contains a picture of a group of commuters, like the above. Five of them are pointed out by arrows.

What else? Listen.

These lucky five need but come to THE TRIBUNE'S main business office at Eighth and Franklin streets, be identified by Secretary-Treasurer B. A. Forsterer and receive, free of charge, each of them, two tickets to "The Commuters" now playing at the Macdonough Theater.

What could be easier?

Not a thing in the world nor on any of the planets.

Watch for the pictures.

And the arrows.

Come to THE TRIBUNE office and—

Be identified.

It's a "snap."

WIRELESS FLASH SPANS CONTINENT

Comet Clears Air and Aerograms Leap 3200 Miles to Vallejo.

MARE ISLAND, Oct. 24.—Established a new world record for long distance wireless communication over land, the new Mare Island wireless station yesterday exchanged messages with the wireless plant at Fort Meyer, Washington, D. C., a distance of over 3200 miles. It is claimed by Lieutenant E. H. Dodd and Expert George E. Hanscom that Belawsky's comet made possible this great feat. It is estimated that 3000 miles overland is equal to sending a wireless message 9000 miles over the sea. The messages were distinct and the first received from Fort Meyer came at 2 o'clock in the morning.

Regarding the comet's influence, the wireless experts declare that since the appearance of the comet near the sun the atmospheric conditions have been improving daily and that now there is less obstruction to wireless waves than ever before in the history of the Mare Island station.

The local station also exchanged messages yesterday with the plant at Key West, Florida, a distance of 2600 miles. The Mare Island and the Fort Meyer stations were installed within the last few months and are the two highest power stations in the United States. The yard station was installed by Expert Hanscom and one of his new type of aerial masts was used this morning. The masts at the local station are 300 feet in height and 425 feet apart.

GEORGE GRAHAM RICE IN COURT FOR TRIAL

NEW YORK, Oct. 24. — The causes which led a year ago to the ending of George Graham Rice's skyrocket career in Wall street will be ventilated in the criminal branch of the United States Circuit Court as soon as a jury can be impaneled to try him and his partners before Judge Ray.

The trial was formally begun yesterday, but little progress was made, owing to the strenuous efforts of the numerous counsel for the defense to obtain a further postponement.

In the course of these futile efforts, which consumed more than two hours, United States District Attorney Wire and Ernest Baldwin, one of the Rice lawyers, very nearly came to blows.

BATTLE OF LAKE ERIE TO BE COMMEMORATED

CLEVELAND, Ohio, Oct. 24.—Final details for the construction of a memorial at Put-In-Bay to commemorate Perry's victory, and the selection of an architect to design the monument have been announced by the Perry Memorial Commission.

The memorial will consist of a lofty monument with a museum for historical relics at its base, standing in a reservation of fourteen acres, to be erected at a cost of $500,000.

If the child starts in its sleep, grinds its teeth while sleeping, picks at the nose, has a bad breath, fickle appetite, pale complexion, and dark rings under the eyes, it has worms; and as long as they remain in the intestines that child will be sickly. WHITE'S CREAM VERMIFUGE clears out the worms, strengthens the stomach and bowels and puts the little one on the road to health and cheerfulness. Price 25c per bottle. Sold by Wishart's Drug Store, 1001 Washington street.

ONCE RICH, NOW ACCUSED BAD MAN

Harry H. Thompson in Jail in Shasta County on Serious Charge.

WEAVERVILLE, Oct. 24. — Hunted from one end of California to the other for three weeks, Harry H. Thompson, once one of the most prosperous mining men in Shasta county, was arrested yesterday in Angel's Camp on a warrant charging him with a series of burglaries in Trinity county, and more particularly for the attempted killing of Deputy Sheriff Van Matre at Lewiston on the evening of October 5.

The store of Mason & Thayer at Douglas City was robbed of $50 in amalgam on October 4. The thief was tracked towards Lewiston and arrested by Deputy Sheriff Van Matre on a bridge across Trinity river. While Van Matre was off his guard his prisoner whipped out a revolver and fired twice at the deputy sheriff, who was only four feet away. Then the man ran.

Van Matre and citizens fired sixteen shots at the escaped prisoner, but none reached its mark.

Sheriff Boyce suspected that the escaped prisoner was Harry H. Thompson, who had toured mining camps around Weaverville.

Thompson was once wealthy in Shasta county, but for the last five years he has been down at the heel. Several times he has been suspected of burglaries, but the evidence was lacking.

Thompson has a wife in San Jose, but she has a divorce suit pending.

LIQUORS THROUGH PIPE LINE.

SANTA ROSA, Oct. 24.—Charles Guidi is in jail at Kenwood on a charge of selling liquor without a license. He had arranged a pipe line from his saloon to the banks of a nearby creek, and when an Indian paid for beer the man would drop a bottle in the pipe line. The Indian would then go to the end of the pipe in the creek and secure it.

Tuberculosis Medicine Saved This Man's Life

Pneumonia is a serious disease, and often lays the foundation for chronic lung troubles—sometimes Tuberculosis results. After Pneumonia, or any serious or stubborn cold, it is wise to take Eckman's Alterative.

Don't wait to find out whether the trouble is getting worse, but take Eckman's Alterative in time and avoid the dangers of disease. Read of the recovery in this case:

836 No. 41st St., Philadelphia, Pa.

"Gentlemen, I am getting along very nicely and gaining strength all the time. I now weigh 154 pounds, a gain since September 16, 1907, of 28 pounds more than when I first started to take the Alterative. I wish I had known of it two years ago, as it would have saved me much misery and distress.

"I was suffering from a very serious abscessed lung, which followed a bad attack of pneumonia. My physician and a specialist declared my case hopeless.

"I cannot but be very thankful to you and the Almighty God for the great blessing and change of health it has brought me.

"Since writing the above statement I wish to say that I have fully recovered my health, having been cured for over three years."

(Signed Affidavit) THOS. REILLY.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by The Owl Drug Co. and other leading druggists. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

IONE SCHOOL TO GO UNDER PROBE

Paroled Youth Brings Charges of Cruelty Against the Officials.

SACRAMENTO, Oct. 24.—Charges against the management of the Preston school of industry at Ione have been laid before Governor Johnson and it is rumored affairs at the reform school will be subject to an investigation. The slaying of Herman Huber, a Sacramento boy, by Night Watchman J. D. French, when Huber sought to escape, has brought the matter forcibly to the attention of the Governor.

Ernest Reed, a negro boy, who was committed from San Francisco, and who has just been released on parole, appeared before Governor Johnson yesterday and accused Superintendent C. H. Dunton of the school and his assistants of cruelty and of harsh treatment of the boys in the school.

Reed told the Governor that boys who incur the displeasure of the officials at the school are confined in insanitary quarters, flayed upon the back with a heavy strap and given a bread and water diet, with more water than bread. Reed says he still carries welts on his back from whippings he has received.

The shooting of Huber was wanton, so Reed told the Governor. He says that French, instead of shooting to warn the superintendent of the attempted escape, shot from his hip with his revolver at Huber, killing him instantly.

LARGER EARNINGS ARE REPORTED BY RAILROADS

CHICAGO, Oct. 24.—Railroad gross earnings for the first week in October make a close comparison with a year ago, the total of all United States roads reporting to date amounting to $9,860,020, an increase of 0.7 per cent, as compared with the earnings of the same roads for the corresponding period of last year. Returns of most of the roads throughout the South are better than last year at this time, the gains reported to some extent reflecting the active movement of the cotton crop. In the West and Southwest most of the leading systems report more or less decrease, although small gains are reported by the Missouri, Kansas and Texas, St. Louis Southwestern and Texas and Pacific.

BOUNDARY LINE TOWN IS SWEPT BY FLAMES

LAKEVIEW, Ore., Oct. 24.—Fire of an unknown origin at New Pine Creek, on the California-Oregon boundary south of here, caused a loss of more than $25,000, nearly every building in the business section of the town being destroyed.

The fire started in McNew's stable, north of the Lake hotel. A heavy wind fanned the flames, and building after building was wiped out like so many paper houses.

Thirty-two head of horses in the stable perished and two employes of the place narrowly escaped with their lives.

HEARING OF BURKE'S APPEAL IS POSTPONED

SACRAMENTO, Oct. 24.—Because of the illness of Judge J. A. Cooper, one of the attorneys for the defendant, the case of Dr. Willard P. Burke, accused of dynamiting near Santa Rosa the tent of Luetta Smith, which was to have been heard on appeal before the third district court of appeal yesterday, went over until November 20 for argument.

BREAKS A COLD IN A FEW HOURS

Proves Quinine Is Never Effective in the Cure of a Severe Cold or Grippe.

Nothing else that you can take will break your cold or end grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

REVENUE CUTTER MEN, DODGE GIANT ICEBERG

SEATTLE, Wash., Oct. 24.—Within an ace of death when an iceberg in Bering sea turned over, half a dozen men of the United States revenue cutter Thetis, out in a rowboat on June 20, just managed to drive the vessel's bow a safe distance as the mountainous mass, groaning under its own huge bulk, crashed back to the sea with a mighty roar. The unbalanced berg, in sinking until only its top was visible above water, produced a swell sufficient to overturn the boat and make the Thetis, some distance away, tremble as if struck by a tidal wave. The men in the boat were picked up thoroughly chilled.

The men had been ordered to take the boat out for a fresh supply of ice, and, approaching the handiest of a number of bergs, were just preparing to hew off a few chunks when the berg turned.

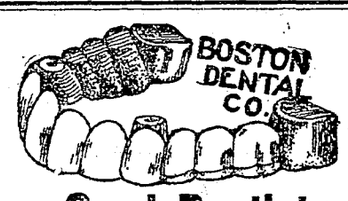

DR. HARRIS PREDICTS KOREAN ASSIMILATION

TOKIO, Oct. 24.—Dr. Merriam C. Harris, Methodist bishop of Korea, in a sermon at Union Church here, strongly maintained that the Japanese government's policy of generous expenditure for improving material conditions, advancing education and encouraging philanthropy and religious enterprises in Korea was proving successful.

The relations of the Japanese and the Koreans, he said, were becoming more friendly, and he believed that the assimilation of the two countries was possible through Christianity.

Price vs. Good Dentistry

TOO FEW SHOW THE DISCRIMINATION NECESSARY IN DENTISTRY

PRICE as a rule is the first consideration on the part of the patients who find it necessary to have their teeth attended to, for it is the needed expenditure that the patient's judgment is based upon in choosing the institution in which they look for treatment. And withal, they want and MUST HAVE the best treatment.

GOOD DENTISTRY can be had, and for a reasonable outlay, if you show the necessary discrimination, for this profession, like most business firms, can adjust their prices to the volume of business transacted.

We are the largest and oldest established Dentists in Oakland, and our great volume of business warrants the most liberal PRICE CONCESSIONS that GOOD dentistry permits.

LYNCH STIRS INTEREST IN 1915 EXPOSITION

GRASS VALLEY, Oct. 24.—Robert Newton Lynch of the California Development Board, made an address at the Chamber of Commerce banquet here last night. He urged this and other foothill counties to take advantage of the Panama-Pacific Exposition and opening of the canal to advance their interests and develop their resources.

Lynch said an exhibit of mineral and fruit products should be made and that the cost would be repaid many times by increased immigration. He predicted an era of prosperity for California.

The banquet was attended by 125 business and professional men. Thomas Ingram, president of the Chamber of Commerce, presided.

BUYS WAY OUT OF POT WITH STRING OF BEADS

NEW YORK, Oct. 24.—Emil Van Baelen, a Belgian rubber merchant, arrived here yesterday on the steamer Vaderland. While he was in the Congo Free State he said he was captured by a party of cannibals who built a big fire and made ready a large pot to stew him. But when Van Baelen slipped the cannibals a 2-cent string of beads, his bonds were cut and he was allowed to slip away. Van Baelen prefers Mexico to Africa, and some time this week he will start south.

LETS WEEDS GROW; JAILED.

SAN JOSE, Oct. 24.—V. A. Hancock, city park commissioner, was one of the seventeen residents for whose arrest warrants were issued on charges of allowing weeds to grow on sidewalks. Fifty "John Doe" warrants were also issued, and these will be served on anyone found violating the ordinance. It had long been a dead letter, but the improvement clubs have recently brought about its enforcement.

"California Day" at the United States Land and Irrigation Exposition, which opens in Chicago on November 18 and continues until December 2, has been set for Tuesday, November 21. Alameda county will be represented in the show by an exhibit of the county's products made by the Alameda County General Exposition Commission and in charge of Wilber Walker, secretary of the commission, and W. D. Nichols, processor of the exhibit.

AUTOS MEET IN HEAD-ON CRASH

Haight Street Hill Scene of Serious Accident at an Early Hour.

SAN FRANCISCO, Oct. 24.—Coasting down the dangerous grade on Haight street, between Scott and Devisadero, an automobile run by D. M. Nicholas, an official of the Relief Home, in which three persons were riding, collided with an taxicab driven by William Ridgele, throwing two men to the pavement and seriously injuring one of them. The accident occurred shortly after 1:30 this morning. The machines came together head-on and both were partially wrecked. Joseph Baumann of the Hotel Rio, who was riding on the front seat, and Stewart Kehoe of 650 California street were hurled to the pavement and Baumann received a fracture of his right leg in two places. Kehoe escaped with a few scratches. Policeman Sullivan, who happened to be in the neighborhood, conveyed Baumann to the Central Emergency Hospital, where Dr. Egeberg dressed his injuries.

WANT LIABILITY LAW CHANGED

Commissioners Suggest That Railroads Be Forced to Pay for Injuries.

WASHINGTON, Oct. 24.—The employer's liability and workmen's compensation commission yesterday practically decided to recommend the enactment of a law providing for the insurance of employes of interstate railroads against injury by accident by requiring the roads to make payments for any injury inflicted.

No binding vote was taken, but it was admitted that the commissioners were unanimously favorable to the direct payment plan and to confining the operation of the proposed law to employers on roads engaged in interstate commerce only.

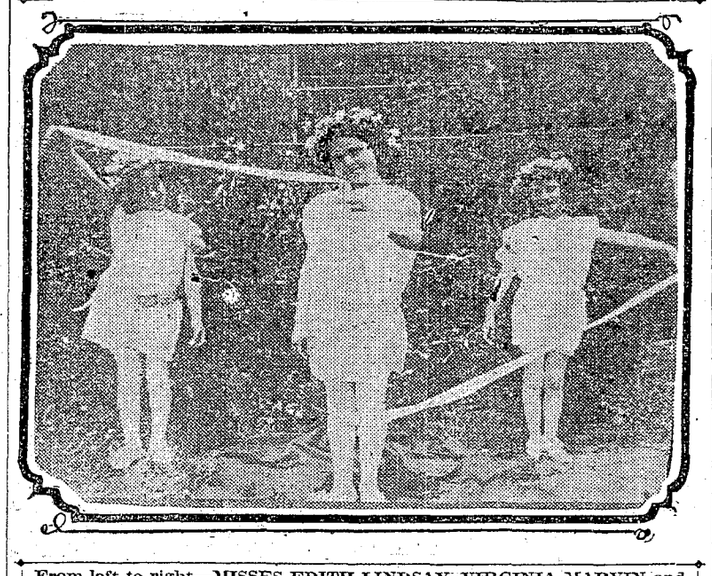

The plan adopted prevails in Great Britain and requires direct payment from the employer to an injured employe.

REYES IN DENIAL.

OAKLAND KNOWN IN EAST, WRITES WALKER

The Secretary of Merchants' Exchange Tells of Publicity and Results.

TRIBUNE WIDELY READ IN THE MIDDLE WEST

Alameda County Well Represented at the Omaha Land Show.

Wilber Walker, secretary of the Alameda County General Exposition commission and of the Merchants' Exchange, who is now at Omaha, Nebraska, in attendance at the Omaha land show being held there, where Alameda county has an elaborate exhibit of its products, writes interestingly to THE TRIBUNE of the show and of the publicity which Oakland and the county are securing throughout the east.

The letter, which is written under date of October 20, is in part as follows:

"Omaha is a dear, dirty old-fashioned town, which is beginning to see its possibilities and grasp them. It reminds me of our own Oakland in that respect. It is the key to the west and thousands of travelers and immigrants pass through it from year to year.

"Its people are like the city, except that they are not dirty, but clean, and very active, progressive, hospitable Americans. The middle west seems to contain a smaller percentage of foreign population than the coast either east or west. Transportation and the great packing houses of Armour and Swift and others, are the prominent industries of Omaha.

SHOW IS SUCCESS.

"The land show is a great success. The attendance is larger than last year and California will secure much valuable advertising.

"Last January Alameda was the only California county here. Now we have Alameda, Fresno, Tulare, San Diego and Los Angeles. Los Angeles has a fine exhibit but the people seem to think that the Alameda county exhibit is the gem of the show. 'Little, but O my!' is the prevailing opinion.

"The weather has been beautiful, except the first day which was rainy, but that cleared the air, and it is almost Oakland weather, cool and cloudy mornings and evenings but sunny in the middle of the day. Beautiful Indian summer, no wonder people sing its praises!

TWO LECTURES DAILY.

"I am lecturing twice a day to good sized audiences. Yesterday I got the slides of the laying of the corner stone of the city hall by President Taft. They excited much interest especially the fact that they were made in Oakland and transported to Omaha 1800 miles away, received and used on the fifth day — which is going some, even for these rapid days! Oakland is much better known to the general public today in Omaha than San Francisco, on account of the publicity given by the last land show and the present. Some day our sister city will learn that it pays to advertise.

"She has no representative here and nothing is being done here to bring into prominence the 1915 exposition except by the representatives of the counties here in evidence. San Francisco should 'get busy' and 'get the habit.' Excuse the sawed off English, but people nowadays 'cut it short' as life is too short for long sermons.

TRIBUNE WIDELY READ.

"I find THE TRIBUNE here as everywhere I go. That is a better monument to Billy Dargie than polished brass or carved marble. Poor Billy, I wish he were here to help me advertise dear old California. One thing that pleases a Californian is the fact that so many eastern people have relatives on the coast and they say 'We have to visit them as we can't get them to come back home.'

"Yesterday I had some signs written and the painter said he had one son in Sacramento, and another in Fresno. No wonder Californians are popular in the east with their breezy ways and their liberal views.

"They are like a letter from an absent relative to these folks, as they are the personal representatives of the absent boy or girl who are on the coast and won't come home. But I must cut it short and get to work telling people that artichokes are a vegetable, and why rhubarb grows so big in California and what a plum cot is like, and why Luther Burbank took the spines off the cactus, and other similar easy stunts.

"Next week the show closes and then for dear old Oakland and then back to the Chicago land show. But that, as Kipling says, 'Is another story.'

"WILBER WALKER."

'COUNT' RELEASED FROM CITY JAIL

Freedom Provisional On His Providing Funeral for Dead Wife.

On the promise that he would provide a proper funeral for his wife, whose death occurred last night at the County Infirmary, "Count" John von Dolgoruki was released from the city prison this morning, after having spent three days in a cell charged with failure to provide for his wife. The woman was found in a critical condition, suffering from malignant cancer, neglect and lack of proper food and medicine at the von Dolgoruki home at 3580 by women of the Associated Charities some weeks ago, but because of the resistance of the husband, the charities were unable to interfere to save the woman from her husband's alleged cruelty and neglect.

Mrs. J. P. Warren, a sister of Mrs. von Dolgoruki, was notified at her home in Santa Barbara. Although in straitened circumstances, Mrs. Warren worked her way to Oakland to rescue her sister, and arrived here a few days ago, only to find the sick woman in the last stages of the malignant disease.

Undaunted by the threats of "Count" von Dolgoruki, Mrs. Warren insisted upon bringing medical aid to her sister, and when he resisted and threatened her, she swore to a warrant for his arrest charging him with failure to provide. As the "count" was led away to the police station, Mrs. Warren summoned an ambulance and had her sister taken to the County Infirmary, where her last hours have been spent in comparative comfort.

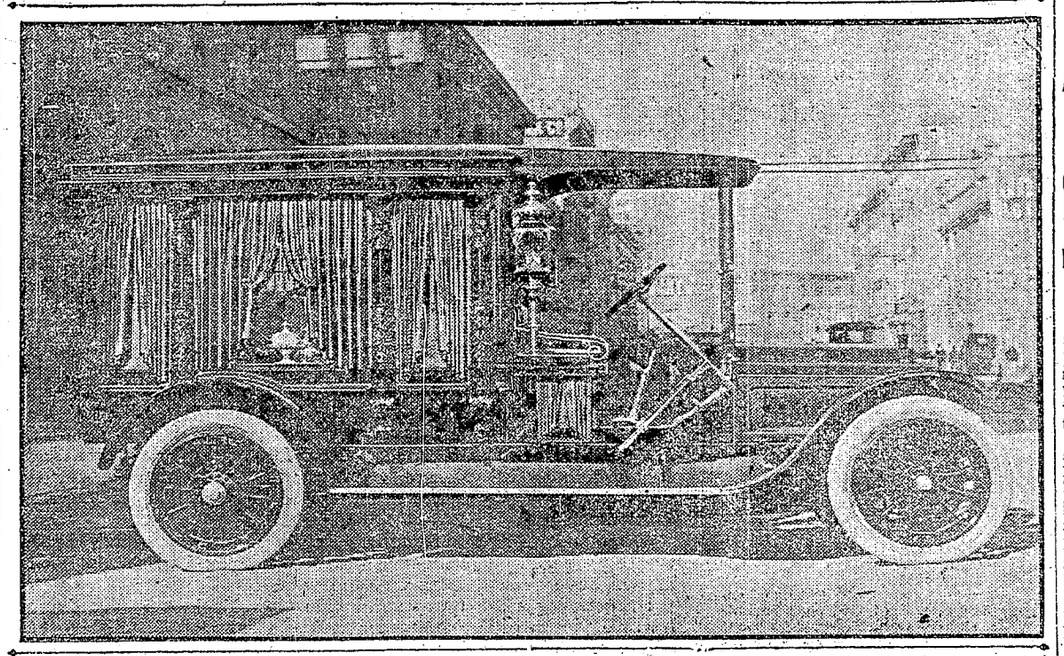

According to Mrs. Warren, her sister was a cultivated woman who was in good circumstances when she met von Dolgoruki. The man claimed to be a count and a physician and shortly after the meeting a marriage took place. According to the police, the man is addicted to the use of drugs and it is alleged by Mrs. Warren that he taught his wife to become a victim of the habit.

The case against von Dolgoruki was continued to October 28 by Judge George Samuels this morning to give the man an opportunity to fulfill his promise to pay the remains of his dead wife fitting respect.

COMMER TRUCK IS SPLENDID AUTO

Machine On Exhibition at the Salesrooms of Pioneer Automobile Company.

SAN FRANCISCO, Oct. 24. — The first Commer truck for this territory arrived yesterday and is the object of much favorable comment at the salesrooms of the Pioneer Automobile Co., agents for this famous English truck in northern California. It will be on exhibition at the Oakland office of the company next week.

E. P. Brinegar, head of the Pioneer company, and his assistants are enthusiastic over the new arrival.

Nor is the enthusiasm confined to the Pioneer staff. Prominent representatives of the trade, as well as many motor trucking experts outside the boundaries of the automobile selling industry, are quite of the opinion that the Commer stands for about all that is desirable in connection with high duty motor transport.

APPROVAL IS GENERAL.

"Of course, it is intensely gratifying," said Brinegar, "that the approval of the Commer is so general. But its favorable appearance is its smallest value. It's the great work these trucks will perform that insures their final great success in California, the same as their performances have spelled success in every civilized country on the globe.

"In presenting Commer truck arguments we are not dependent upon theory, nor upon hope. We know absolutely what they will do in all kinds of service, not only during this year and next, but during many years to come.

"When we sell a Commer truck we sell and guarantee certain definite transportation results.

THOUSANDS IN SERVICE.

"Commer cars have been manufactured in Luton, England, during the last half score of years. Thousands of them are in service. Many Commers have records up to and in excess of 250,000 miles, and there has never a one of them worn out. This is a battery of facts which provide a tremendous argument in favor of Commer trucks, for in this way, through our service and statistical departments, we can demonstrate to the fraction of a cent the cost of haulage per ton mile and per day.

"Wyckoff, Church & Partridge, Inc., of New York, who control the manufacture and sale of Commer trucks in America, have established western headquarters in San Francisco. This western department is under the management and control of Charles B. Shanks, who has been prominently identified with motor car manufacture in this country since the beginning of the industry.

"Mr. Shanks will give western users of Commer trucks the advantage that comes from having a trained corps of factory experts on the ground. He will also carry, for the benefit of western owners, a complete parts stock so that the Commer truck owners in California will enjoy the same advantages as though the factory were located here in San Francisco.

ADDITION TO COMPANY.

"This factory service department is in addition to the service department of the Pioneer Automobile company. The Commer user, therefore, gets the benefit of this double-barreled organization and I need not emphasize the importance of this great feature to prospective buyers, because they assuredly appreciate its significance."

This initial Commer is what is known as a 6½ tonner. It has an American rating of 7½ tons but, as figured abroad, it provides for a 1-ton body and an actual live load of 6½ tone weight.

The purchaser of this truck is A. C. Ambler, a contractor for the haulage of building materials. It is to be fitted with a six cubic yard side dump body, designed and constructed by Perryman & Phillips of this city.

The chassis will remain on exhibition at the Pioneer Automobile company's show rooms on Van Ness avenue for two or three days and then will receive its body and go into service in this city.

LA AMITA WORLD'S FINEST 12½c CIGARS.

The uses to which the automobile is being put every day, and with marked success, is emphatically evident from the number of new body types that are seen on the streets of the cities and on the country roads. During the past year a greater progress in this line of development of the automobile has taken place than at any time previous in the history of motordom. It is quite evident that the utility of the automobile has not reached its climax as some of the so-called commercial prophets have predicted; rather it is a fact that this feature of the industry is merely in its infancy.

New applications of the gasoline or electrically driven vehicle for some time were regarded more as a curiosity than anything else and its successful operation ridiculed. The leading manufacturers of the country during the past two years have not only removed this impression, but have performed a wonderful feat by the many and varied applications of the gasoline automobile, which stands unparalleled in the history of commercial romances.

AUTO HEARSE.

It may safely be stated that no greater attention was attracted by any application of the gasoline driven vehicle than was the case two years ago when the first automobile hearse made its appearance on the market. Its superiority over the horse-drawn equipment, its saving effects for both the establishment using it and the individual hiring it has now been determined beyond a doubt.

Some of the most magnificent hearse bodies that were ever built were creations from establishments on the Pacific coast, and that the Studebaker Brothers Company should play an important part in this is quite natural. The latter concern has turned out several hearses which not only combine all the somberness and elegance which a vehicle of this description requires, but, which, from the standpoint of workmanship and skill is nothing short of wonderful.

STUDEBAKER CREATION.

A striking proof of this is the hearse which the Studebaker organization has just delivered to Albert Brown Undertaking Company of this city. It is finished in black with silver trimmings, the black enamel having a beautiful satin effect. The appearance of the hand-carved woodwork on the outside of the body is that of heavy black plush draperies. The interior of the hearse is veneered with bird's-eye maple. The plate glass side windows are set off with silver urns.

The whole is mounted on the standard chassis of the Studebaker "40," the frame being slightly longer than that of the touring car frame. In every detail the car is representative of refinement, somberness and beauty. There can be no question about such a vehicle appealing to the tastes of the most fastideous.

TO EXHUME MISS LINNELL'S BODY

Report of Analysis of Stomach by Prof. Whitney Eagerly Awaited.

BOSTON, Oct. 24.—In preparation for the special session of the Suffolk grand jury next Thursday, when the case of Rev. Clarence V. T. Richeson, pastor of the Immanuel Baptist Church of Cambridge, who is under arrest on the charge of murdering Avis Linnell here October 14, comes up, District Attorney Pelletier today went over the evidence in the hands of the police officials.

With ample financial backing Richeson's lawyers will contest the case vigorously.

The report of the analysis of the stomach of Avis Linnell by Prof. Whitney of the Harvard Medical School is being eagerly awaited.

On order of District Attorney Pelletier it was arranged to exhume the body of Miss Linnell today and have it brought from Hyannis to Boston. Incidentally it will be definitely known whether the receptacle which contained the cyanide of potassium was left in the pocket of the bathrobe which was buried with the body.

CHURCH SOCIETY ENTERS PROTEST

Objection Raised to the Order Issued to School Teachers in Philippines.

The recent order issued by the United States bureau of education preventing the American school teachers from taking part in religious work in the Philippine islands has caused the members of the missionary society of the Brooklyn Presbyterian church of East Oakland to authorize the following protest to be sent to the United States commissioner of education and President Taft:

"At the regular monthly meeting of the Missionary Society of the Brooklyn Presbyterian church attention was called to the fact that the United States bureau of education has issued an order directing American school teachers to take no part in religious work in the Philippines, they being prohibited from taking a Sunday school class in their own church or from conducting Bible classes in their own home or from encouraging the study of the Bible.

"It was unanimously voted that the secretary be instructed to enter in behalf of the Brooklyn Missionary Society a most vigorous protest against this astonishing prohibition on the part of the government of the United States, and to forward said protest to his excellency, William H. Taft, President, and the commissioner of education of the United States."

FEDERAL OFFICIALS RENEW WAR ON TRUST

Accused Lumber Combine Up for Fifth Hearing in Court.

CONSPIRACY ALLEGED BY THE GOVERNMENT

Long List of Violations Is Laid at Door of Big Lumber Dealers.

ST. PAUL, Minn., Oct. 24.—The government's fifth suit in its fight to break up the so-called lumber trust was begun in the United States Court today.

As in similar suits now pending against the Eastern States Retail Lumber Dealers' Association, the Michigan Retail Lumber Dealers' Association, the Colorado and Wyoming Lumber Dealers' Association and the Lumber Secretary Bureau of Information, fourteen members of the latter organization being under criminal indictments charging violations of the Sherman anti-trust law, the government alleges that the lumber trade has been unreasonably restrained by illegal agreements and understandings which prevent the consumer from buying where and of whom he will; which absolutely forbids competition for trade, and which divided the country into non-competitive territories. It is also alleged that names of lumbermen who have violated the "ethics" have been published to the trade in the Mississippi Valley Lumberman.

ALLEGED CONSPIRACY.

The bill alleges many acts in pursuance to an alleged conspiracy, covering many years, and that some of them were perpetrated and in form ceased several years ago, but each act is alleged to have been part of a carefully devised plan by which first one restriction and then another was fastened on the lumber trade, and, when once fixed, was to all appearances abandoned and substituted with one less iniquitous.

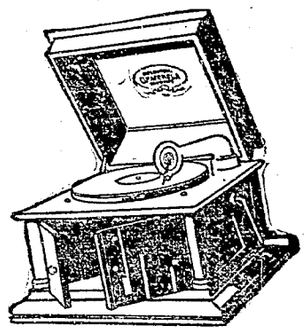

The government asks injunctions restraining all the defendants from continuing the acts of which complaint is made. The suit is in direct charge of Clark McKercher, special assistant to Attorney-General Wickersham.

To prevent the Glidden tour from becoming a formal endorsement of the modern light type of automobile, Referee Walker tonight added twenty-six minutes to the arriving time of the cars in the tour thus allowing them a further chance to contest for the blue ribbon of motordom. The triumph of the light cars was sensational. A terrific downpour of rain featured the entire afternoon's run from Natural Bridge to Roanoke. The Flanders contingent wallowed along past big car after big car, many of which have not reported at a late hour tonight. Four of the Flanders turned out perfect scores according to the original schedule and all but three of the original field of perfect scores were light cars though the Flanders "20" were the only ones of the touring car type in the perfect score contingent. The referees unprecedented action reopens the Glidden tour and shows conclusively that every effort will be made to "Shoo in" the big cars if possible.

Another bridge party today was that given by Mrs. George Whitney in compliment to Miss Dorothy Taft. Luncheon preceded the game, the menu being unusually attractive. The decorative scheme was very pretty, the centerpiece consisting of a huge bowl of pink carnations.

The dessert was of ice cream made in flower molds appropriate to the guests, all of whom are recent "buds."

Covers were laid for Miss Dorothy Taft, Miss Helen Bannan, Miss D. Bina Mosley, Miss Nellie Adams, Miss Myra Hall, Miss Anita Crellin, Miss Dorothy Taylor and Miss Leila Kenney.

WOMEN IN THE NEWS

STORM SWEEPS SUFFRAGE RANKS

Dr. Shaw Near Tears When Charges Are Brought in Convention.

LOUISVILLE, Oct. 24.—Dr. Anna Howard Shaw was re-elected president of the National American Suffrage Association.

The South and West scored against the East when the National American Woman's Suffrage convention laid on the table a motion for the adoption of part of a proposed revised legislation providing that the official board, composed of the national officers, hold monthly conferences.

Mrs. Annie Blount of Chicago expressed the feeling of the Western suffragists, saying that New York and Eastern suffragists did not make up the national association.

Miss Carrie Thomas, president of Bryn Mawr College, announced that three women, unnamed, had pledged money enough to cover expenses of board members in attending the meetings, providing headquarters if the organization were not moved to Chicago. This threw the convention into an uproar when intimations that the Susan B. Anthony $60,000 memorial fund had not been properly administered. Dr. Anna Shaw, almost in tears, denied this.

In the midst of the debate, Miss Thomas revised her statement by declaring that funds for the expenses of monthly meetings would be forthcoming in any event, and she admitted she was one of the donors.

Sembrich in Deep

NEW YORK, Oct. 24.—Severe, almost sensational, financial losses, it is learned, have forced Mme. Marcella Sembrich to return to the concert platform and to the operatic stage, if an engagement there should be forthcoming.

It is said her losses on the stock exchange during the last year or so have amounted to the fabulous sum of $2,000,000. This is probably an exaggeration, though Mme. Sembrich's earning powers for many years have been such that she could easily have accumulated so splendid a fortune. She was paid at the Metropolitan almost $1000 a night, and many were the years in which she sang from fifty to sixty engagements with the Metropolitan Opera Company alone.

Mme. Sembrich's losses are the result of disastrous speculations on the stock exchange, undertaken in the hope of increasing her wealth. They have extended over a period of two years, and for a time have been the theme of intimate conversation in musical circles.

Girls See Hazing

ANNAPOLIS, Md., Oct. 24.—An incident unparalleled in the history of the hazing code at the Naval academy took place, when two plebes were compelled to do severe physical exercises in the presence of two giggling girls, before whom an upper class man was endeavoring to show off. Members of the hazers' class are now endeavoring to identify him. If they fix the guilt upon him they will take effectual means to have his connection with the Naval Academy severed.

The young women are understood to be from out of town and to have attended a hop on the previous evening as guests of the midshipman who did the hazing to amuse them.

According to the code under classmen have a right to appeal to upper classmen when they think they have been maltreated or subjected to anything beyond what the traditions of the academy allow. This one of the plebes did and he was at once informed that he had made a proper appeal and that the upper classmen would stand by him.

Arnolds in Black

NEW YORK, Oct. 24.—Mr. and Mrs. Francis R. Arnold, the parents of the missing Dorothy, returned on the steamer Vaderland yesterday, after a three months' stay in Europe. Arnold was disinclined to say anything about his lost daughter.

"I do not want to discuss the disappearance of my daughter any more," he said. "I have had no news of her since 2 o'clock on December 12 last, when I heard she had gone. We have been abroad since June for a rest. We have not been in Rome, as was reported; in fact, we have not been south of Germany."

The Arnolds were dressed in mourning.

Smoke Is Protested

SEATTLE, Wash., Oct. 24.—The Women Voters' Council yesterday memorialized the county commissioners for relief from the inconvenience caused women doing duty as jurors by men on the jury who insist on smoking their pipes in the jury room. Eight women jurors have served during the current months, though with some inconvenience to themselves because of the smoke of which complaint is made. It was represented to the commissioners that on every jury there are two or three men who insist on smoking during the deliberations.

"I can't argue unless I can see my opponent," said a woman juror. "The juryroom has been so thick with smoke on several occasions that I could not see my nearest neighbor."

Mr. Anderson was formerl pastor of the Methodist Episcopal church, South, in this city, later going to Missouri. He returned a few years ago and has been making his home in Fresno.

Housework Aids Beauty

I WONDER when women will be able to understand that any physical exercise done temperately is extremely beautifying. Everything that a woman has to do about her house is most helpful and will add to her grace and beauty if she will do it in a proper manner. Whether it be sweeping a floor, cleansing the windows, washing, ironing, picking up pins or scraps from the floor, or the more dainty work of dusting bric-a-brac, going up and down stairs—all these can be made to add to one's physical perfection.

It is really no hardship to sweep—and if one sweeps properly it will give the arms a splendid development, as well as the lungs and bust. A great many women who are writing to me asking for something that will develop their busts should take up this splendid exercise. When you pick up scraps or pins from your floor do not bend your knees; stoop from your hips down and you will find that you are practicing the same physical movements that you pay an exorbitant price to some physical culturist to teach you.

There is nothing about work which is inimical to beauty if one works properly. The most beautiful women the world has ever known have been women who did things.

I remember when I was singing in New York some years ago I was a victim of the doctor habit and went almost daily to his office. Finally one day the wise doctor said to me: "You are only imagining that your throat is bad because you have to sing every day. Dismiss your carriage and walk home. The tramp will cure whatever is troubling your throat, especially if you practice deep breathing and forget yourself and become interested in the things that you see on your walk."

He did not know it, but he drove me to the thought of mind being the only cure, and I do not think that I have been in a doctor's office or had a doctor many times since. Remember, if one glorifies service one glorifies self.

Lillian Russell

BERTIE.—I have no rule for keeping my hair in curl. I sometimes curl it three or four times a day. Naturally my hair is straight, and it is only by keeping everlastingly at it that I am able to give the appearance of naturally curly hair that you seem to admire so much.

MARIE.—I have no receipt for mascara. It can be bought in all shades at any of the beauty shops or department stores. As one grows older one's hair is apt to grow a little darker. A little peroxide of hydrogen in the rinsing water will probably keep your locks in the desired shade if you are a natural blonde.

K. S. P. AND OTHERS.—The mutton tallow used to extract the odors from flowers can be bought only from factories which make a business of manufacturing perfumes. I think you would find the orange flower cold cream just as good as this tallow cream. Mutton tallow and lanolin will not make hair grow upon the face unless you are much disposed to superfluous hair. As a person grows older hair grows more upon the face than before, and one should be careful either to use electrolysis or the tweezers. I do not believe in using depilatories of any kind upon the face. If you will use a deep massage upon your face and neck, picking up the flesh with your fingers and dabbing your face with camphor before you massage it, I think you will reduce it.

"MILDRED H."—Subnite of bismuth is a splendid remedy for sunburn. Cover the face with a coating of cucumber cream, and then plaster on the powdered bismuth; allow it to remain twenty minutes and remove with more cream. This will allay immediately the burning sensation and bleach out the red color.

I am not a great believer in instantaneous face bleaches of any kind, but this formula is very simple and harmless, and will bleach your face and neck. One-quarter ounce of lactic acid, one-quarter ounce of peroxide of hydrogen, three ounces of witch hazel.

Put this on your face, and then, after it is thoroughly dry, dab the face with any pure cold cream that agrees with it. Do this night and morning, and you will see a great improvement in your skin.

If you will write me again, asking for it, I will send you an excellent receipt for the cleansing cream. This will not make hair grow on your face, and is excellent for cleaning the pores of the face thoroughly.

C. B.—Eye strain causes the eyes to become red and inflamed. Avoid reading as you go to and fro on the street cars and trains. Nothing can be better for tired eyes than to bathe them in a good soothing lotion. I am sending you the recipe for a lotion for the eyes. Persevere with this treatment and your eyes will become strong and bright and do their work well.

DAILY LETTER ABOUT Nemo CORSETS

New York, October 24, 1911.

DEAR MADAM:

Perhaps you have sometimes wondered why you can never buy a Nemo Corset in an *extreme* style—that is, in the almost freakish models you find in other makes. We will tell you why:

1. Not one woman in a thousand can wear these freak corsets, nor wants to. Nemos are made for that great army of sensible women who demand *comfort* as well as *correct style.*

2. To produce a new Nemo takes months of study, testing, and trying by actual wear, before the new feature can go into the market with *our absolute guarantee.* Other makers produce scores of models every season, chiefly copies of each other—one line practically the same as all the rest, except for the extreme, freakish and useless models without which there would be nothing "new" to talk about.

3. When a new Nemo special feature is once introduced, you may be sure that it has already been tested and proved, that it will do all we claim, and that it can be adjusted to suit the varying whims of corset-fashion *without sacrificing its particular function.* Whether the corset be long or short, high bust or low, the *feature* does its work just the same.

4. Nemo Corsets produce ultra-fashionable effects *without* resorting to freakishness. For example, No. 505, the model pictured to-day, has a 14-inch skirt which clings closely to the figure; but those bands of indestructible elastic provide plenty of room when you are seated. Any other corset with so long a skirt would be mighty uncomfortable when you're standing, and a genuine torture if you should try to sit down.

But you don't have to wear uncomfortable corsets in order to be ultra-fashionable. Better have your dealer show you the new Nemos this week.

LEGAL FIGHT MAY FOLLOW ERICKSON'S DEATH

WEDDING MAY BE CAUSE OF TANGLE

Four-day Bride Has First Tilt With Firm of eDad Husband.

Mrs. Marie Wilson Erickson Throws Arms Around Coffin.

ALAMEDA, Oct. 24. — Throwing her arms about the coffin of her husband of four days today, Mrs. Marie Wilson Erickson passionately declared that she loved him with all her heart, had loved him for a long time and that he had loved her.

"You know I loved you," she cried, "and I know you loved me. Oh, why did you have to die? What am I going to do," the bride said brokenly between her sobs.

This was this morning, while Frederick L. Erickson lay dead in the front room of the home at 1030 Fair Oaks street. Last night there was a different scene, one which indicates that a bitter legal fight may follow the death of the railroad builder. J. M. Moffett, representing the dead man's firm of Erickson & Peterson, with offices in the Monadnock building, San Francisco, called at the house. Moffitt was intensely surprised, apparently annoyed, when he learned that Erickson had married Mrs. Wilson last Thursday night.

"Why didn't you telephone the office," he demanded sharply.

"I did telephone," the widowed bride responded.

Moffitt soon after left the house and went to San Francisco, where he ordered death notices inserted in the San Francisco morning papers. These notices omit all mention of Mrs. Erickson and also omit mention of the 17-year-old son, Charles Erickson, who is with the Erickson & Peterson railroad outfit at Auburn.

Mrs. Erickson has also inserted a notice, the two reading:

ERICKSON—In Alameda, Cal., October 23, 1911, Frederick L. Erickson, a native of Jordan, Minn., aged 47 years.

* * Friends are respectfully invited to attend the funeral tomorrow (Wednesday), at 10 o'clock a. m. from the chapel of N. Gray & Co., 2198 Geary street, corner of Devisadero. Interment private.

ERICKSON—In Alameda, October 22, Frederick L., dearly beloved husband of Marie A. Erickson and father of Charles L. Erickson, a native of Jordan, Minn., aged 45 years.

WEDDING PLEASES SON.

Mrs. Erickson says that the son was in Alameda Saturday and expressed his pleasure and delight that his father was married. She received a letter from the son today, written before the boy had news of his father's death. Mrs. Erickson said that the son had been wired the news and would come here for the funeral.

The wedding of Erickson and Mrs. Marie Wilson took place last Thursday night at 8:30. The bride went to the county clerk's office after regular office hours, arranged with Deputy County Clerk M. Riley to be in waiting and issue her a license. She explained then that Erickson was too sick to come for the license. Judge R. B. Tappan performed the ceremony at the home of the bride, 1030 Fair Oaks street. Erickson could not raise his head from the pillow. Mrs. Wilson explained that she had cared for Erickson for a long time and that she could care for him better as his wife than as his nurse. She owns the property where the couple lived but has occupied it but a short time, bringing Erickson to Alameda with her about three or four months ago. Previous to that the two had been living in San Francisco, though Mrs. Erickson, who was a widow when she married last Thursday, had formerly lived in this city with her first husband, the late George Wilson.

BOTH HAD PROPERTY.

The day after the wedding the bride said that both she and her husband had property. She was reluctant about giving many details of their friendship and acquaintance, but said that they had known each other a long time. She asked what concern it was of the public when pressed closely by questions.

Erickson was a well known railroad builder. With his father and brother, he built several stretches of the Canadian Pacific and also built a road for the Southern Pacific at Klamath.

The funeral will be held Wednesday from a Devisadero street undertaking establishment in San Francisco. Erickson was a native of Jordan, Minn., and 47 years of age. His parents were former pioneer residents of San Luis Obispo county, both dying in that county.

PRINCESS HASSAN NOW SEEKS DIVORCE

'MADE M' TAKE,' SAYS OAKLAND GIRL

PRINCESS HASSAN, who was Ola Humphrey, an Oakland girl, who seeks a divorce from cousin of the Khedive of Egypt.

'Husband Treated Me Like a Slave,' Declares the Former Ola Humphrey

LONDON, Oct. 24.—Princess Hassan, who was Ola Humphrey, an Oakland, Cal., girl, has found her marriage into the royal house of Egypt an irksome affair, and she is in London seeking separation from Prince Ibraham Hassan, first cousin to the khedive of Cleopatra's ancient domain.

The princess left her husband during their honeymoon in Paris, where they had been since the wedding, which was performed in London shortly after the coronation in the presence of a glittering company of nobles and members of the diplomatic corps.

She has had a brilliant career as an actress and has toured the world as the leading woman in many successful plays. She is a woman of great beauty and before her marriage to the prince had many wealthy suitors.

MARRIAGE GREAT MISTAKE.

"I married him for love," she says, "but it was a great mistake. He is an Egyptian prince, and I am just one of the plain people—there you have the whole story."

She has found, she says, in her brief period of association with the prince, that her husband expected her to obey him like a slave, and that anything but implicit and prompt obedience to his most unreasonable commands brings a storm of abuse about her ears.

The prince, who is in Paris, refuses to discuss his marital troubles for publication.

Princess Hassan's acquaintance with her husband dates back about two years, when she met him at a social affair, she having been introduced to London society by Sir Joseph Ward upon her return to England from an Australian tour.

ACHIEVES SOCIAL SUCCESS.

The acquaintance ripened fast. She announced her retirement from the stage, and, with her beauty and accomplishments, soon achieved social recognition. The marriage was conceded to be a brilliant one.

Prince Hassan occupies a high place in the councils of his country and maintains country places near London and at Constantinople. He is a modern Egyptian, progressive, advocates universal suffrage for the natives, and is more of a European than an Oriental, much of his life having been passed in England and France.

The princess has been in London since the first of the month. She was accompanied by two, trained nurses, and, in serious condition as to health, was met upon her arrival by the Count De Novers, whose wife is a close friend of hers.

COURT EMERYVILLE HOST AT A BANQUET

Three hundred members of Court Emeryville, Foresters of America, acted as hosts at a banquet las night in Golden Gate hall, Fifty-seventh street and San Pablo avenue, at which Constable Morris H. Lane, treasurer of the lodge, was the honored guest. The banquet was given in celebration of Lane's return from Detroit, Mich., where he attended the supreme court of the Foresters as supreme delegate from Court Emeryville.

Lane returned from the East last week. James T. Brennan was the other Alameda county delegate to the convention of the order. Every member of Court Emeryville was present at last evening's entertainment. Lane made a short address in which he told of the work of the supreme court.

PLEADS TO SAVE FORMER CONVICT

Mrs. G. D. Abbott Restores to Position Employe Who Stole From Her.

Mrs. G. D. Abbott of 25 Crocker avenue, Piedmont, appeared this forenoon in the criminal department of the Superior Court and pleaded with Judge William S. Wells for probation for P. Wagoner, her hired man, who was charged with a prior conviction and petty larceny. The court admitted the prisoner to probation for five years.

After serving a term in San Quentin for burglary Wagoner came to Oakland and secured employment in the Abbott family. For about seven years he attended to his duties faithfully and led a model life. Then he fell from grace in the early part of the summer while Mrs. Abbott was away from home on vacation and a woman was the cause of his downfall.

According to the report of Probation Officer Ruess, supported by the personal testimony of Mrs. Abbott, corroborated by Wagoner himself, the woman in the case fascinated the reformed convict and led him to drinking. When all his money was gone Wagoner stole some of Mrs. Abbott's silverware and sold it.

The members of the Abbott family think so much of Wagoner that they have restored him to his old position.

ALLEGED "DIP" HELD TO ANSWER: TWO CHARGES

SAN FRANCISCO, Oct. 24.—Joseph Ferry, said by the police to be a notorious pickpocket, was in Judge Shortall's court this morning, having been arrested last night by Officers Gallatin and Nolan, when he was recognized by Frank Durye, secretary of the Teamsters' Union, as the man who had picked his pocket about a week ago. Durye had just collected dues and was on a car at Sixteenth and Guerrero streets when a thief took $207.50 from his pocket. A second charge was lodged against Ferry on Durye's complaint.

CAN AND WILL WOMEN SIT ON JURY?

Police Judge at Los Angeles Says "No;" Superior Judge "Yes."

Two Suffragettes Assert They Can and Will Serve if Called.

LOS ANGELES, Oct. 24.—A police court controversy over the eligibility of women to serve as jurors brought forth the statement from Police Judge Frederickson today that women could not sit on juries in his court until the legislature meets and changes the code.

Section 17 of the Code of Civil Procedure reads: "Words used in the masculine gender include the female and the neuter."

Section 190 defines a jury as "a body of men." Justice Frederickson says that "a man is a man, not a woman. If the code meant to include women as jurors it would not read 'he,' but 'he or she.'" Police Judge Chambers intends to pass upon the question in a few days.

Superior Judges McCormack and Houser state respectively that "there is no legal obstacle to women jurors" and that "women have the right to serve." Deputy City Prosecutor Stafford says "only custom forbids."

Deputy City Prosecutor Nimmo says "it depends upon whether man, as used in the code, means every member of the human race."

Mrs. Clara Shortridge-Foltz, deputy district attorney and leader in the suffrage movement, declares "there is no privilege of duty of citizenship in which women have not an equal share with men in this State."

Mrs. Seward Simons, president of the Political Equality League, says: "I cannot answer for all women, but I am perfectly willing to serve on any jury on which I might be called."

BRANDS STEEL COMBINE AS ILLEGAL

Charles A. Prouty Declares the Trust Problem Is Hard to Solve.

NEW YORK, Oct. 24.—"There is no greater job in the world today than the treatment of the trust problem by the government of the United States," declared Charles A. Prouty, member of the interstate commerce commission, in an address here.

"Twenty-one years ago," he explained, "the Sherman anti-trust act was enacted. For more than two decades it has been subject of judicial interpretation. It has often been passed upon by inferior federal courts and several times by the supreme court of the United States. Yet today no lawyer can advise his client with certainty whether he is within or without inhibition of that law.

BRANDS IT CRIMINAL.

"The greatest criminal enterprise in our country is the United States steel corporation. Its capitalization is close to $1,500,000,000. It employs tens of thousands of workmen, and its transactions run into many millions annually. For ten years it has been in the public eye, and it is generally understood that its operations have been entirely above board, yet there is profound uncertainty as to whether that great enterprise is legal or not.

"I have come to believe that an indiscriminate prosecution of these great business enterprises in the United States, even though it results in decrease of dissolution, will in the long run produce little practical good. If there are evils connected with the organization or the operation of these monopolies—and there are very grave evils—they must be reached by some different method."

NEW SERVICE FOR THE SUNSET LIMITED

SAN FRANCISCO, Oct. 24. — James Horsburgh, Jr., general passenger agent of the Southern Pacific company, returned yesterday from El Paco, where he attended a meeting of officials of the Harriman lines called to develop further plans in connection with the re-establishment of the Sunset Limited between this city and New Orleans. Upon his return, Horsburgh announced that the first of the new trains will leave New Orleans December 4, and the first to leave this city will depart on December 5. The new de luxe trains, which are to be luxuriously appointed, will leave this city on Tuesdays and Fridays at 6 p. m. and will leave New Orleans on Mondays and Thursdays. Incidentally, with the operation of the new trains the Sunset Express will leave this city at 10 p. m. instead of 4 p. m., the present time of departure.

MISS STEELE WILL SOON BE A BRIDE

BEAUTIFUL CEREMONY TO BE AT HOME

MISS MURIEL STEELE, whose marriage to J. Wesley Gallagher will take place at 4 o'clock this afternoon.

Couple to Depart for China, Where They Will Make Their Future Home

Miss Muriel Steele will become the bride of J. Wesley Gallagher late this afternoon at a quiet but beautifully appointed ceremony which will take place at the home of the bride's mother, Mrs. E. L. G. Steele, in Jackson street. The Rev. Allen of St. Paul's Episcopal church will be the officiating clergyman.

The bride, who is considered a pronounced beauty, will wear a wedding gown of the conventional white satin covered with handsome old rose point lace which has been in the family for many years. Attending the bride and bridegroom will be Mr. and Mrs. Thomas H. Williams of San Francisco. Mrs. Williams is a sister of Miss Steele.

Mr. and Mrs. William Shiels (Elsie Bennet) will be among the few intimate friends at the wedding, having come up from Southern California to be present.

The Steeles are well-known Oaklanders and their family is one of the representative ones of the coast. The late E. L. G. Steele was a pioneer member of the Bohemian Club and widely known in both business and social circles.

As Miss Beatrice Steele, Mrs. Williams was a local belle and her sister has followed in her footsteps. Young Gallagher is the representative of the United States Steel Corporation in China, whose center of business is in Shanghai. He met Miss Steele while she was traveling in England and was a guest at the Tom Williams home two years ago.

TO LIVE IN CHINA.

Gallagher and his bride will leave tomorrow for the Orient, where a home in Shanghai awaits their arrival. The wide circle of friends of the Steeles are deeply regretting that the marriage will take from their midst one of the most popular of the Oakland girls.

OAKLAND AS WHOLESALE AND JOBBING CENTER

Chamber of Commerce Calls Attention to the Commercial Advantages This City Possesses

The advantages of Oakland as a wholesale and jobbing center were boosted by the directors of the Chamber of Commerce in their meeting this morning. In this action they followed the course of the Merchants' Exchange, when they endorsed the passage of the following resolution:

Whereas, the City of Oakland, with its environs on the east shore of the bay of San Francisco, embraces a population of a quarter of a million within an area that is destined within the present decade to be the scene of unprecedented development, and

Whereas, exceptional means of transportation by rail and water make possible distribution of commodities from Oakland at the greatest economy of time and cost to the largest and most compact body of consumers on the Pacific Coast, and

Whereas, many millions of dollars are now being devoted to the creation of superior harbor and shipping facilities which call for the establishment of great depots for distribution in this city; now therefore, be it

Resolved, that this Chamber of Commerce will welcome the establishment of wholesale and jobbing houses in Oakland, and encourage as far as lies within its power, the purchase of stocks of goods from such firms as are established in this city, or have branches here, without restriction as to the territory in which the Oakland house may do business; and be it further

Resolved, that we recognize in the building up of our commerce and industry the great contributing causes for civic expansions, and commend to our citizens the encouragement of such enterprises as will result in the upbuilding of the business and the industries of Oakland.

SENATOR GORE TO DELIVER LECTURES

SAN FRANCISCO, Oct. 24.—Thomas P. Gore, the blind United States senator from Oklahoma, arrived here yesterday from Kansas City and is staying at the Palace. Senator Gore is on a lecturing tour that has carried him through nearly every state in the West. He is talking of governmental reform, indorsing the recall and referendum, but explaining to his hearers that these measures are but instrumentalities in the needed change in the laws that will eventually bring greater protection to the American citizen.

CASE CONTINUED.

SAN FRANCISCO, Oct. 24.—James A. Holland, accused of an assault on Mrs. Patrick Farrelly, appeared in Judge Lawlor's court this morning and the case was continued until tomorrow. Patrick Farrelly, who shot Holland in the city prison following his arrest, was yesterday convicted of assault with a deadly weapon.

BUSY DAYS IN SIGHT FOR TAFT

Task of Filling Judicial and Other Vacancies Soon Confronts Him.

President's Path Like That of Other People, Not Always Flower-Strewn.

GLENCOE, Minn., Oct. 24.—When President Taft returns to Washington next month not the least of his labors will be the filling of judicial vacancies which have arisen since the adjournment of Congress in August. There is practically no chance now that a successor to the late Justice Harlan will be selected by the President until he reaches Washington. He has received many suggestions as to how he should fill the vacancies on the supreme bench and many names, including those of Attorney General Wickersham, Solicitor General Lehmann and several others prominent in public life, have been mentioned.

Mr. Taft also probably will fill this winter existing vacancies in the New York, Montana and Wisconsin districts and also will name a successor to United States Circuit Judge Grosscup of Chicago.

In addition to these judicial appointments the President will name a member of the international boundary commission to succeed the late Senator Carter and a United States marshal for the northern district of New York.

Glencoe was the first stop on the Presidential schedule today. Between this town and Minneapolis, where the President will spend the night, his train was expected to make several stops. Although South Dakota was left behind, United States Marshal Seth Block of that State is traveling with the President today.

MILLIONAIRE'S WIFE BRINGS SUIT

Mrs. Harry Sherwood Wants $100 a Month From Her Wealthy Husband.

SAN FRANCISCO, Oct. 24.—A suit for maintenance was begun here today and placed upon the secret file by Mrs. W. Sherwood against Harry Sherwood, former president of the Merchants' Exchange and former vice-president and general manager of the Sperry Flour Company. Millidge G. Sherwood, a son of Harry Sherwood, was made a co-defendant in the action.

Sherwood is at present a stock broker of this city and Bakersfield, is a millionaire and a member of most of the prominent local clubs.

The action for the sum of $100 monthly follows a divorce suit originally filed here and transferred to El Dorado county, where Mrs. Sherwood is living at Georgetown on her ranch. The present action was transferred from El Dorado county to the local courts.

Millidge Sherwood is made a party owing to the claim of Mrs. Sherwood that her husband has been making over to him a considerable portion of his property.

The Sherwoods were married in Galveston, Tex., in 1875, and have seven grown children, all of whom are well and prominently known in the smart set on both sides of the bay.

YOUTHS PLEAD GUILTY TO BURGLARY CHARGE

Decked out in the same elegant clothes that they wore when arersted by the police several weeks ago for breaking into the Broadway jewelry store of W. N. Jenkins, and presenting a jaunty appearance as they stod before Judge William S. Wells, F. Brittain, H. Brook and H. F. Carter, credited with being society youths of Chicago, were arraigned for burglary this forenoon in the criminal department of the Superior Court. Brittain and Brook pleaded guilty and asked Judge Wells to pronounce sentence immediately. This he refused to do and continued judgment until Friday morning. Burglary in the second degree is the crime for which they must pay the penalty, the maximum under the law being five years in the penitentiary.

Carter pleaded not guilty and will stand trial. He declares that he was not implicated in the burglary and has employed Attorney George J. McDonough to defend him.

BABIES WAIL FOR RETURN OF DEAD MOTHER

Neighbors Come to Aid of Stricken Martiolli Family.

WOMAN IS BURNED TO DEATH IN COTTAGE

Widower and Father Accused of Breaking Liquor Law.

ALAMEDA, Oct. 24. — The body of Mrs. Beatrice Martiolli lies blackened and disfigured in an Alameda undertaking parlor on Santa Clara avenue. At 1608 Sixth street seven children, three of them too young to understand, are wondering where their mother has gone. The two-year-old baby, Katherine, lisps: "Mama, fire," when the kindly neighbors call and do what they can for the stricken family.

George Washington, the five-year-old boy, born on Washington's birthday, talks continuously and asks endless questions in an effort to understand why his mother does not come home; why his father remained all night at a neighbor's house and why brother Sandro didn't come home last night.

Anita, the 14-year-old big sister, the little mother of them all, held the baby this morning, quieted George Washington's clamoring and ordered the other children about, as she told how her paralyzed, invalid mother, barely able to walk, had undertaken to light a defective gas stove in the kitchen; how the gas had flamed up and enveloped her mother's body and how the mother, helpless to move, had been transformed into a human torch as the fire seared and burned her.

BABIES AT HOME.

The older children were at work, the intermediates were at school, and only the babies were at home, playing in the back yard, when the tragedy happened. The cries of agony of the burning woman summoned help from the neighbors. Miss Bertha Arents, well known to the concert stage as a gifted singer; Mrs. Edgar M. Drake, Mrs. Adolph Delucca and Mrs. W. Kennedy, heard the cries of Mrs. Martiolli and rushed to her rescue.

The house was then full of smoke and ablaze. In the center of the kitchen the woman's body was still burning. The firemen saved the house but could do nothing for the woman. Dr. Harold A. Miller worked for a couple of hours, trying to ease the victim. Then the ambulance took the woman to the Alameda sanitarium where medical treatment was possible but the case was past human aid and death's intervention a few hours later was a merciful relief.

Mrs. Martiolli was born in Italy and was 51 years old. She and her husband were married in their native land and four of the seven children were born there. The skies of Italy were fair and smiling but the babies came fast and the money came slow, so Martiolli decided to come to the new world where wages were better, opportunity greater and climate equally good.

The husband is a machinist and two of the boys, Sandro and Peter, are also working, all three being employed at the United Engineering Works. The younger children of school age were sent to Longfellow school. Anita, Julio and Mary are on the Longfellow school register. George Washington stayed at home dreaming of the time a year hence when he would start to school, and Katherine rolled on the floor and played in the back yard, her chief concern being that her bottle was at hand when needed.

DIES FOR BABY.

It was to warm a bottle of milk for her baby which caused Mrs. Martiolli to start the fire in the gas stove which led to the tragedy. The baby was old to be on the bottle but the mother had been sick for months. She had been in hospitals at different times but secured no permanent relief from the creeping paralysis and other ailments.

According to the law, Martiolli had another industry besides being a machinist. The law found last week that he had been selling liquor without a license. Twelve men sat in Judge R. B. Tappan's court and found him guilty. Last Friday he came up for sentence and was fined $200 cash or 100 days in jail. He was given until yesterday morning to pay his fine.

Even a machinist with steady work finds it difficult to provide for a family and Martiolli was evidently worried over raising that $200. He took an appeal yesterday morning and will fight the case through a higher court.

FUNERAL OF MISS ADA S. BERTRAND OCCURRED TODAY

The late MISS ADA S. BERTRAND.

BERKELEY, Oct. 24.—At the funeral of the late Miss Ada S. Bertrand of this city, held at Oakland undertaking parlors this afternoon, her fiance, Andrew Christiansen, whom she was to have married early next year, was one of the principal mourners.

Rev. F. A. Martyr, pastor of St. Clement's Episcopal chapel, Claremont, conducted religious services. The interment was in Mountain View cemetery.

Miss Bertrand was but 20 years of age, and a daughter of Mrs. Mary Bertrand, of 2132 Ward street, this city. Christiansen, who is an automobile dealer of Antioch, is a son of Mr. and Mrs. William Christiansen, of 606 Merrimac street, Oakland.

BENNETT TO TELL OF PHYSICAL DEVELOPMENT

BERKELEY, Oct. 24.—Sanford Bennett of San Francisco, aged 71 years, who is well known as a physical culture exponent and singer, who appeared at the half-hour of music in the Greek theater last Sunday, will give a public lecture and demonstration of his development at a public meeting to be held in the high school auditorium Monday evening, October 30. Besides giving an illustrated talk on physical culture he will sing several numbers. Other entertainers will appear on the program.

UPHOLDS DIVINITY OF THE SAVIOR

Father Thomas J. Burke Heard Before College Students.

BERKELEY, Oct. 24.—"Either Christ is God or He is the worst impostor that ever trod the earth," declared Rev. Thomas J. Burke, C. S. P., of New York, preaching on "The Divinity of Christ" at Newman Hall, before a large gathering of student members of the Newman Club and their friends, last evening.

"Either Christ is God or millions upon millions of men today are fools and dupes," he continued.

"Either Christ is God or we should yield the homage of our intellect to those who have foully outraged Jesus—to Voltaire, to Ingersoll, rather than to Christ. And yet do we hesitate between them? Stand forth, Voltaire, with your infidel cynicism, and see whether men will choose you or Him, whose glory it was to preach unto the poor.

"Jesus Christ was a holy man. Who will deny it? Who will dare stand up and say that there was ever a man as holy, as good?

"Jesus Christ said and taught that He was God. Christ taught His divinity. If He allowed others to believe that such was His doctrine; if He positively asserted that He was God, claiming to do what required the power of God. That Jesus Christ taught men that He was God, that such was His doctrine, we have from the testimony of His enemies and of his friends.

"To my mind one of the strongest witnesses of the truth of the Incarnation is the benefit brought to mankind during the last 1900 years by His acceptance. We who live with centuries of Christian civilization behind us can scarcely realize the great change that has been brought in the condition of men since the coming of Christ.

"Stand forth, Renan and Strauss, with your pedantic arrogance and see whether men will choose you or the simple Preacher of the Sermon on the Mount. Stand forth, Colonel Ingersoll, and men of your stamp, sprung from a dead paganism and choking the flowers of the Christian garden—stand forth with your advocacy of obscene literature, with your defense of the coward's refuge, suicide, and see whether men will choose you or the Teacher of the pure and sacred morality."

Holland and Petrosky Are in Excellent Shape for Ten-Round Bout Tonight

RIVAL HIGH SCHOOL TEAMS TO MEET AT RUGBY FRIDAY

Oakland and Berkeley Rugbyites Primed for Hard Fought Annual Contest on California Field

By L. N. COBBLEDICK JR.

With the annual Oakland High School-Berkeley High School Rugby football game but three days off, the players on both teams have settled down to a snappy, careful and well trained condition which will be sustained by light practice work.

Yesterday afternoon and this afternoon the Blue and White squad of the Oakland school went through well executed practice work with the scrum men or forwards coached by Coach Everett A. Brown, formerly of Nevada University, who has been coaching the two big squads all season. The backs were coached by Leo Hermle of California and formerly an Oakland High star.

The backs went through their plays like clockwork passing perfectly with a machine like precision and making beautiful punts and cross kicks. It will be upon these backs, namely Reynolds, E. Skinner, Gozales, Stewart, C. Skinner, Carthwaite, Hanley, Stevens and White, that the Oakland team will depend upon for its victory. The scrum, however, has improved vastly since its last game two weeks ago and will be looked up as a strong part of the team.

The two scrums of Oakland and Berkeley high are about equal although the red and gold forwards are a trifle heavier than the Oakland men.

BATTLE OF BACKS.

The game is sure to be a battle of the backs. Austin and Forbes are the two shining lights in the Berkeley backfield and the speed and strength of all the backs was shown in the recent game with the Stanford babies.

The "dope" on the game would seem to favor Oakland high but this cannot be relied upon as to the result of the game. Of the larger games, both teams defeated the California freshmen and were each defeated by the Stanford freshmen. However, in the hardest pair of games played this season in prep school circles, Berkeley tied Fremont high in a no score game, while Oakland defeated the latter team 5 to 3. However, as said before this is very unreliable in forecasting a Rugby game.

CALIFORNIA FIELD SECURED.

The football game will be played on California Field, next Friday afternoon at 2:15, with the Oakland high school's big rooting section on the west (Stanford) side of the field with Berkeley high directly opposite on the east side of the field.

Oakland high will hold her last practice work tomorrow afternoon with the squad resting on Thursday. Berkeley high will do the same although the squad may be picked Thursday afternoon.

Coach Faulkner of St. Mary's college and formerly of Stanford, will referee the game.

TRACK AND BASKETBALL.

The first basketball practice of the season was held in the Oakland high school gym yesterday afternoon with a large squad out for practice under the supervision of captain John Whitton as the football season ends Friday afternoon a large number of gridiron stars will be out for positions on the team.

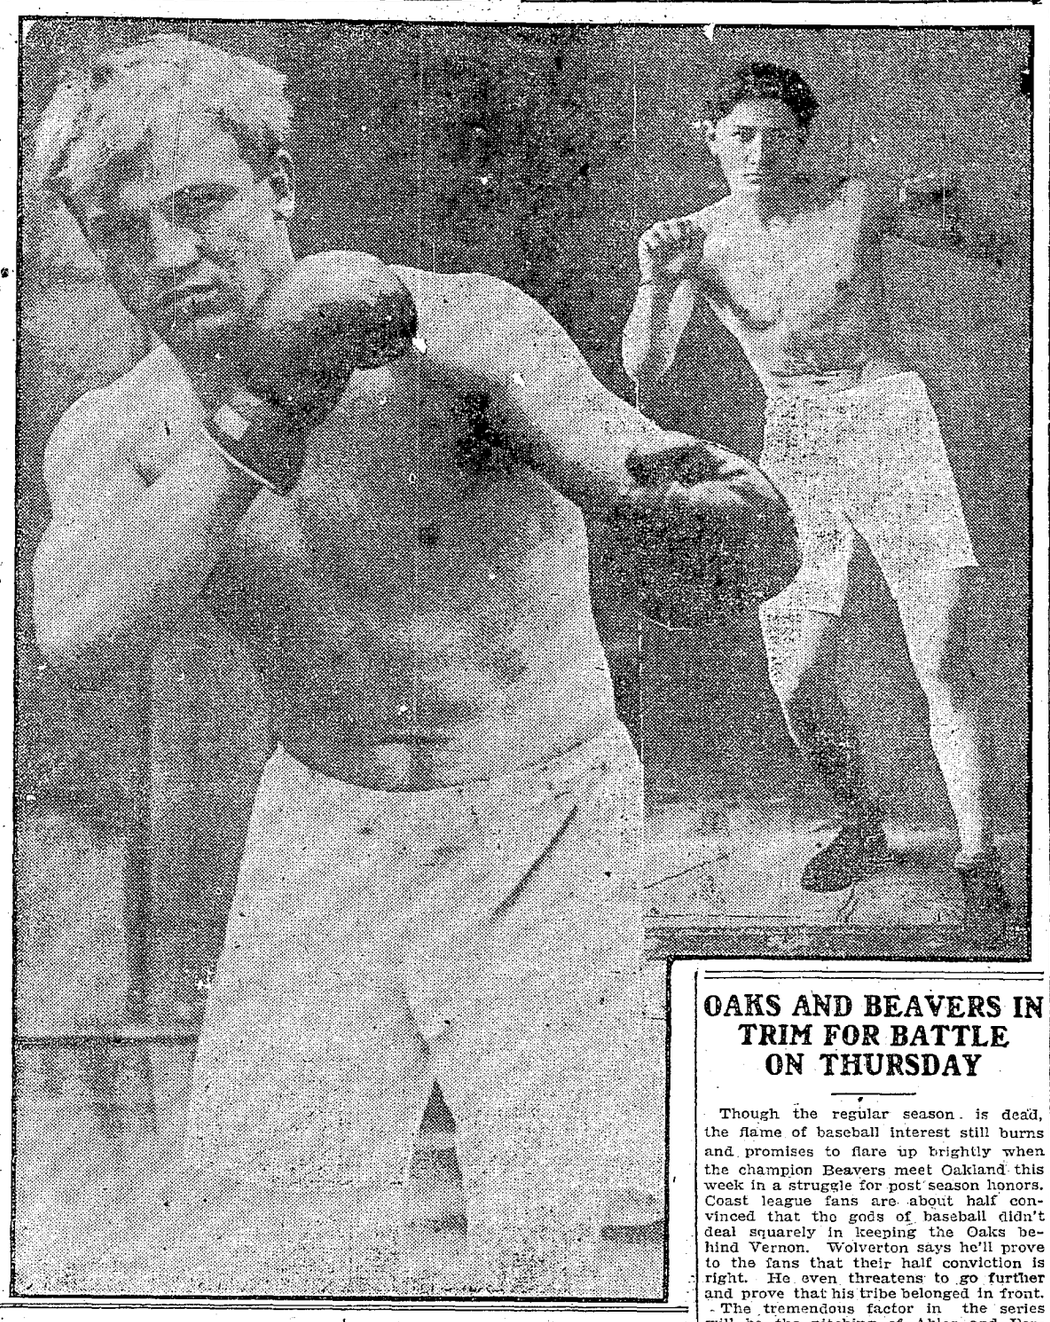

The fall track training season will start next Monday under the direction of Captain Harold Baxter. All of last season's men but three will be on hand to train on the cinder paths. A number of new men will also turn out and the chances for another big "O" team are exceedingly bright.

BERKELEY HIGH GIRLS ROW.

The Berkeley high school girls' boating club have organized for the season and a large number of the fair sex have been rowing in their three boats on Lake Merritt while at the same time on the shores of the lake the boys of the Oakland high school, out for the football team, which is to play the Berkeley girls' school team Friday.

The girls are fast becoming very adept at the oars and are getting the long stroke down fine. Challenges will be issued to the girls of the Oakland high and Oakland Polytechnic boating sections. The Y. W. C. A. and U. C. girls also have fast crews upon the lake and many lively regattas may be expected in the near future.

PLENTY OF ACTION PROMISED AT THE WEST OAKLAND CLUB

Holland and Petrosky Well Trained and Ready for the Gong Tonight; Rest of Card Looks Good

By BERT LOWRY.

Unless all signs fail, Matchmaker Sol Levison of the West Oakland Club will cover himself with glory this evening for he has arranged a classy card for the rejuvenation night.

In Fritz Holland and Sailor Ed Petrosky he has signed up two of the best, if not the best, youngsters in this part of the country at their weight. Both can and will fight, and that is about all the fans look for these days in the ring.

Petrosky and Holland put the finishing touches on their training yesterday afternoon and both look fit and ready for a most gruelling scrap. In a previous engagement they went four rounds to a hard fought draw, and as in all of these affairs both are claiming a victory.

This evening the chance is offered to both to show just what they can do over a long route, for their go tonight is scheduled for ten rounds.

HOLMES AND FITTEN SOME CLASS.

One of the six-round bouts that is attracting much attention on the West Oakland card is the Holmes-Fitten scrap. Jimmy is over that old stunt of underrating a boy and has been most faithful in his daily grind at training. This boy Holmes is a rugged youngster who will bore in all the time, has a good punch and isn't afraid to take a wallop or more.

Fitten usually gives a good account of himself when called on and promises to be fighting all the way while in the ring with his opponent.

The balance of the card is a good one and is as follows: Joe Atkins with Knockout Campi, Billy Weeks against Al. Rogers, and J. Evans against Young McGraw.

An entire new set of officials will handle the affair and are sincere in their promises to have everything in apple pie order for the fans from start to finish.

Let them keep their promises with the fans and the management can see prosperity and success crowning their efforts, for the fans of Oakland will patronize a show that keeps up to the mark.

WHEELMEN HAVE FRAYNE AND POWELL.

A week hence from tonight the Oakland wheelmen will stage a ten-round bout and several shorter round bouts at their club rooms at Piedmont that should please the fans.

Lew Powell and Johnny Frayne will furnish the main event that evening in a scheduled ten-round bout. Both these boys have met in the arena before and neither of them is satisfied with the verdict of the last go.

Al. White, who is handling Frayne and thought enough of him to send him against Matty Baldwin, is willing to lay a sack on his protege and is full of confidence that Johnny will be in the winner's corner when the scrap is over. Frayne is boxing every day at White's place and looks fit and ready to go the route.

Powell is hard at work at Millet's place over in San Francisco and is reported to be in first-class shape now, for he has been looking forward to this bout and has trained accordingly.

Two of the ten round contests that Jim Griffin, manager of the Broadway Athletic club, will present to his patrons at Dreamland in San Francisco on Friday evening are causing considerable interest among the followers of the pugilistic game. These are the contests in which Willie Ritchie and Jack Britton and Eddie Campi and Jimmy Fox meet.

Although Ritchie has a four round decision over Britton the Chicago boy is confident that he can reverse the result in a longer contest. He claims that Ritchie's knowledge of the four round game and his ability to get out of range of Britton's punches enabled him to win the short bout, but Jack says that in a ten round affair, which is more like the distance that he has been used to going, will make all the difference and he has no fear but that he will be able to solve Ritchie's clever moves long before the tenth round is rung in.

Richie, with his four round win to guide him, feels that he is Britton's superior in everything, that goes to make a winner.

The Campi-Fox bout should be a lively affair. These boys are the best in their class among the local glove men and have already had several spirited set-tos, with the honors so evenly divided that the fans are welcoming the chance to see them in a contest that will be long enough to give the boxers every opportunity to show which is the better boy.

In the other contests, Abe Label will pit his strength and hitting ability against the cleverness of Rufe Turner, the old timer who has made such a wonderful "come back" and Lee Johnson the clever negro boxer, will stack up against Roy Moore, who although not particularly clever with the gloves, can take a lot of punishment and put in a hard punch when he gets within range.

TWENTY-SIX PLAYERS REPORT FOR GAME AT ST. MARY'S

Twenty-six men were assigned to the varsity football training table, which was started last evening.

Roth, who has been out of the game for some time with a broken finger, returned to the game today, but will only do light work.

The men who were selected for the training table are: Captain Bell, Papps, Hatt, Cann, Greeley, Snead, Glavinich, J. Roth, Walker, Guptill, Franchi, Blanco, Tegny, Simpson, Stoltz, Leonhardt, H. Roth, Tognazzini, Clinton, Anderson, Gochnico, Chiles, Bruzzone, Cooney, Incell and Dinvila.

INDIANA TOWNS PUT BAN ON SCRAPPING GAME

CHICAGO, Oct. 24. — Chicago prize fight promoters received a setback last night when it became known that the authorities at Gary, Ind., had given notice that no more prize fights can be held in that city.

With the Gary report came news of similar action in Hammond, Ind., where the O'Neil-Schlessberg bout is scheduled to be held Thursday night. The police of both cities declares boxing is dead as far as they are concerned.

That the action of these two Indiana towns has placed a damper on prize fighting in the Middle West is the opinion of followers of the sport here. Indiana and Wisconsin have been the Mecca of Chicago fighters and it was only receptly that the Wisconsin authorities took action to discourage the game. Since the McFarland-Wolgast bout was called off in Milwaukee, there has been but one bout held in Wisconsin.

CATHOLIC ATHLETES READY FOR INDOOR TOURNAMENT

SAN FRANCISCO, Oct. 24. — Nearly six hundred young athletes of the Catholic schools athletic association are entered in the various events of the fourth annual indoor meeting of the organization which will be held Friday night in the Auditorium. SKELLY LOOKS FOR CHANGES IN THE BOXING GAME

Veteran Lightweight Selected to Revise Present Rules Governing Pugilism.

YONKERS, N. Y., Oct. 24. — Jacob Skelly, the veteran featherweight, who retired from the ring in 1892, and has recently been appointed an official referee by the State Athletic Commission, has prepared a revision of the Queensbury rules which he hopes to see adopted for American boxing. Some of the more important sections of his revised code are: The weights for all championship contests shall be as follows: For bantam weights, 110 pounds; featherweights, 120; lightweights, 135; welterweights 145; middleweights, 158; light heavyweights, 170; all over 170, heavyweights.

Each champion shall defend his title at least twice a year, if the challenger post a $1000 guarantee. A champion refusing to make a match shall forfeit his title. There shall be no continuous clinching, hugging or wrestling allowed by the referee.

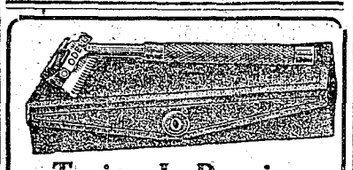

If either man goes down through weakness or other causes, he must get up unassisted within ten seconds. The other man meanwhile must step back ten feet.

A man hanging on the ropes in a helpless condition, or a man on one knee shall be considered down and if struck is entitled to the decision.

The referee shall decide all limited contests on points. The points to count shall be for attack, direct clean hits with either hand above the belt, defense, guarding ducking, counter hitting or side stepping. Where points are equal on both sides consideration must be given to the man doing the most leading.

LOCAL ELKS PLAY FAST GAME WITH SAN RAFAEL

Timely Hitting in the Eighth Changes Defeat Into Victory.

The Oakland Elks journeyed to San Rafael Sunday and in a very exciting game defeated their San Rafael brethren. Brick Devereaux pitched for the winners, and with good support would have kept the score down. His fielding and the batting of Hickox, Daily and Hogan, and the work of Worth at shortstop were the features.

After the game the players of both teams with their wives and about 50 members of Oakland lodge and their ladies adjourned to Fairfax where a banquet was served, and every one voted the occasion as the day of their lives.

BEAVERS TO RECEIVE REMEMBRANCE FROM FANS

PORTLAND, Ore., Oct. 24. — Portland's pennant wining baseball team will be tendered a testimonial by the loyal fans of Portland after all. With this idea in view, a committee of fans met today and elected O. C. Bortzmeyer of the Merchants' Savings and Trust company treasurer of a fund to be raised to present each member of the team with a suitable memento of the championship.

WHITE OUTFIGHTS DRISCOLL.

MEMPHIS, Oct. 24. — Charlie White of Chicago was awarded the decision over Boyo Driscoll of England at the end of an eight round bout here last night. It was White's fight from the start. In the second round he drove the Englishman to the ropes several times, and the bell probably saved a knockout.

Driscoll, however, came back strong in the third and fought gamely. Driscoll's face and head were badly bruised. White was unmarked.

OAKS AND BEAVERS IN TRIM FOR BATTLE ON THURSDAY

Though the regular season is dead, the flame of baseball interest still burns and promises to flare up brightly when the champion Beavers meet Oakland this week in a struggle for post season honors. Coast league fans are about half convinced that the gods of baseball didn't deal squarely in keeping the Oaks behind Vernon. Wolverton says he'll prove to the fans that their half conviction is right. He even threatens to go further and prove that his tribe belonged in front.

The tremendous factor in the series will be the pitching of Ables and Pernoll. Both have rested in preparation for the battles, and as both seem to have something that "Buddy" Ryan can't hit, the Beavers will face these southpaws 50 per cent below their normal strength, for "Buddy" is about half the team.

Both teams trimmed Vernon in the closing weeks of the pennant fight. An analysis of the two series shows that Oakland handed Hogan a worse beating than did the champions.

First blood will be hard fought for. The opening game is scheduled for the Oakland grounds at 3:30 Thursday afternoon. Friday they come to this side of the bay and also play here Saturday and Sunday afternoons. Sunday morning the teams meet in Oakland.

FRANK CHANCE WILL GO BACK TO FIRST BASE FOR CUBS

CHICAGO, Oct. 24. — Manager Frank Chance of the Cubs announced yesterday that he proposes to resume his old position at first base when the season of 1912 opens.

As a protection against "bean balls" Chance has arranged with a sporting goods manufacturer to make him a special headgear. During his career with the Cubs, Chance has been hit on the head more than 50 times by pitched balls and last August hew as compelled to retire from the game for the remainder of the season as the result of stopping a ball with his head in Coincinnati.

COSTER KNOCKED OUT.

NEW YORK, Oct. 24. — Patsy Kline, the New Jersey featherweight, knocked out Joe Coster of Brooklyn with a right to the jaw in the fifth round of a scheduled 10 round bout here last night.

Kline carried the fighting to Coster from the first gong, putting the Brooklynite to the floor for nine seconds in the first round.

WRESTLERS IN DRAW.

SALT LAKE CITY, Oct. 24. — Emil Rogers and Hasson Youseff, the Turk, wrestled one hour to a draw here last night. Neither had a pronounced advantage, though Rogers was about 25 pounds the heavier. The strangle hold was barred.

BUDDY RYAN LEADING HITTER FOR 1911 IN COASTERS

Heinie Heitmuller leads the batters of the Pacific Coast League, according to the unofficial returns, but the honors do not belong to him. Buddy Ryan is the real leader when it comes to clouting the ball. A review of the season's work, and by allowing that Heitmuller went to bat as many times as Ryan in as many games, he would have a percentage of .350 for the season, which does not top that of Ryan. O. C. A. L. BASKETBALL TOURNEY IS STILL INTERESTING

In two interesting games of basketball in the Oakland Church Athletic league tournament at the Cadet armory at Eleventh and Market streets last Saturday night both teams of the Loyal Sons won their games, the unlimited class team taking the Congregational Cadets down the line by the score of 34 to 18, while the lightweight team won its way into the finals of the league by defeating the fast Fruitvale Arrows team in the semi-finals in a fast and snappy game, score 22 to 16.

Hjelte, playing center for the Loyal Sons in the unlimited class, was the star of the evening, scoring eleven field goals, or 22 points, for his team. The lightweight game was the hottest contested game seen in the church league this season, the winners being behind their opponents 8 to 4 at the end of the first half, but in the second half forged ahead and won by the score of 22 to 16.

Loyal Sons, lightweight division—Forwards, Pease, Dixon and Hicks; center, Widdell; guards, Gimball and Maurer.

Loyal Sons, unlimited division — Forwards, Guilford and Fox; center, Hjelte; guards, Anderson and Rhoda.

MERGER OF BORAX INTERESTS MADE

Includes Holdings of Corporation of Which F. M. Smith Is Head.

An instrument executed in London on May 23, which will bring all of the property located in California, Nevada and Oregon of the Borax Consolidated Company (limited) of London under one general trust with the Indian and General Investment Trust (limited) of London, as trustee, was filed today in the offices of the county recorder. Borax Consolidated is the F. M. Smith corporation which controls the borax output of the Pacific coast, and is not merged as a subsidiary corporation with the gigantic $200,000,000 United Properties Company, and the instrument filed today includes in the British trust certain properties which were not incorporated in the original agreement.

The original trust consisted of two deeds to the Indian and general investment trust to secure two loans of approximately $7,000,000 for use in the development of Smith's borax mine. One loan was for $5,000,000, executed February 9, 1899, and the other was for $2,000,000, executed July 4, 1902, making the total money raised in England for the enterprise $7,000,000. Both trusts have yet a number of years to run and the appearance of their concentration into one deed covering all the properties of borax consolidated is for the purpose of simplifying the future financial management of the United Properties Company.

BURGLAR TRIES TO ROB JEWELER

SAN FRANCISCO, Oct. 24.—A daring burglar, by a cunningly contrived plan, attempted to break into the jewelry store of Shreve and Company, the largest silverware and diamond establishment on the Pacific coast, this morning and would have succeeded but for the interruption of a night watchman, who fired at him.

The intruder went to the rear of the store, in a little alley on Comton place, broke the glass on the transom and was making his was through when he was frightened by the watchman, Samuel Claussen, who heard the crash of glass.

A burglar broke into the picture store of Rabjohn and Morton, 280 Post street, but no inventory of the loss has so far been made.

WIND BREAKS TO BE ESTABLISHED

Passengers to and from San Francisco via the Southern Pacific's Alameda mole will in future be protected fro mthe elements when boarding the boats and trains according to the announcement made by General Superintendent Davis to the Chamber of Commerce which, through its Progress and Prosperity committee, had protested against existing conditions.

Superintendent Davis in his letter quotes from a communication from L. Richardson, district freight and passenger agent of the road, who says:

"We are now considering a proposition to install a windbreak composed of steel rolling doors and glass between the pillars and the south side of the concourse, and work will be started on same within a few days and completed at the earliest possible date."

TENNIS PLAYERS ARE AFTER NEW COURTS

ALAMEDA, Oct. 24.—At the meeting of the Lincoln Park Tennis Club last night the secretary was instructed to communicate with the park and playground committee of the city council requesting that the city install two additional double courts in the eastern end of Lincoln Park.

The club, at the present time, has a waiting list of twenty-five, who would like to join the organization, but which is impossible, owing to the limited court space.

Every Sunday there is from six to a dozen people go to the park to play, but who are disappointed, the courts being asked for long in advance.

The old board of park and playground commissioners had leveled off a part of the park in the east end for the ultimate purpose of putting in new courts and it is the intention of the tennis club to take up with the council to see if this work cannot be completed.

PAY TRIBUTE TO PLUCKY WOMAN

The Crew of Ill-fated Andrew J. Olsen Honor Wife of Skipper.

SAN FRANCISCO, Oct. 24.—When the steamer City of Sydney docked at pier 44 this morning, the crew of the ill-fated four-masted schooner Andrew J. Olson, stepped down the gangplank and as Mrs. Leonore M. Steeam, wife of the skipper, came ashore, eight able-bodied seamen, members of the crew, stood with their hats off as she passed. The action was a mark of respect for the heroism she had shown during the wreck experience and later when the steamer on which they had taken passage fought a hurricane off the coast of Mexico.

Captain Steeam at the time of the floundering of the Andrew J. Olson, lashed his wife to a companionway and himself to the wheel. When the schooner went on the rocks he assisted her ashore and from the lighthouse at Cape False the crew made its way forty miles to San Jose del Caco on foot. There they took passage on the Mexican steamer Bonito for Mazatlan. At that port they went aboard the City of Sydney.

Seeing that a storm was aproaching Captain Yardley put to sea and for hours headed into the teeth of the hurricane, which threatened to send the vessel to the bottom. Through all the experience Mrs. Steeam bore up bravely and for this she received the admiration of the crew.

CONGREGATIONS SOON HOMELESS

First Presbyterian and First Methodist Churches in Quandary.

Two Oakland church congregations are now facing the predicament of not having any edifice in which to hold services shortly after the first of the year. They are the First Presbyterian and the First Methodist churches. About six months ago the first mentioned denomination sold its property at Fourteenth and Franklin streets for $300,000 to a syndicate headed by Joseph F. Carlston, president of the Central National Bank, R. M. Fitzgerald and others, and the same week the First Methodist Church property at Fourteenth and Clay streets was sold to practically the same coterie of financiers for $275,000, through the Laymance Real Estate Company. The building must be vacated by April 21, 1912, according to the terms of sale. The First Presbyterian property must be turned over by the first of February next year.

With but a few more months' occupancy left, and with the plans in both instances for the construction of new houses of worship still unsettled, the congregations face a discontinuance of services unless some arrangement can be made for an extension of time or for some suitable auditorium. It will take nearly a year longer for the completion of the buildings, even in the event that plans are agreed upon by the boards of directors, in the near future. General plans have been agreed upon in both instances, but contemplated alterations have held the matter from final settlement.

The First Methodist Church purchased property at Twenty-fourth, Broadway and Webster streets, on which it will erect a $150,000 building as soon as the trustees can agree on plans. There is to be an auditorium seating 1250 people and a Sunday-school room seating 600 and a social hall and banquet room seating 600. The irregular shape of the lot makes the arrangement of a satisfactory building difficult. Norman F. Marsh of Los Angeles is the architect. The structure is to be of steel and concrete with stone facing.

Trustees and members of the congregation of the First Presbyterian Church have been wrangling for months over the arrangement of the parish house in connection with the main auditorium. They seem to be agreed on general lines but this matter is still at issue. They intended to spend but $150,000 but have raised this to $170,000.

MEMBERS' NIGHT IS CHAMBER PLAN

Third Friday Evening of Each Month Is to Be Set Aside.

The third Friday evening in every month has been set aside by the directors of the Chamber of Commerce, on the suggestion of the Progress and Prosperity committee of that body, for a "members' night," when it is planned to assemble the members of the Chamber for the purpose of discussing matters pertaining to the commercial, industrial and civic development of Oakland. This monthly open night will in future take the place of the quarterly meetings held for the same purpose.

The programs for these nights will be in general under the direction of the Progress and Prosperity committee, which will make an effort to secure various speakers of prominence to address the members along the desired lines.

The Chambers also will make efforts to arrange some sort of entertainment of meeting on the occasion of the visit of Congressman W. E. Humphrey of Washington, member of the house rivers and harbors committee, to Oakland, the early part of next month.

Congressman Joseph R. Knowland has asked the Chamber to make some efforts to entertain Humphrey, who is the only western member of the house on this particular committee, and also to place at his disposal any matter relative to the harbor developments which he may desire.

COMMERCIAL BODY TO INVESTIGATE

Subject Is Right of Counties to Operate Under a Charter.

Following the passage of the amendment to the state constitution giving counties the right to operate under a charter, the Chamber of Commerce intends to make an investigation of the matter as applied to Alameda county, and has delegated its legislative committee to confer with Senator John W. Stetson and District Attorney William Donahoe in the matter.

The directors of the Chamber have also appointed W. E. Gibson to act as a committeeman to represent the Chamber in a conference which will be held in the near future as to the removal of the plant of the California Sash and Door Company from the foot of Fourteenth street to permit of the opening of that thoroughfare through to the bay front. The City Council recently gave the company less than two months to make the removal, which it has been claimed will work an undue hardship on the company. A compromise order has been suggested and committees from the Merchants' Exchange, the Chamber of Commerce and the advocates of the street opening are to meet and discuss the matter, following which they will make recommendations to the City Council.

STRIKE BREAKER KILLED BY LAMP

FRESNO, Oct. 24.—W. L. Fuller, a guard employed by the Southern Pacific company in their stockade, was instantly killed this morning when an incandescent light fell from a tall pole and struck him directly on the top of the head, crushing his skull. One of Fuller's duties was to see that the lamp burned brightly all night. Fuller grasped the wire to shake the lamp as he stood directly under the heavy iron affair. The lamp broke from the cable and fell, the iron prong below crashing into the guard's skull.

SLAYER INSISTS ON PLEADING HIS GUILT

Eugene Ford, colored, who killed W. Watkins, another negro, several weeks ago in a saloon at 801 Brush street bu cutting his throat from ear to ear, appeared before Judge William S. Wells, sitting in the criminal department of the superior court, a fortnight ago, and pleaded guilty to murder in the second degree. Judge Wells did not think that Ford realized what his plea meant, and continued the case for the prisoner to consider the matter. This morning he was in court again and insisted upon the plea standing. Judge Wells continued the case again until Friday for sentence. The maximum penalty which the plea carries is life imprisonment.

HUSBAND LED GAY LIFE WIFE SAYS IN SUIT

Mary Rutan testified in the superior court in connection with her suit for a divorce from L. A. Rutan on the ground of failure to provide that if necessary to prove her complaint she could cite a thousand instances wherein her husband had entertained other women at hotels and downtown cafes. She was granted an interlocutory decree this forenoon. Rutan is a saloonkeeper and deals in automatic pianos. His wife told the court that he always made plenty of money, but allowed her to go hundry and without sufficient clothes while he had a gay time spending his money on other women.

The market rallied, however, owing to rumors of big exports. The close was steady at 65⅝@65½c for December, a net gain of ¼c.

ROUTINE DULLNESS RULES MARKET

Unusually Narrow Movement Marks Trading in Many Stocks.

NEW YORK, Oct. 24.—The dull routine of recent days on the stock exchange was followed throughout the morning session. Movements of stocks were unusually narrow. Reading was the most prominent feature and was the only stock in which there was any appearance of speculative interest. The Rock Island shades profited moderately by the favorable annual report of the company.

Renewed liquidation of American Cotton Oil which depressed it two points to 44⅛, the lowest since 1909, was attributed to expectation of an unfavorable annual report. Virginia-Carolina Chemical sagged a point in sympathy. Some of the railroad equipment stocks were weak. American Locomotive preferred and American Can yielding 1, the preferred and the New York Air Brake 2 points.

Among the standard stocks there was little change in the second hour, but prices hardened gradually to about yesterday's closing. Bonds were steady.

Reading and International Harvester were advanced ⅛ on the opening of the stock market today and Underwood Typewriter's recent gain was increased by 1¼. Union Pacific preferred and Western Union lost ⅜. Otherwise the list held steady within small fractions of yesterday's close. Trading was unusually light.

The market closed steady. When the baseball returns began to come in the traders flocked around the news' tickers and business in stocks virtually ceased.

J. L. DE FREMERY DIES ACROSS BAY

Head of Oakland Pioneer Family Is the Victim of Acute Pneumonia.

James L. De Fremery, member of one of Oakland's pioneer families, banker and manufacturer, died late yesterday in the Adler sanitarium, San Francisco, after a lingering illness. He was 52 years old, having been born in this city in 1859. His father, James De Fremery, came to California in 1849 and later founded the San Francisco Savings Union, of which he was president for twenty years. Upon his death his son succeeded him and took hold of the large estate which he has directed since, becoming prominent in financial affairs on both sides of the bay. The home place, at Sixteenth and Adeline streets, in West Oakland, was sold to the city of Oakland more than two years ago, but the family have continued to occupy the old residence, now on the site of De Fremery park and playground. The place has long been known as a show place of Oakland.

U. C. GRADUATE.

The deceased was a graduate of the University of California with the class of 1882. He carried off highest honors in the department of chemistry and after graduation went to Heidelburg, where he received his doctor's degree in the same science. Prior to the panic of 1907 De Fremery was president of the Union National bank in Oakland and since that time has been engaged in looking after his numerous interests in manufacturing and importing, carrying on large transactions in foreign trade. He was president of the De Fremery Wharf and Land Company on this side of the bay and of the James De Fremery Company, an importing concern in San Francisco.

The cause of death was attributed to an attack of acute pneumonia, though an operation was performed several days ago for stomach trouble. He had been removed to the hospital but a week prior to his demise. Besides the widow, Mrs. W. H. De Fremery, a daughter, Miss Virginia De Fremery, and four sons, James, Leon, Adolph and Paul, survive the deceased.

The funeral services will be held tomorrow afternoon from his late residence, 1305 Adeline street, private. The Rev. Frank L. Goodspeed of the First Presbyterian church will officiate. Interment will be in Mt. View cemetery.

BRITISH CONSUL AMONG WOUNDED

MALTA, Oct. 24.—In letters received here from Benghasi, Tripoli, the writers estimates the casualties among the inhabitants resulting from the bombardment by the Italian fleet at 4000. The British consulate was badly damaged and Consul John Francis Jones was wounded. Several Jews who are British subjects and had taken refuge in the British consulate were killed or wounded. Numerous buildings, including a Maltese church, were destroyed. Eight Maltese were killed.

The correspondents add that wild panic prevailed in the city.

LONDON, Oct. 24—The correspondents of the London Times and other English papers at Tripoli have been reporting by way of Malta that the affair at Benghasi was much more serious than the Italian censorship had permitted to be known.

STOPS YOUR HAIR FALLING OUT AND DISSOLVES DANDRUFF AT ONCE

Your hair appears soft, lustrous, fluffy and abundant after using a little Danderine

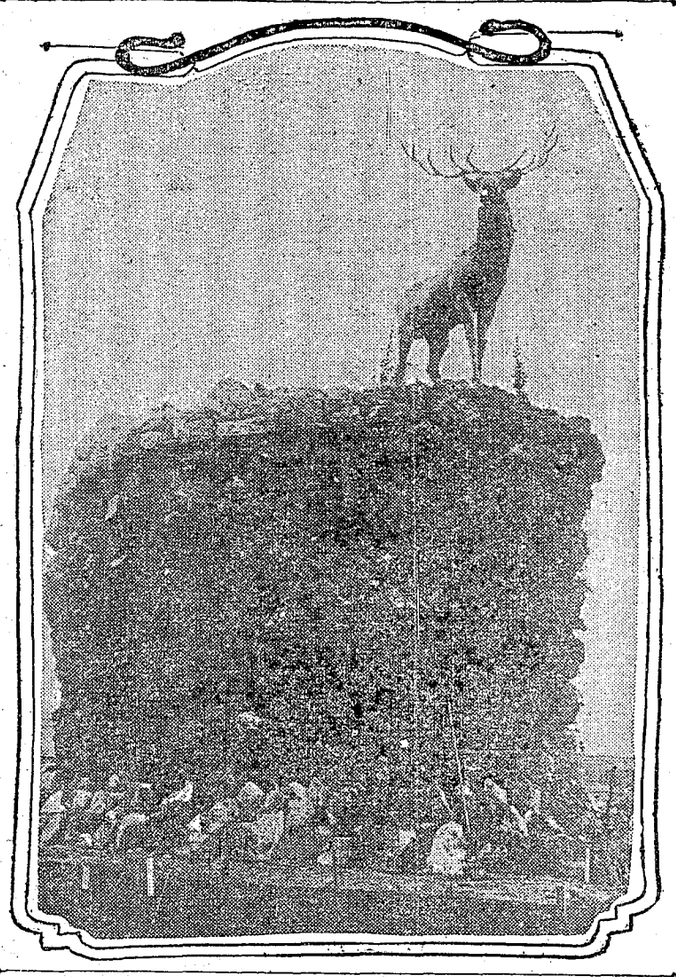

What causes Dandruff, itchy scalp and falling hair? Who cares—so long as Danderine overcomes this—and it does, and quickly, too—it does more, it grows hair, and we can prove it.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—sprouting all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; and incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—thats all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

ELKS ERECT COLUMBARIUM IN SUNSET VIEW CEMETERY

Rock Columbarium erected by Berkeley Lodge of Elks on their plot in Sunset View Cemetery.

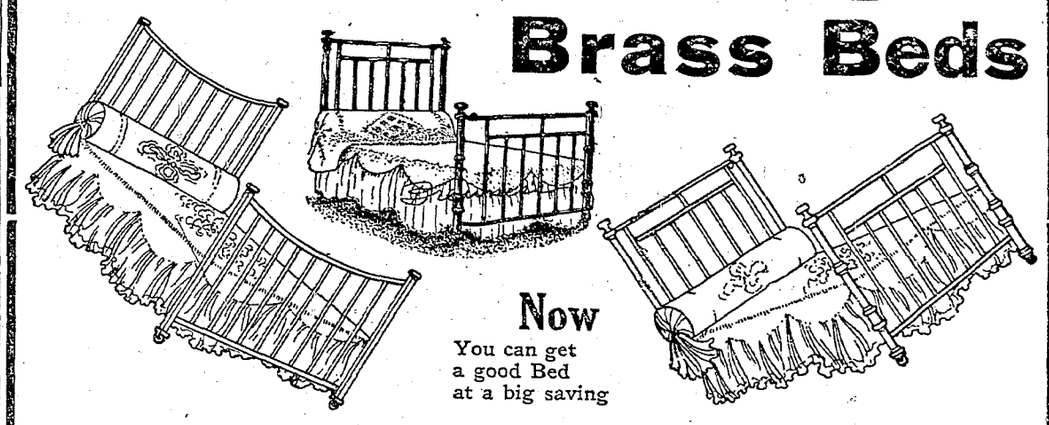

BERKELEY, Oct. 24.—One of the most attractive columbariums in all Elkdom is that which has een erected by Berkeley Lodge, No. 1002, B. P. O. E., on its Elks' Rest plot in Sunset View cemetery, in the hills north of the county line. The cemetery association, through Frank J. Woodward, president, has donated the plot.

The structure, in which there are niches to contain the ashes of departed Elks, is built of rock from the Berkeley hills and is twenty feet in height. Surmounting it is a large bronze elk. Entrance to the columbarium is through a massive copper door.

The Elks' Rest dedicatory exercises, which were erroneously announced for last Saturday, will take place next Saturday afternoon at 3 o'clock, at the lodge plot. The dedication oration will be delivered by Ray Benjamin, a prominent Elk and assistant attorney general of the State. In connection with the ceremonies selections will be rendered by the Elks' quartet.

Burning of the mortgage on the Berkeley Elks new building site on Allston way, near Milvia street, will take place next Saturday evening on the lot upon which the Elks' home is to be erected before 1915. The sixth anniversary of the lodge's founding will be celebrated afterward in the lodgerooms.

COPENHAGEN MOB ATTACKS DR. COOK

Police Escort Necessary to Protect Discredited Explorer and Wife.

COPENHAGEN, Oct. 24.—Dr. Frederick A. Cook, the discredited discoverer of the North Pole, who was acclaimed as a public hero and decorated by the University of Copenhagen when he returned from the North three years ago, was yesterday mobbed in the streets here.

The doctor arrived here from the United States, accompanied by his wife, to begin a lecturing tour. A great crowd followed the couple as they left the station, hooting and hissing Cook until he was compelled to rush for safety into a nearby building.

A police escort was necessary to protect Dr. and Mrs. Cook on their way to a hotel.

IN POTTER'S FIELD.

SAN JOSE, Oct. 24.—Unless friends or relatives claim the body of Charles Kraus, who, before he died at the county hospital, said he was from 2510 Mission street, San Francisco, before tonight, the remains will be buried in the potter's field. Coroner Kell held an inquest last night and found that Kraus came to his death from injuries received accidentally by being hit by a train near Santa Clara.

PRESIDENT AGAIN DEFENDS POLICY

Declares Insults Have Been Only Replies Received to His Challenges.

ABERDEEN, S. D., Oct. 24.—In a speech before the Aberdeen Commercial Club here last night President Taft replied with feeling to the charge that he had set up the Supreme Court with the idea that it was to emasculate the Sherman anti-trust law, and declared anew his intention to have that law enforced to the letter.

"I have challenged, and I challenge again," he shouted, "any person to cite a case that would be condemned as a violation of the anti-trust law that would not be condemned under the decisions of the Supreme Court. As yet I have heard no reply.

"The only answer that has come has been an insult to the court and an insult to me. It is the charge that I set up the court with the purpose and understanding that it would emasculate the statute. Oh, gentlemen, there is not the slightest foundation for that.

"I am proud of the men that I have put on that court.

"But now that we have gotten the law in shape for real enforcement, after twenty years, I hear another cry that to enforce it will disturb business. I don't want to disturb business any more than any one else. But that statute was on the statute books when I took the oath of office to enforce the laws of the land, and I am going to see to it, so far as I have the power as chief executive, that every one who comes within that statute feels its heavy hand."

The examination will be held on January 29, 1912. At the present time there are thirteen vacancies. To be assigned to this select branch of the service, an officer must have had much experience. Only those with at least two years of commissioned service and graduates of the service schools and the staff college who have served two years with the organization to which they belong are eligible.

DEBT ON KEARNEY ESTATE PAID

FRESNO, Oct. 24.—That the regents of the State university have paid off practically the entire debt of the Kearney estate was a statement made by Dr. Chester Rowell, State university regent, yesterday. When the property was taken over by the university after Kearney's death the debt aggregated $400,000. Dr. Rowell says that the way is now clear for the establishment of a school of agriculture and for the beautifying of the estate.

SKEENA RIVER FLEET TIED UP

End of Season Marks Passing of Old Time Stern Wheelers.

PRINCE RUPERT, B. C., Oct. 24.—The Skeena river fleet, with the exception of the steamers Operator and Conveyor, which are to go to the Frazer river, went into their winter quarters on Digby Island today.

It was rather a pathetic occasion for it probably marks the passing away of the old-time stern wheelers on the Skeena. This year the Grand Trunk Pacific Railway line was opened up nearly to Kitselas and by the time the ice breaks next spring, if the railroad builders have ordinarily good luck, the line will be through to Hazelton.

The two big boats, the Operator and Conveyor, will be towed to Vancouver and there taken to pieces and shipped by way of Edmonton by rail and reassembled on the upper Frazer.

DR. SUN TO BE GUEST OF MULTI-MILLIONAIRE

LOS ANGELES, Oct. 24.—Dr. Sun Yat Sen, head of the Chinese revolution and prospective President of the provisional republic, is due in this city Thursday as a guest of a prominent Pasadena multimillionire, who is one of the principals behind the proffered loan of $35,000,000 by wealthy Americans. The name of the Pasadena man the local Chinese revolutionary leaders decline to give for obvious reasons, the main one being that he is unwilling to be known in the matter.

Another reason is that there are strong enemies of the movement among the Chinese here, who would not hesitate to take his life it is believed. The Pasadena man has been interested five years and has given liberally, and Dr. Sun Yat Sen has been his guest four times. In honor of the leader the local Chinese are arranging a great parade for next Saturday night.

MILES MAY BE SECOND MAN ON THE TICKET

WASHINGTON, Oct. 24. — Lieutenant-General Nelson A. Miles, U. S. A., retired, admitted last night to a reporter that he had been approached with a suggestion that he permit the use of his name as a candidate for Vice-President on the Democratic ticket.

General Miles is discussed particularly in connection with the possible nomination by the Democrats of Champ Clark of Missouri as a candidate for the Presidency. It has been urged that while the military service of General Miles would make him a strong candidate, a ticket with Clark and Miles would be well balanced in more ways than one.

There is in the military record of General Miles much to inspire confidence.

SEVEN JURORS GAINED FOR OAKLANDER'S TRIAL

REDDING, Oct. 24.—The trial of Daniel Fleming of Oakland on a charge of murder entered upon its third week yesterday, with seven sworn jurors in the box.

Judge Barber excused one of the sworn jurors on the ground that he was not on the assessment roll. The defense objected strenuously. The court allowed the defense one extra peremptory to even things up.

Fleming's attorneys will use all their peremptories so as to perfect grounds for appeal. The trial will last for more than a month.

LEGISLATORS ON ANOTHER TANGENT

Southern California Delegation Favors Direct Election of Presidents.

LOS ANGELES, Oct. 24.—Members of the State Legislature hailing from Southern California will go to the special session called by Governor Johnson pledged among themselves to support a measure for the direct election of Presidents of the United States, according to an announcement tonight by a committee representing the entire Southern California delegation. A resolution to that effect was adopted at a meeting last night, called for the purpose of discussing the policy to be adhered to at the coming special session.

Besides the Presidential election question the manner of apportioning the state legislative districts according to the new census figures also was discussed.

FURTHER DEATHS NOT ANTICIPATED

Scurvy Decimating Holy Ghost and Us Society in Maine.

PORTLAND, Maine, Oct. 24. — No further deaths are expected among the followers of the Rev. Frank W. Sandford, president of the Holy Ghost and Us Society, who were stricken with scruvy while cruising on the yacht Coronet, which arrived here Saturday.

"Sanford knelt in the main cabin of the yacht and prayed that the vessel would become a veritable slaughter house and that the traitors on the deck would be killed," declared Sailing Master Harry Whittom of the Coronet in relating to a quarantine officer occurrences of the eventful trip.

These prayers, said Whittom, followed a complaint about conditions, a request that the yacht put into some port for provisions.

COLLECTOR STRATTON TO VISIT PRESIDENT

SAN FRANCISCO, Oct. 24.—Collector of Customs Stratton will leave Saturday for a month's visit to Washington, D. C., where he will call on the President and have conferences with many of the heads of governmental departments.

Scalloped Oysters

(Recipe by "Marion Harland")

Crush and roll several handfuls of friable crackers. Put a layer in the bottom of a buttered pudding dish. Wet this with a mixture of oyster liquor and milk, slightly warmed. Next, have a layer of oysters. Sprinkle with salt and pepper, and lay small bits of Cottolene upon them. Then another layer of moistened crumbs, and so on until the dish is full. Let the top layer be of crumbs, thicker than the rest, and eat an egg into the milk you pour over them. Stick bits of Cottolene thickly over it, cover the dish, set it in the oven, bake half an hour; if the dish be large remove the cover, and brown by setting it on the upper grating of oven, or by holding a hot shovel over it.

NO CASCARET USER EVER HAS HEADACHE

A 10-Cent Box Will Keep Your Liver, Stomach and Bowels Clean and Fresh for Months.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system, is re-absorbed into the blood. When the poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.

$1000-A-WEEK BANKER WILL WORK FOR $21

CHICAGO, Oct. 24.—John J. Mitchell, the millionaire Chicago banker and director of a score of corporations, including some of the greatest banks and railroads in the world, whose salary as president of the Illinois Trust and Savings Bank is $100 a week, appeared yesterday before Judge John E. Owens of the County Court, ready to begin two weeks' service as a petty juror. His pay will be $3 a day, or $36 for the two weeks he will serve.

Mitchell said he would collect the money as soon as it was due, the same as his fellow jurors, among whom are clerks, laborers and small business men.

"I have no objections to serving as a juror," Mitchell said, "but I think the jury system is a farce."

LIL 'ARTHA ORDERED TO PAY DAMAGES

LONDON, Oct. 24.—John Arthur Johnson, the negro heavy-weight fighter, was sued by a woman yesterday who rented him a flat in Paddington. She testified that the pugilist, because of his unusual strength, smashed a large quantity of dishes and furniture. It was added that he made the flat so filthy as to be untenable. Johnson did not appear in court and was ordered to pay $37 damages.
